Cairo University
Faculty of Veterinary Medicine
Department of Microbiology

*"Preparation of DNA vaccine against
Infectious Bursal Disease Virus and evaluation
of its immunizing potential in chickens"*

*A Thesis presented
by*

Lamiaa Mohamed Omar Farag Gaafar

B.V.Sc. (1990), Cairo University

M.V.Sc. (1996), Cairo University

for the Degree of Doctor of Philosophy

in

Microbiology

(Bacteriology, Immunology and Mycology)

Under the Supervision of

Prof. Dr. Rafik T. Soliman

Prof. of Microbiology
Faculty of Veterinary Medicine,
Cairo University

Prof. Dr. Elham Atta El-Ebiary

Chief Researcher and Director of Central Laboratory of Control of Veterinary
Biologics, Abbasia, Cairo

B 15V79

{ 2002 }

Cairo University
Faculty of Veterinary Medicine,
Department of Microbiology

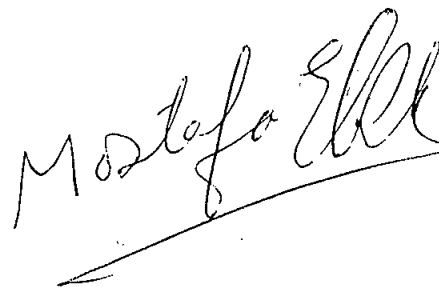

APPROVAL SHEET

*This is to approve that the dissertation presented by
Lamiaa Mohamed Omar Farag Ghaalcr to Cairo
University for the Ph.D. Degree (Microbiology "Bacteriology-
Immunology-Mycology") has been approved by the examining
committee:*

COMMITTEE

1. Prof. Dr. Mostafa Said Khalil El-Rehawy

Professor of Microbiology
Faculty of Veterinary Medicine,
Assiut University

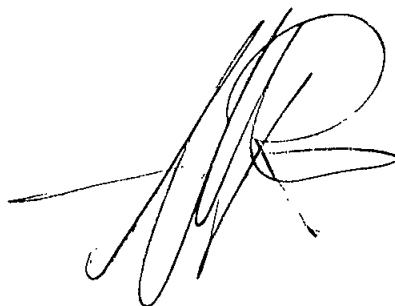

2. Prof. Dr. Kamilia Mahmoud Osman

Professor and Head of Microbiology Department
Faculty of Veterinary Medicine,
Cairo University

3. Prof. Dr. Rafik Tawfik Soliman

Professor of Microbiology
Faculty of Veterinary Medicine,
Cairo University
(SUPERVISOR)

Date : 20 / 2 / 2002

بسم الله الرحمن الرحيم

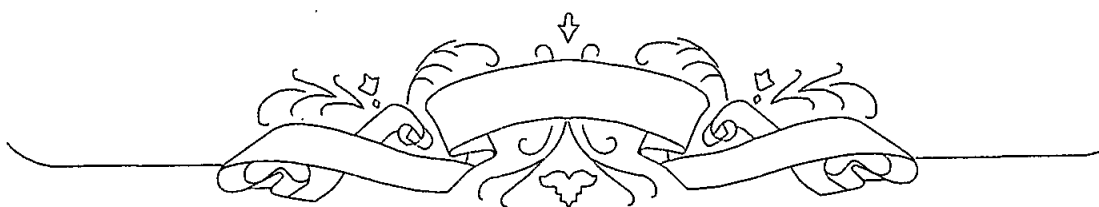

(وَقَالَ رَبِّ أَوْزِعْنِي أَنْ أَشْكُرَ نِعْمَتَكَ الَّتِي أَنْعَمْتَ

عَلَيَّ وَعَلَىٰ وَالِدَيَّ وَأَنْ أَعْمَلَ طَالِبًا تَرْضَاهُ

وَأَدْخِلْنِي بِرَحْمَتِكَ فِي عِبَادِكَ الصَّالِحِينَ)

صدق الله العظيم

(سورة النمل - الآية ١٩)

Sincere thanks should be conferred to
Prof. Dr. Elham Atta El-Ebiary
Director of the Central Laboratory for
Control of Veterinary Biologics,
Abbasia, Cairo, for her scientific
supervision and supplying facilities for
this work.

Dedication

To :

My parents ,

Sister ,

Brothers

and

My Husband

ACKNOWLEDGEMENT

I am greatly indebted in all my work and success
to our merciful "Allah".

I would like to express my great thanks to **Prof. Dr. Rafik Soliman**, Professor of Microbiology, Faculty of Veterinary Medicine, Cairo University, for his ideal sincere guidance and his great help in the work at hand. I have benefited immensely from his diligent, patient and intelligent supervision and stimulating encouragement. I wish him good health for every thing he did for me from searching about the title till the final revision of the study.

I can not find suitable words that could express my deep appreciation and thanks to my supervisor **Prof. Dr. Elham Atta El-Ebiary**, Director of Central Laboratory for Control of Veterinary Biologies, Abbasia, Cairo, for her great effort, valuable supervision, ideal sincere, stimulating and continuous help

and encouragement to accomplish this work. I will never forget her kind support either by facilitating the requirements or by offering me much of her precious time and effort in the practical part.

Frankly, a lot of people deserve appreciation and thanks, but I never forget my husband **Dr. Nasser A. Sherif**, Researcher, Central Laboratory for Control of Veterinary Biologics, Abbasia, Cairo, for his carefulness, great role and assistance during the practical part in addition to my complete dependence on him in solving a lot of problems that faced me in this work.

It is a great pleasure to mention the great help and cooperation of my colleagues **Dr. Farid Foad**, **Dr. Mohamed Abd El-Khalik**, **Dr. Amal Ahmed**, **Dr. Afaf Kheidr** and **Dr. Selim Salama**, Central Laboratory for Control of Veterinary Biologics, Abbasia, Cairo.

*I give my sincere gratitude to all the **colleagues** and **personnel** of Central Laboratory for Control of Veterinary Biologics, especially Technicians of Inactivated Poultry Viral Vaccines Quality Control Unit, namely; **Sawsan, Rabab, Sala, Abeer and Sewaida** for their great help.*

*I would like also to express my sincere gratitude and extreme respect and acknowledgement to **My Family** who gave me great support and encouragement to face any difficulties during my way to accomplish this study.*

*Lastly, my thanks is sent to **every hand** that was extended to help me to allow the fulfillment of this work.*

List of Contents

	Page
1. Introduction	1
2. Review of Literature	5
2.1. DNA vaccine (A New Era in Vaccinology)	5
2.2. Immune responses against DNA vaccines	16
2.3. Infectious Bursal Disease (IBD)	27
2.4. Infectious bursal disease virus (IBDV) and its genome	34
2.5. Vaccines and vaccination against IBD	55
2.5.1. Live vaccine	57
2.5.2. Killed vaccine	64
2.5.3. Recombinant vaccine	68
2.5.4. Subunit vaccine	72
2.6. Some parameters for IBDV-DNA vaccine preparation	76
3. Material and Methods	83
3.1. MATERIALS	83
3.1.1. IBDV strains	83

	Page
3.1.2. <i>IBDV</i> antiserum	83
3.1.3. Embryonated chicken eggs	83
3.1.4. Chickens	83
3.1.5. Mice	84
3.1.6. Materials used for propagation and purification of <i>IBDV</i>	84
3.1.7. Materials used for extraction of <i>IBDV</i> dsRNA	84
3.1.8. Materials used for purification of ds-RNA from other nucleic acids	85
3.1.9. Materials used for Agarose gel electrophoresis	86
3.1.10. Materials used in Gel Extraction	87
3.1.11. Materials used for cDNA synthesis	88
3.1.12. Materials used in Amplification of <i>IBDV</i> cDNAs	88
3.1.13. Materials used in Digestion of PCR products and vector	89
3.1.14. Materials used in purification of the digested genes and vector	89
3.1.15. Materials used in ligation of the digested segments into the vector	89
