Dr. / THORIA MOSLEM HASSAN

**Assist. Prof. of Nutrition and Food Science Dept.
Faculty of Home Economics
Menoufia University**

APPROVAL SHEET

Title of Thesis : Assessment of Traditional Weaning Foods in
Menoufia Governorate

Degree : M. Sc. Degree in Nutrition and Food Science

Name of Student : Samia Abd Allah Mohamed El Prlusy

This Thesis Has Been Approved by:

Prof. Dr.

Prof. Dr.

Prof. Dr.

Prof. Dr.

Prof. Dr.

Prof. Dr. M.M. El-Sayed
Prof. Dr. D.K. Eshra
Prof. Dr. El-Di

Committee in Charge

ate / / 1997

ACKNOWLEDGMENT

I wish to express my hearty appreciation and sincere gratitude to Prof. Dr. / Mohamed Samir El Dashloty Prof. of Nutrition and Food Science, Home Economic Faculty, Menoufia University for his supervising this work and for his significant advice and criticism in the preparation of the thesis.

My sincere gratitude are due to. Prof. / Laila Shehata Dorgham Prof. of Public Health, Faculty, of Medicine Menoufia University for her interest indispensable advice and valuable comments.

My sincere gratitude and indebtedness are due to. Dr. / Thoruia Moslem Hassan Assisst Prof. of Nutrition and Food Science, Home Economic Faculty, Menoufia University for her interest indispensable advice and valuable comments.

APPRECIATION LETTER

First of all I would like to thank our God for granting me this opportunity to offer this work.

Also, I would like to express my deep thanks to my family, specially to my husband for helping, supporting and sacrificing of his valuable time and also my thanks to my sons.

LIST OF CONTENTS

<u>INTRODUCTION</u>	1
<u>AIM OF STUDY</u>	3
<u>REVIEW OF LITERATURE</u>	4
<u>A)- BREAST FEEDING:</u>	4
a) Advantages of breast feeding :-	8
<u>Advantages for babies:</u>	9
<u>Advantages for mothers:-</u>	10
b-) Deterrents to Breast- feeding;-	13
<u>Technique of Breast feeding:</u>	15
<u>Breast Feeding And Working Mother:</u>	17
<u>B- FEEDING FORMULA:</u>	19
a)- <u>Comparison of human and cow's milk:</u>	22
<u>1- Fat:</u>	22
<u>2- Carbohydrate:</u>	23
<u>3- protein :</u>	24
<u>4- Minerals :-</u>	25
<u>5- Vitamins:</u>	26
b)- <u>Sterilization of formula:-</u>	27
c)- <u>Technique of feeding :</u>	28
<u>C) NUTRITION IN INFANCY:</u>	30
<u>D)-GROWTH AND DEVELOPMENT OF THE INFANT:</u>	33
a)- <u>Gastrointestinal system:</u>	35
b)- <u>Renal system:</u>	36
c)- <u>Cardiovascular - Respiratory systems:</u>	37
d)- <u>Brain Development:</u>	37
e)- <u>Body composition:</u>	38
f)- <u>The skeleton contains:-</u>	38
g) <u>Development of feeding skills:</u>	38
<u>E)- INFANT NUTRITIONAL NEEDS:-</u>	40
a)- <u>Energy:-</u>	40
b) - <u>Protein:-</u>	42
c)- <u>Fat:</u>	43
d)- <u>Water:</u>	45
e) <u>Minerals:</u>	46
f)- <u>Vitamins:</u>	48
g)- <u>Carbohydrate:</u>	50
<u>F) - WEANING :</u>	52
<u>Weaning practice in developing countries:</u>	54
<u>G)- CURRENT POLICIES OF WEANING:</u>	58
a)- <u>Timing :</u>	58
b)- <u>Method:</u>	62
C)- <u>Food Composition:</u>	64
<u>The best foods for children who are being weaned are:</u>	65
<u>1- High in energy (kcalories):</u>	65

2- Easy to digest:.....	65
3- Pure and clean:.....	65
4- Inexpensive and easy to prepare:.....	65
<u>The priorities for weaning foods are as follows:.....</u>	67
<u>Commercially prepared baby foods:.....</u>	68
<u>Home prepared baby foods:.....</u>	70
<u>H)- POSSIBLE FEEDING PROBLEMS:.....</u>	73
a)- Colic:.....	73
b)- Spitting up and vomiting:.....	73
c)- Diarrhea:.....	74
d)- Constipation:.....	75
e)- Malnutrition:.....	75
1) Protein Energy Malnutrition:.....	76
2) Iron - deficiency anemia:.....	77
3) Vitamin Deficiencies:.....	78
f)- Food Allergies in young Infants:.....	79
<u>I)- ASSESSMENT OF NUTRITION STATUS:.....</u>	80
a)- Historical Data:.....	81
b) - Anthropocentric Measurements:.....	81
1) Head circumference:.....	81
2- Weight.....	81
3- Length :.....	82
 <u>MATERIALS AND METHODS.....</u>	 83
A - SAMPLE SITE :.....	83
B -Sample Size:.....	83
C - Design of work:.....	83
D- THE QUESTIONNAIRES.....	83
STATISTICAL ANALYSIS.....	84
 <u>RESULTS AND DISCUSSION.....</u>	 85
A- BIOSOCIAL CHARACTERIZES OF SAMPLE:.....	85
B-CHILD ORDER IN THE FAMILY AND TIME ELAPSED BETWEEN SUCCESSFUL DELIVERIES.....	87
C- WATER SUPPLY AND SEWAGE DISPOSAL :.....	89
D- MATERNAL CHARACTERS:.....	90
E- PATERNAL CHARACTERS:.....	94
F-ANTHROPOMETRIC MEASURES OF CHILDREN AS DISTRIBUTED BY AGE GROUPS AND RESIDENCE:.....	96
G-FEEDING PRACTICES OF INFANTS AS DISTRIBUTED BY RESIDENCE:.....	98
H- ARTIFICIAL FEEDING:.....	99
I- TYPE AND DILUTION OF ANIMAL MILK PRACTICE:.....	103
J- TONICS INTAKE BY INFANT:.....	106
K- MATERNAL KNOWLEDGE ABOUT WEANING:.....	106
L- FEEDING OF SICK CHILD:.....	110
M - FEEDING OF DIARRHETIC AND VOMITING INFANT.....	111
N- FEEDING INFANTS OF ALLERGIC DISEASES.....	117

<u>O- FEEDING INFANTS SUFFERING RESPIRATORY SYSTEM DISEASE:</u>	119
<u>P- MOTHER IDEA ABOUT FORBIDDEN FOODS TO INFANTS FROM BIRTH UNTIL 2 YEARS OLD.</u>	123
<u>Q- SUPPLEMENTARY FEEDING:</u>	123
<u>R- FREQUENCY DISTRIBUTION FOR CONSUMPTION OF SUPPLEMENTARY FOOD BY DIFFERENT AGE GROUPS OF INFANTS AS DISTRIBUTED BY RESIDENCE:</u>	126
<u>S- SOME STATSTICAL RELATIONSHIPS:</u>	136
<u>a- Relation Between Sex and Anthropometric Measures:</u>	136
<u>b- Relation Between Family Size and Anthropometric Measures:</u>	137
<u>c- Relation Between Water Supply and Anthropometric Measures:</u>	138
<u>d- Relation Between Sewage Disposal and Anthropometric Measures:</u>	138
<u>e- Relation Between Income Level and Anthropometric Measures:</u>	139
<u>f- Relation Between Maternal Education and Infant Anthropometric Measures:</u>	140
<u>G- Relation Between Maternal work and Infant Anthropometric Measures:</u>	141
<u>h- Relation Between Sex of Infant and Feeding Practices:</u>	142
<u>I- Influence of Family Size on Feeding and Weaning Practice:</u>	146
<u>J- Influence of Income Level on Feeding and Weaning Practice:</u>	149
<u>K- Influence of Water Supply on Infant Feeding and Weaning Practice:</u>	152
<u>L- Influence of Sewage Disposal on Infant Feeding and Weaning Practice:</u>	155
<u>M- Influence of Mother Education on Infant Feeding and Weaning Practice:</u>	157
<u>N- Influence of Mother's Work on Infant Feeding and Weaning Practice:</u>	159
<u>RECOMMENDATIONS</u>	162
