

**Treatment Outcome of Revascularization  
Protocol of Symptomatic and Asymptomatic  
Immature Permanent Teeth Using Different  
Disinfection Protocols.  
(In vivo study).**

**Thesis  
submitted to the Endodontic Department,  
Faculty of Dentistry, Ain-shams University**

**for  
Partial fulfillment of the requirement for  
The Master Degree in Endodontics**

**By  
Mona Mohamed Salah  
B.D.S (2004)  
Ain-Shams University**

**2019**

# **Supervisors**

## **Dr. Kariem El-Batouty**

Professor of Endodontics

Faculty of Dentistry - Ain Shams University

## **Dr. Mohamed Mokhtar Nagy**

Ass. Professor at Endodontic Department,

Faculty of Dentistry - Ain-Shams University

# ***Acknowledgement***

*First of all, all gratitude is due to Allah almighty for blessing this work, until it has reached its end, as a part of his generous help, throughout my life.*

*Really I can hardly find the words to express my gratitude to Dr. Kariem El-Batouty, Professor of Endodontics , Faculty of Dentistry - Ain Shams University, for his supervision, continuous help, encouragement throughout this work and whole work. It is a great honor to work under his guidance and supervision.*

*I would like also to express my sincere appreciation and gratitude to Dr. Mohamed Mokhtar Nagy, Ass. Professor at Endodontic Department, Faculty of Dentistry - Ain-Shams University, for his continuous directions and support throughout the whole work.*

*My deep appreciation to Dr. Tariq Yahia and Dr. Sara Hossam ,Lecturers of Endodontics, Faculty of Dentistry- Ain-Shams University, for their great technical assist in the methodology part of this study.*

*I would like to thank all members of Endodontic department Faculty of Dentistry - Ain-Shams University, for their valuable support and cooperation.*

***Mona Mohamed Salah***

# ***Dedication***

*I dedicate this work to my family, whom without their sincere emotional support, pushing me forward this work would not have ever been completed.*

*Words fail to express my love, respect and appreciation to my husband for his unlimited help and support.*

*Last but not least, I dedicate this work to my adorable kids.*

*Mona Mohamed Salah*

# List of Tables

<b>Table</b>	<b>Title</b>	<b>page</b>
1	Percentage change of root length for different groups at different follow up periods.	54
2	Percentage change of root length for different groups.	55
3	Percentage change of root length for different subgroups.	57
4	Percentage change of root thickness for different groups at different follow-up periods.	61
5	Percentage change of root thickness for different groups.	62
6	Percentage change of root thickness for different subgroups.	63
7	Percentage change of apical diameter for different groups at different follow up periods.	67
8	Percentage change of apical diameter for different groups.	68
9	Percentage change of apical diameter for different subgroups.	69

## List of Figures

<b>Fig</b>	<b>Title</b>	<b>Page</b>
1	Showing two syringes of TAP and DAP pastes.	36
2	Schematic diagram for cases classification.	39
3	Photograph showing the 1st page of the informed consent.	44
4	Photograph showing the 2nd page of the informed consent.	45
5	Photograph showing the 3rd page of the informed consent.	46
6	Photographs showing the clinical steps of pulp revascularization; a) dry clean canal after removal of intracanal medication, b) blood clot induced up to the level of canal orifice, c) mta orifice plug.	47
7	Photograph showing digital measurement of root length in pre-operative (1) and postoperative (2) radiographs using Image J software.	48

## List of Figures (Cont.)

<b>Fig</b>	<b>Title</b>	<b>page</b>
8	Photograph showing digital measurement of root thickness at the apical third in preoperative (1-2) and post-operative (3-4) radiographs using Image J software.	49
9	Photograph showing digital measurement of the apical diameter in pre-operative (1) and post-operative (2) radiographs using Image J software.	50
10	Bar chart showing average percentage change of root length for different follow up periods within different groups.	55
11	Bar chart showing average percentage change of root length for different groups.	56
12	Bar chart showing average percentage change of root length for different subgroups.	57
13	Bar chart showing average percentage change of root length for different groups within different follow up intervals.	58
14	Bar chart showing average percentage change of root thickness for different follow-up periods within different groups.	61
15	Bar chart showing average percentage change of root thickness for different groups.	62
16	Bar chart showing average percentage change of root thickness for different subgroups.	64
17	Bar chart showing average percentage change of root thickness for different groups within different follow-up intervals	65

## List of Figures (Cont.)

<b>Fig</b>	<b>Title</b>	<b>page</b>
18	Bar chart showing average percentage change of apical diameter for different follow up periods within different groups	67
19	Bar chart showing average percentage change of apical diameter for different groups.	68
20	Bar chart showing average percentage change of apical diameter for different subgroups.	70
21	Bar chart showing average percentage change of apical diameter for different groups within different follow up intervals.	71
22	Radiograph showing representative case of group IIA(tap in asymptomatic).	72
23	Radiograph showing representative case of group IIB(DAP in asymptomatic).	73
24	Radiograph showing representative case of group IA (TAP in symptomatic).	74
25	Radiograph showing representative case of group IB(DAP in symptomatic).	75
