**Geological and hydrogeological studies on
El-Faiyum area and its vicinities and
the propability of groundwater
pollution in the area**

THESIS

**SUBMITTED FOR THE REQUIRMENTS OF
PH.D.DEGREE**

BY

Ahmed Gaber Shedid Ibrahim
B.Sc. (Geology), M.Sc. (Hydrogeology)

SUPERVISED BY

Prof. Dr. Maghawry Sh. Diab
Prof. of Hydrogeology
Faculty of Science - Menoufia University
Cultural Counsellor of the Embassy of
A.R. Egypt : Warsaw, Poland.

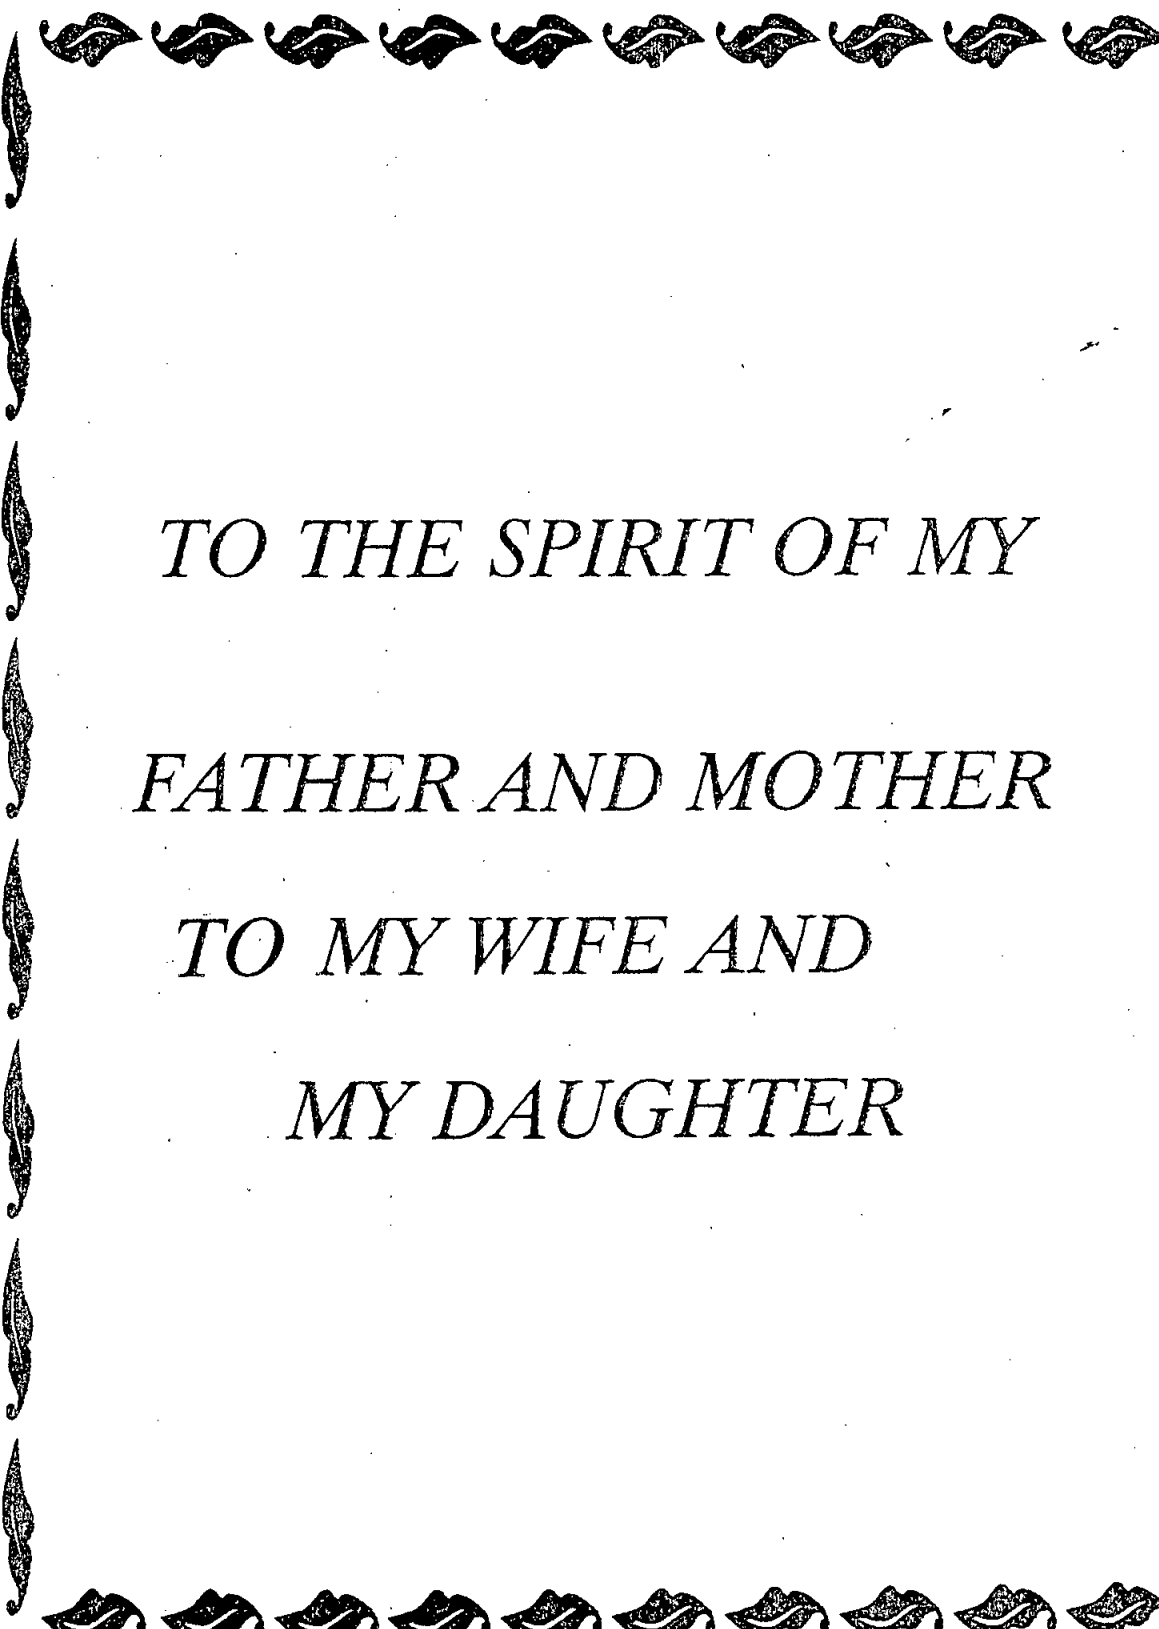

Kamel Shamah

Dr. K. M. Shamah
Ass. Prof. of Geology
Cairo University

TO

Geology Department
Faculty of Science
Menoufia University

1994

A decorative rectangular border composed of stylized, dark lips or petals arranged in a repeating pattern around the perimeter of the page.

*TO THE SPIRIT OF MY
FATHER AND MOTHER
TO MY WIFE AND
MY DAUGHTER*

ACKNOWLEDGEMENTS

certainly, aconvential word of acknowledgements can not properly pay for the valuable help and guidance I have received from seveal peoble in preparing this thesis.

The author would like to express his sincere thanks and deep gratitude to prof. Dr. *Maghawry Sh. Diab*, Professor of hydrogeology, Department of Geology, Faculty of Science, Menoufia University and the Cultural Counseller of the Embassy of A.R. Egypt: Warsaw, Poland for suggesting the problem, lyingout the plan of research, capable supervision, reading critically the manuscript and valuable discussion throughout the whole work.

The author owes a great debt to Dr. *Kamal M. Shamah*, Assistant professor of Geology, Department of Natural History, Faculty of Education, Faiyum Branch, Cairo University for his guidance, capable supervision and continuous encouragments and the facilities offered by him.

Sincere thanks are due to Prof. Dr. *Abdel Fatah M.El Shershaby*, Dean of the Faculty of Education, Faiyum Branch, Cairo University, for the Facilities offered to me during this study .

The author wishes to express his deep gratitude to his wife (*Nagla*) and his flower (*Rana*) for their continuous encouragement and the facilities offered to him during this study.

I express my deep gratitude to my colleagues in the Department of Natural History, Faiyum Branch, Cairo University (*Helal, Abuel- Ghaar and Ameen*) For their help.

The author would like to thank all the staff member of Geology Department, Faculty of Science, Menoufia University especially Dr. *M. Hathoot*, Dr. *I. Khalaf*, Dr. *Z. Rizk* and Dr. *H. El-Shaieb* for their continuous encouragement and help.

Also, I would like to thank all the membership of *Nasr Computer Center*. Shiben El-Koom.

The author
Ahmed Gaber Shedid

CONTENTS

	Page
INTRODUCTION.....	1
Previous work.....	1
Purpose and scope of the present work.....	4
Chapter (1):Geological conditions of El-Faiyum depression and its vicinities	9
1.1. Geomorphology	10
1.1.1. The depressions.....	12
1.1.2. The alluvial plains.....	12
1.1.3. The sand dunes	13
1.1.4. The structural plateaux	14
1.1.5. The hydrographic patterns	15
1.1.6. The lakes.....	16
1.2. Stratigraphy and lithology	16
1.2.1. Middle Eocene.....	25
1.2.2. Upper Eocene.....	33
1.2.3. Pliocene.....	39
1.2.4. Quaternary.....	43
1.3. Microfacies analysis and paleoecological investigations.....	46
1.3.1. Microfacies analysis.....	46
1.3.2. paleoecological investigations.....	82

1.3.2.1. The Gehannam Formation.....	84
1.3.2.2. The Birket Qarun Formation.....	85
1.4. Structural conditions.....	87
1.4.1. Unconformity.....	87
1.4.2. Folding.....	90
1.4.3. Faulting.....	90
1.4.4. Basalt intrusion.....	91
1.4.5. Jointing.....	93

Chapter (2): Hydrological and hydrogeological conditions

OF El-Faiyum and Wadi El-Rayan depressions.	94
2.1. Hydrometeorology.....	95
2.2. The surface water resources.....	105
2.2.1. The irrigation system.....	108
2.2.2. The drainage system.....	111
2.3. Groundwater aquifers.....	136
2.3.1. The Quaternary aquifer.....	136
2.3.2. The Eocene aquifer.....	170
2.3.3. The Upper Cretaceous aquifer.....	175
2.3.4. The Lower Cretaceous aquifer.....	175
2.4. Hydrogeological relationships between surface water and groundwater occurrences in El-Faiyum area and Vicinities.....	176
2.5. Discussing of the problem of water level increase in lake Qarun and the Quaternary aquifer under El-Faiyum depression.....	186

Chapter (3): Hydrogeochemical conditions of El-Faiyum and

Wadi El-Rayan depressions.....	189
3.1. Hydrochemistry of surface water	191
3.1.1. Hydrochemistry of irrigation canals.....	191
3.1.2. Hydrochemistry of the main drains.....	198
3.1.3. Hydrochemistry of lake Qarun.....	206
3.1.4. Hydrochemistry of Wadi El-Rayan lakes....	232
3.2. Hydrochemistry of groundwater.....	238
3.2.1. Hydrochemistry of Quaternary aquifer.....	238
3.2.2. Hydrochemistry of El-Faiyum springs.....	257
3.2.3. Hydrochemistry of Eocene aquifer.....	266
F. Hydrochemical classification of surface water and groundwater.....	271
G. Origin of mineralization of surface water and groundwater.....	279
Chapter (4): Evaluation of water.....	285
4.1. Evaluation of water for domestic purposes....	285
4.2. Evaluation of water for irrigation purposes....	287
4.3. Evaluation of water for livestock purposes...	291
4.4. Evaluation of water for industrial purposes..	292
SUMMARY AND CONCLUSIONS.....	294
REFERENCES.....	317
APPENDIX (A): Climatological parameters of the area under study.	
APPENDIX (B): Hydrogeological logs of shallow and deep water wells.	

APPENDIX (C): Results of chemical analysis of surface water and groundwater.

APPENDIX (D): Evaluation of surface water and groundwater for irrigation purposes.

ARABIC SUMMARY.

LIST OF FIGURES

Figure no	page
Fig. (1) : Location map of El-Faiyum depression and its vicinities	2
Fig. (2) : Location map of the collected surface sections.....	6
Fig. (3) : Physiographic map of El-Faiyum depression and its vicinities.....	11
Fig. (4) : Sand dunes accumulation in the area under study.....	14
Fig. (5) : Geological map of El-Faiyum depression and its vicinities.....	24
Fig. (6) : Stratigraphic columnar section of Gebel El-Nalun, NE El-Faiyum, Egypt.....	26
Fig. (7) : Stratigraphic columnar section of Gebel El-Lahun NE El-Faiyum, Egypt.....	27
Fig. (8) : Stratigraphic columnar section of Eocene rocks at Geziret El-Qarn El-Dahabi inside lake Qarun..	28
Fig. (9) : Stratigraphic clumnar section of El-Nazla section, south El-Faiyum, Egypt.....	29
Fig.(10) : Dolomitic concretions scattered on the surface of limestone bed in the middle part of the RavineFormation at G.El-Lahun.....	31
