

**Surgically Assisted Rapid Maxillary
Expansion using Tooth borne vs. Bone
borne Expanders;
A Clinical Comparative Study**

A Thesis

Submitted to the Faculty of Dentistry, Ain Shams University in
partial fulfillment of the requirements for the Doctorate Degree in
Orthodontic

By

Marwah Salah Abd El-Latief Moustafa

B.D.S 2004

M.D.S 2012

Faculty of Dentistry
Ain Shams University
2018

Supervisors

Dr.Hamdy Hafez El-Zahed

Professor of Orthodontics
Faculty of Dentistry, Ain Shams University

Dr.Noha Ezzat Sabet

Professor of Orthodontics
Vice Dean of post-graduate Affairs
Faculty of Dentistry, Ain Shams University

Dr.Dina Hussein El-Ghoul

Assistant Professor of Orthodontics
Faculty of Dentistry, Ain Shams University

Dr.Marwa Abd El-Wahab El-Kassaby

Professor of Oral and Maxillofacial Surgery
Faculty of Dentistry, Ain Shams University

Acknowledgment

*I would like to express my most sincere gratitude to **Dr. Hamdy Hafez El Zahed** Professor of Orthodontics, Faculty of Dentistry, Ain Shams University. His endless encouragement will always be sincerely remembered.*

*No words can express my great appreciation to **Dr. Noha Ezzat Sabet**, Professor of Orthodontics, Vice Dean of post-graduate Affairs, Faculty of Dentistry, Ain Shams University for her valuable advice and devoted effort. Her unique cooperation will always be deeply remembered. This work could have never been completed without her sincere guidance.*

*I would also like to thank **Dr. Dina Hussein El-Ghoul** Assistant Professor of Orthodontics, Faculty of Dentistry, Ain Shams University for her, constant support during the course of this study.*

*Special thanks to **Dr. Marwa Abd El-Wahab El-Kassaby** Professor of Oral and Maxillofacial Surgery, Faculty of Dentistry, Ain Shams University for her valuable advice and insightful opinion throughout this work.*

*I would like to extend my gratitude to my colleagues at the department of Oral and maxillofacial surgery, Faculty of Dentistry, Ain shams University; namely **Dr. Ramy Gaber**, Lecturer of Oral and Maxillofacial Surgery, for his great work carrying out the surgical part of the current study and my fellow colleague **Dr. Mahmoud Yehia**, Lecturer of Oral and Maxillofacial Surgery, for his assistance.*

Last, but not least, I would like to express my deep thanks to all my colleagues and staff members of the Orthodontic Department for their support, cooperation and unforgettable help all the time.

To my dearest father,

To my loving mother,

To my sweet sister,

To my beloved, patient husband,

To the joy of my life, my little son,

Khaled.

List of Figures

Figure number	Title	Page number
1	G-power software for sample size calculation	47
2	Extra-oral and Intra-oral photographs	50
3	Orthodontic study model	51
4	Panoramic radiographs	52
5	Lateral cephalometric radiograph	52
6	Posteroanterior cephalometric radiograph	52
7	The iCAT CBCT machine	54
8	Elastomeric separators	56
9	Banding of first premolar and first permanent molar	56
10	Alginate impression with properly positioned bands	56
11	Working model with bands and selection of Jack screw of suitable size for Hyrax construction	57
12	Adjustments of the Jack screw to complete Hyrax laboratory construction	57
13	Appliance delivery and cementation in position	57
14	Transpalatal Distractors parts	59
15	Soft tissue incision	60
16	Shallow hole drilled in the palatal cortex	60
17	Distractor form stamp pushed in the palatal cortex	60
18	Abutments plate in place to be secured with mini-screw	60
19	The cylinder of the Smile Distractor with a right and left extensions on inserted in the corresponding abutment plate with the help of the distractor holder tool.	61
20	Blocking screw in place	61
21	Transpalatal distractor in place	61
22	Marking incision line	64
23	Reflection of mucoperiosteum and exposure of anterior surface of maxilla	64
24	Reflection of nasal mucosa	64
25	Tri-partite osteotomy. Left, frontal view. Right, palatal view	65
26	Marking of osteotomies	65

Figure number	Title	Page number
27	Lateral nasal osteotomy	66
28	Inter-dental osteotomy between lateral and canine.	66
29	Measuring palatal length on axial CBCT section for tri-partite osteotomy.	66
30	Paramedian palatal osteotomy	67
31	Complete tri-partite osteotomy.	67
32	Buccal displacement of maxillary canines after tri-partite osteotomy.	67
33	Wound closure	68
34	CONSORT 2010 Flow diagram	71
35	Orienting the CBCT in the frontal, sagittal and axial views.	72
36	Defining the desired landmarks	73
37	Greater palatine foramen landmark	75
38	Jugale landmark	76
39	Piriform aperture	76
40	Zygomatico-temporal suture landmark	76
41	Sella Turcica landmark	77
42	Nasion landmark	77
43	Subspinale (Point A) landmark	77
44	Orbitale land mark	78
45	Porion landmark	78
46	Maxillary buccal plate landmark at upper first premolar	80
47	Maxillary buccal plate landmark at upper first molar	80
48	Maxillary palatal plate landmark at upper first premolar	81
49	Maxillary palatal plate landmark at upper first molar	81
50	Buccal cusp (L) palatal cusp (R) landmark at upper first premolar	83
51	Buccal apex (L) palatal apex (R) landmark at upper first premolar	83
52	Mesiobuccal cusp(L), distobuccal cusp (Mid), mesiopalatal cusp(R)landmarks at upper first molar	84

Figure number	Title	Page number
53	Messiobuccal apex(L), distobuccal apex (Mid), palatal apex (R) landmarks at upper first molar	84
54	Alar base landmark	86
55	Soft tissue nasion landmark	86
56	Pronasale landmark	86
57	Subnasale landmark	87
58	Labrale superius landmark	87
59	Soft tissue pogonion landmark	87
60	Creating reference lines and planes	88
61	Frankfurt Horizontal plane	90
62	Sella Nasion line	90
63	Zygomaticotemporal line	91
64	First premolar and first molar long axis (palatal)	91
65	Palatal alveolar plate	92
65	Rickett's E-line	92
67	Defining the desired linear and angular measurements	93
68	Posterior skeletal width	95
69	Middle skeletal width	96
70	Anterior skeletal width	96
71	Maxilla to cranial base (SNA)	97
72	Maxilla to Frankfurt Horizontal plane	97
73	Buccal maxillary width and palatal maxillary width at upper first molar	99
74	Alveolar bending measurement at the first molar	99
75	Intercuspal distance at upper first premolar and first molar	101
76	Interapical distance at upper first premolar and first molar	101
77	Alar base width	103
78	Nasal length	103
79	Upper lip length	104
80	Upper lip anteroposterior position to Eline	104
81	Tracing the landmarks on the CBCT with help of the slice locator	105

Figure number	Title	Page number
82	Complete 3D analysis	106
83	Bar chart representing mean GPF - GPF in the two groups	111
84	Bar chart representing mean J - J in the two groups	113
85	Bar chart representing mean PIR - PIR in the two groups	115
86	Bar chart representing mean SNA in the two groups	117
87	Bar chart representing mean FH/NA in the two groups	119
88	Bar chart representing mean Buccal maxillary width at first molar in the two groups	121
89	Bar chart representing mean Buccal maxillary width at first premolar in the two groups	123
90	Bar chart representing mean Palatal maxillary width at first molar in the two groups	125
91	Bar chart representing mean Palatal maxillary width at first premolar in the two groups	127
92	Bar chart representing mean Alveolar tipping at right first molar in the two groups	129
93	Bar chart representing mean Alveolar tipping at left first molar in the two groups	131
94	Bar chart representing median Alveolar tipping at right first premolar in the two groups	133
95	Bar chart representing median Alveolar tipping at left first premolar in the two	135
96	Bar chart representing mean Inter-cuspal distance (first molar) in the two groups	137
97	Bar chart representing mean Inter-cuspal distance (first premolar) in the two groups	139
98	Bar chart representing mean Inter-apical distance (first molar) in the two groups	141
99	Bar chart representing mean Inter-apical distance (first premolar) in the two groups	143
100	Bar chart representing mean dental tipping angle (first molar) in the two groups	145
101	Bar chart representing mean dental tipping angle (first premolar) in the two groups	147
102	Bar chart representing mean Alar base width in the two groups	149

Figure number	Title	Page number
103	Bar chart representing mean Nasal length in the two groups	151
104	Bar chart representing mean Upper lip length in the two groups	153
105	Bar chart representing mean Upper lip/E line in the two groups	155
