Acknowledgment

First of all, I would like to express my deep gratitude to *ALLAH* for his care and generosity throughout my life...

I'm very grateful to *Dr. Ihab Hassanein* Professor of Endodontics Faculty of Dentistry, Chairman of Endodontic Department, Ain Shams University, for his valuable advices and support through the whole work and for dedicating much of his precious time to accomplish this work.

Also, I would like to express my deepest appreciation and gratitude to *Dr. Kariem ElBatouty* Professor of Endodontics Vice Din for Education and Student Affairs, Faculty of Dentistry, Ain Shams University, for his great help and valuable suggestions throughout this work.

Special thanks to *Dr. Rehab Abd Elmonem* Lecturer of Pharmaceutics & Industrial Pharmacy, Faculty of Pharmacy, Misr University for Science & Technology for her great help and support in the practical part of this work.

Finally, I would like to express my appreciation and thanks to *Dr. Mohamed Abd Elgawad* Lecturer of Microbiology & Immunology, Faculty of Pharmacy, Misr University for Science & Technology for his great efforts and patience in making the practical part of this work.

Amaa Abdel Magid Elsham

Dedication

To my Mother and my Father

Who are always my help and support throughout life

To my wife

Who was encouraging me

To my sweet daughters

The most cheerful lovely gift from Allah

To my sister and brothers

The best friends and support in life
