Acknowledgement

I would like to express my deeply felt gratitude to ***Prof. Ahmed Okasha***, President Elect of the World Psychiatric Association, for his considerate guidance, valuable advice, encouraging support and indispensable references. Without his help, this work could never have seen light.

To thank ***Dr. Mona Mansour***, Ass. Professor of Psychiatry, Ain Shams University, would fall short towards her great help and delicate remarks.

I would like to extend my thanks to ***Dr. Yasser Abdel Razeq***, Lecturer of Psychiatry, Ain Shams University for all the support and help he gave me.

I am indebted to all my professors, colleagues and friends for their assistance and encouragement. They made my life much easier.

Last but not least, I must thank my family for being there when I needed them most.
