Acknowledgements

My deepest gratitude goes to Prof. Adel H. Ali who was the first to encourage me to do this study, and who stimulated me in this work.

My sincere thanks go also to Prof. Ahmed Shaheen who guided me in this work. I am especially grateful for the chances and support he gave me.

I wish to thank Dr. Moshira Abd-El Wahed for here continuous encouragement and also for her efforts in preparing and reading the slides.

I wish to thank also Dr. Taher Eid who trained me and showed me how can I use arthroscope.

I wish to thank all persons involved in this work.

Finally, I would like to thank my family and my parents for their nerve ending help and support.
