ACKNOWLEDGEMENTS

First of all, I would like to prostrates myself before ALLAH thankfully for supporting me to complete this work.

I would like to express my deepest sense of gratitude and sincerest appreciation to **Prof. Dr. Nahla M. AboulAta**, Faculty of Engineering, Ain Shams University and **Dr. Nader Mohamed Shafiq**, Nile Research Institute, National Water Research Centre who kindly supervised this research work, for their help, supporting, excellent advice, comments, enthusiastic guidance, patience and continuous encouragement towards the successful completion of this study.

It is a pleasure to express my thanks to my father, my mother, my sisters and my beloved wife for their great support, advice and patience during the time of this research. This accomplishment would not have been possible without them.

I want to express my deep gratitude to my beloved teacher and guide, Sheikh **AbdelWahab Ahmed Ali** for his encouragement towards the successful completion of this study.

Finally, I would like to thank everyone who helped me with scientific information or kind words through my thesis.
