Acknowledgement

*I would like to express my deepest gratitude and appreciation to my thesis supervisor **Prof. Noha Samir Kabil**, Professor of Pediatric Dentistry and Dental Public Health, Faculty of Dentistry, Ain Shams University for her extreme heartfelt support, time and effort. Without her sincere help and guidance, this study could not have been successfully conducted. It has been a great honour to work under her supervision.*

*I would like to acknowledge **Dr. Ola Mohamed Abd El Geleel**, Lecturer of Pediatric Dentistry and Dental Public Health, Faculty of Dentistry, Ain Shams University, for her support, time and valuable comments.*

Last but not least, I'm thankful to all my professors, colleagues and staff members of the Pediatric Dentistry and Dental Public Health Department, Faculty of Dentistry, Ain-Shams University for their constant help and encouragement.

Dedication

I would like to dedicate this work to my beloved family who always believed in me. Had it not been for their continuous encouragement and love, I wouldn't have been where I am today

This would not have been possible without their unwavering and unselfish and unconditional love and support at all times.

I hope I can always make you proud of me
and what I am achieving in my life.
