## FURTHER STUDIES ON THE WHITEFLY Bemisia tabaci Genn. AND ITS ASSOCIATED PARASITES

#### BY

**Evleen Gouda Ibrahim Karim** 

B.Sc. (Agric. Entomology), Alex. Univ., 1972

M.Sc. (Agric. Entomology), Alex. Univ., 1976

#### **THESIS**

In Partial Fulfillment of the Requirement for the Degree of

Doctor of Philosophy in Agricultural Sciences
(Economic Entomology)
Faculty of Agriculture
Shebin El-Kom
Menoufia University
2003

B 1419v

O

Q.

. . .

#### APPROVAL SHEET FURTHER STUDIES ON THE WHITEFLY

Bemisia tabaci Genn.

#### AND ITS ASSOCIATED PARASITES

Presented by

Evleen Gouda Ibrahim Karim

For the Degree of

Doctor of Philosophy of Agricultural Sciences

In

(Economic Entomology)

#### Examiners' Committee:

#### Prof. Dr. OSMAN MOSTAFA ASSAL

Professor of Economic Entomology, Dean of faculty of Agriculture-Shebin El-Kom, Menoufia University

#### Prof. Dr. SHAKR MOHAMED HAMMAD

Professor of Economic Entomology, Faculty of Agriculture-Saba Basha, Alexandria University

#### Prof. Dr. MOHAMED ALY OMAR KOLAIB

Professor of Economic Entomology, Faculty of Agriculture-Shebin El-Kom, Menoufia Unniversity

#### Dr. Adel Abd El-Azeem Abo-Sheasha

Associate prof. Of Economic Entomology, Faculty of Agriculture-Shebin El-Kom, Monoufia University

MAAM

Approved

Chan & Acal

5. M. Hanwad

45

Date: 14/1/2003

Professor of Economic Ecto.

Professor of Economic Ecto.

Conumic Entomology & Zoology

Faculty of Agricultur.

Menoulia Chrystelly, Egypt

: ! All the land Abo-Shemia : from Call tradmic Entwology, : Entomology in Zool and in parament Tacette file file. !!rroafaite!

رززر

#### **SUPERVISION COMMITTEE**

#### Prof. Dr. MOHAMED ALY OMAR KOLAIB

Professor of Economic Entomology,
Economic Entomology & Zoology Department
Faculty of Agriculture
Menoufia University, Egypt.

#### Dr. Adel Abd El-Azeem Abo-Sheasha

Associate Prof. Of Economic Entomology,
Economic Entomology & Zoology Department
Faculty of Agriculture
Monoufia University, Egypt.

#### Prof. Dr. Laila Mohamed Ali Abd-El Naby

Prof. of Economic Entomology,
Plant Protection Research Institute,
Agricultural Research Center,
Sabahia Station, Alexandria.

Dr. Landa

#### **ACKNOWLEDGEMENT**

All thanks and praise to God who stands beside me and helps me to achieve this work.

The encouragement and criticism provided by the Prof. Dr. Mohamed Aly. Omar Kolaib, Professor of Economic Entomology and Zoology, Economic Entomology & Zoology Department, Faculty of Agriculture, Menoufia University, Shebin El-Kom, Menoufia University, Egypt, for suggesting the problem, valuable guidance, keen supervision and continuous encouragement. Sincere appreciation is extended to him for providing facilities and assistance to carry out this work. Also deep cordial thanks are going to him for reviewing the results and the manuscript.

Deep thanks extended to the sprit of Prof. Dr. Mohammed Abd El-Rahim for his valuable note and encouragement during his life.

I am deeply grateful to Prof. Dr. Laila Mohamed Ali Abd-El Naby, Professor of Economic Entomology, Department of Economic Entomology Department of plant Protection, Head Researcher of vegetable Pests, Agricultural Research Center, Sabahia Station, Alexandria. For her valuable help, encouragement and carring out the plan of this work and reviewing the results and the manuscript

Deep gratitude is also due to Prof. Dr. Adel Abd El-Azeem Abo-Sheasha, Associate Prof. of Economic Entomology, Economic Entomology & Zoology Department, Faculty of Agriculture, Menoufia University, For his valuable encouragement, criticism, preparation of the result and reviewing the manuscript.

The author is highly indebted to Dr. Wageeh Shokry Ragheb Professor of Horticulture and Director of Sabahia Horticultural Research Station, Alex. For his guidance valuable assistance and continuous providing facilities and encouragement to carry out the fieldwork.

Deep thanks are due to Prof. Dr. El-Said Kasim Head Researcher of Department of Vegetable in Sabahia Horticultural Research Station, Alex., For his valuable help and encouragement to carry out the fieldwork.

Thanks are also due to Prof. Dr. Rawhia El-Saed Prof., Department of Vegetable in Sabahia Horticultural Research Station, Alex., For her assistance during the fieldwork.

Deep thanks are due to Prof. Dr. Ahmed Saleh and Prof. Dr. Ahmed Ebada Prof. Sabahia Research Station, Alex., For their valuable assistance in the statistical analysis.

Finally, deep thanks are expressed to all Colleagues at the Plant Protection and Vegetable Pests Departments, for their assistance during the progress of this work.

# To my professor Dr. MORAD SAMY EL-HELALY I Owe you my success Thank you a lot

#### **CONTENTS**

	INTRODUCTION
I.	REVIEW OF LITERATURE
	1.1 – Whitefly
	1.1.1 Survey
	1.1.2 Host plants
	1.1.3 Ecological studies
	1.1.4 Biological studies
	1.1.5 Effectiveness of Biocides
1.2	. Parasitoids associated with the whitefly B. tabaci
	A – Eretmocerus sp
	1.2.1 Survey and Ecological studies
	1.2.2 Biological and release studies
	B – Encarsia sp
	1.2.1 Survey
	1.2.2 The effect of host plants on parasitism
	1.2.3 Ecological studies
	1.2.4 Biological and release studies
	1.2.5 Effectiveness of certain Biocides
	1.3 - Chemical analysis
II.	MATERIALS AND METHODS
	II.1 - Survey of the whitefly B. tabaci and the associated parasitoids under
	field conditions on okra, tomato, eggplant and pepper plants
	II.2 – Effect of Biofly and Jojoba oil on whiteflies under laboratory
	Conditions
	II.2.1 Potency of Biocides on the whitefly and its parasitoids
	II.2.2 The whitefly rearing
	II.2.3 Effects of different concentrations of Biofly and Jojoba oil on adult
	stage of the whitefly

	natchability and immature stages of the whitefly
II	.3 – Effect of Biofly and Jojoba oil on the whitefly and parasitoid under
	field conditions
IJ	.4 – The preference of whitefly B. tabaci and its parasite Encarsia formosa
	on three host plants
IJ	.5 - Biology of whitefly B. tabaci on six hybrid pepper under laboratory
	Conditions
I	I.6 – Chemical analysis of hybrid pepper
	II.6.1 Collection of tested plant leaves
	II.6.2 Reagents and solvents
	II.6.3 Preliminary chemical examinations of tested plants
	II.6.3 A. Test for alkaloids or basic nitrogenous compounds
	II.6.3 B. Test for unsaturated sterols and/or triterpenes
	a- Liebermann – Burchard test
	b- Salkowski test
	II.6.3 C. Test for flavonoids
II	.7 – Release experiments
	2.7.1 Test for release experiments
	2.7.2 Mass-production (Mass-rearing) of the parasitoid and releasing it on
	sweet -potato plants in the field
III.	RESULTS AND DISCUSSION
	3.1 – Survey of whitefly and the associated parasitoids under field conditions in okra, tomato, eggplant and pepper
	3.1.1 Okra plants
	3.1.2 Tomato plants
	3.1.3 Eggplant plants
	3.1.4 Pepper plants

II.2.4 Effects of different concentrations of Biofly and Jojoba oil on
