SEWAGE WATER REUSE POLICIES AND ENVIRONMENTAL MANAGEMENT OF GROUNDWATER

BY
MAHER ABDEL HALIM EL SHEWY

**B.Sc. Civil Engineering, Alexandria University, 1986
Diploma in Environmental Sciences, Ain Shams University, 1993
M.Sc., Environmental Engineering, Ain Shams University, 1996**

**A Thesis Submitted for Doctor of Philosophy
in
Environmental Engineering**

**Department of Engineering
Institute of Environmental Studies and Research
Ain Shams University**

Cairo 2002

B

13 E 90

APPROVAL SHEET

SEWAGE WATER REUSE POLICIES AND ENVIRONMENTAL MANAGEMENT OF GROUNDWATER

By

Maher Abdel Halim El Shiwy

B.Sc. Civil Engineering, Alexandria University, 1986

M.Sc. Environmental Engineering, Ain Shams University, 1996

**This Thesis for Ph. D. Degree in Environmental
Engineering has been approved by:**

1- Pro. Dr. Kamal Hefny Hossin Hefny

Prof. Of hydrology – Research Institute for Groundwater

2- Pro. Dr. Mahmoud Abdel Lateef Mohamed

Irrigation and hydraulic Department

Faculty of Engineering - Ain Shams University

3- Pro. Dr. Prof. Dr. Mohamed El-Niazy Hammad

Irrigation and hydraulic Department

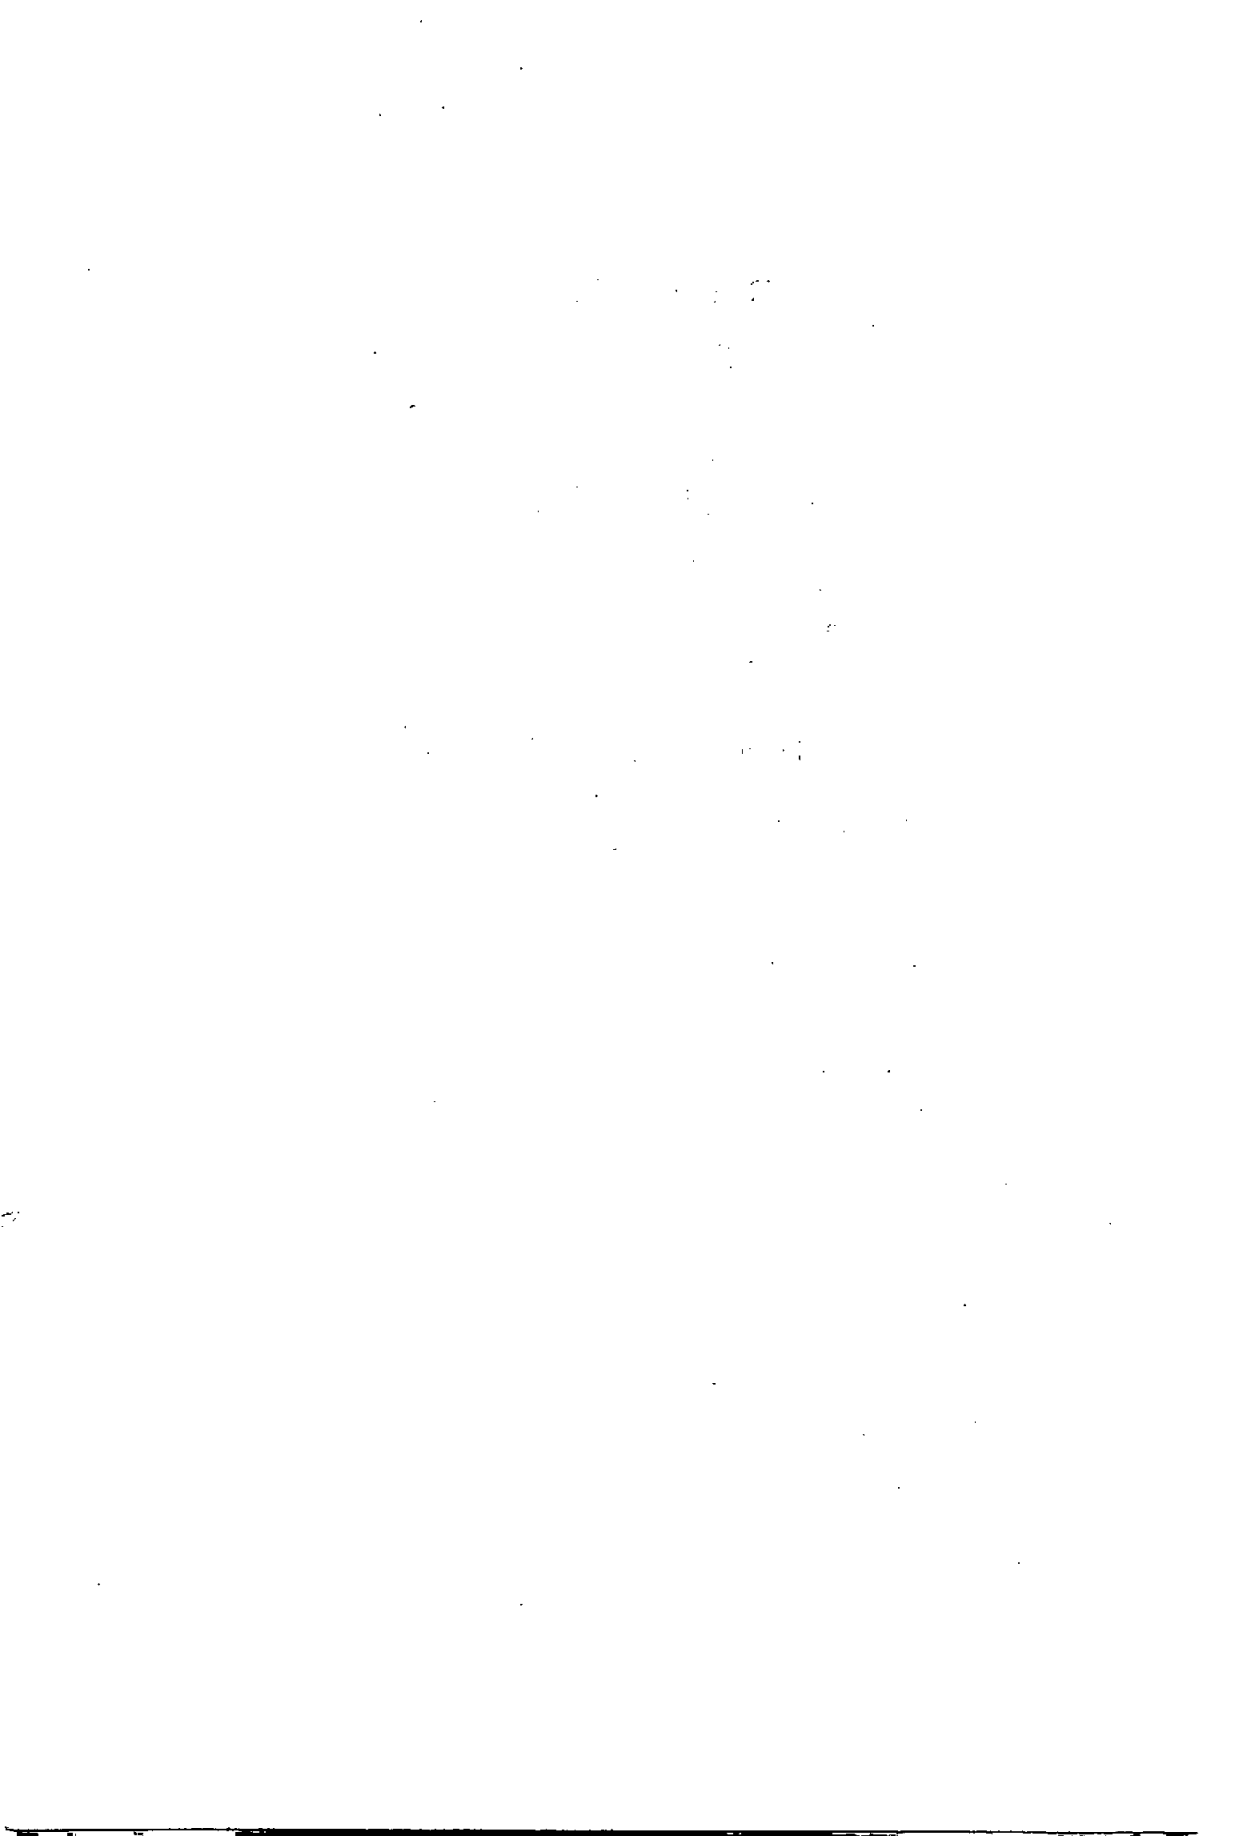

Faculty of Engineering - Ain Shams University

4- Pro. Dr. Mohamed Ghareeb El Malky

Head of biology department

Institute of Environmental Studies and Research

Ain Shams University

Acknowledgement

First and foremost, I thank god the most beneficial and the most merciful for his help.

My appreciation and gratitude to my supervisors **Pro. Dr. Mohamed El Niazy Hammad**, **Pro. Dr. Ibrahim Helal El-Hatab**, **Pro. Dr. Fatma Abdel Rahman**, **Pro. Dr. Ahmed Taher A. Moustafa** and **Pro. Dr. Mohamed Gharib El-Malky** for their fruitful discussions and valuable comments. Without their support and encouragement this study would not have come to light.

Finally, the words can not afford my apperciations and thanks to engineers **Safaa Soliman** and **Omar El-Hatab** for them my deep thanks and gratitude.

Abstract

Contents

	Page
Chapter 1 INTRODUCTION.....	1
1.1 Introduction.....	1
1.2 Availability of Treated Sewage Water in Egypt.....	2
1.3 Research Objectives and Approach.....	3
1.4 Thesis Layout.....	4
 Chapter 2 REVIEW OF LITERATURE.....	 10
2.1 Introduction.....	10
2.2 General Review of International Experiences.....	10
2.2.1 Direct reuse.....	10
2.2.2 Vegetated land treatment systems.....	11
2.3 Theoretical Background of Artificial Recharge.....	14
2.3.1 Definition.....	14
2.3.2 Methods.....	15
2.4 Characteristics of Recharge Water.....	19
2.4.1 Physical properties.....	20
2.4.2 Chemical quality.....	20
2.4.3 Biological properties.....	21
2.4.4 Pre-Treatment requisite of recharge water.....	21
2.4.5 Spreading purification process.....	23
2.5 Relevant International Experience with Artificial Recharge.....	24
2.6 Experiences in Egypt.....	31
2.6.1 Direct reuse of wastewater.....	31
2.6.2 Laboratory experiments.....	38

	Page
Chapter 3 INVENTORY OF SUITABLE SITE FOR ARTIFICIAL RECHARGE IN EGYPT.....	44
3.1 Introduction.....	44
3.2 Development of Technical Criteria.....	45
3.2.1 Depth to groundwater.....	45
3.2.2 Surface Geology.....	45
3.2.3 Geology and hydraulic characteristics of aquifers.....	46
3.2.4 Groundwater flow.....	47
3.2.5 Recovery.....	47
3.2.6 Rate and quality of wastewater.....	47
3.3 Prevailing Hydrogeological Conditions in the Candidate Regions.....	48
3.3.1 Western Delta.....	48
3.3.2 Eastern Delta.....	53
3.3.3 Middle Delta.....	56
3.3.4 Nile Valley.....	59
3.3.5 Eastern and western deserts and Sin.....	65
Chapter 4 DESIGN AND OPERATION OF THE FIELD EXPERIMENTAL WORK.....	69
4.1 Site Selection.....	69
4.2 Field Investigations.....	72
4.3 Set Up and Design of the Experiment.....	72
4.3.1 General layout.....	81
4.3.2 The components of the experiment.....	81
4.4 The Experiment.....	82
4.4.1 Requirements.....	87
4.4.2 Operational plan.....	87
4.4.3 Pretreatment.....	90
4.4.4 Effect of water head (thickness).....	90
4.4.5 Recharge cycle.....	92
4.4.6 Change in groundwater heads.....	92
4.4.7 Groundwater quality.....	92

	Page
Chapter 5 DISCUSSION OF RESULTS.....	94
5.1 Efficiency of Pre-Treatment.....	98
5.2 Effect of Water Head.....	98
5.3 Recharge Cycle.....	99
5.4 Mound height.....	100
5.5 Recharge Facilities.....	101
5.6 Impact on Groundwater Quality.....	102
5.6.1 Effect on Total Nitrogen Content.....	102
5.6.2 Effect on phosphorous content.....	104
5.6.2 Effect on Bacteria.....	106
 Chapter 6 SUMMARY, CONCLUSIONS AND RECOMMENDATIONS.....	 109
6.1 Summary.....	109
6.2 Conclusions.....	110
6.3 Recommendations.....	111
References.....	113
Appendix A.....	121
Appendix B.....	140
Arabic Summary
