## ***Curriculum Vitae***

***Full name*** : Ahmed Anter Ibraheem Nigm.  
***Date of birth*** : 12 . 5 . 1960 .  
***Place of birth*** : Qotour.  
***Nationality*** : Egyptian.  
***Primary School*** : Qotour Primary School.  
***Preparatory School*** : Qotour Prep School.  
***Secondary School*** : Qotour secondary School.  
***Qualification*** : B.Sc., in Geology, May, 1982.  
***University*** : Tanta University.  
***Profession*** : Geophysicist ,Nuclear Materials Authority.

## ***Declaration***

*I declare that the contents of this thesis have not previously been submitted for a degree at this or any other university.*

***Ahmed Anter Ibraheem Nigm***

*Geophysicist,  
Nuclear Materials Authority.*

## ***Supervisors***

***Prof. Aziz M. Kafafy*** : *Professor of Geophysics, Geology  
Department, Faculty of Science,  
Tanta University.*

***Dr. Said I. Rabie*** : *Assistant Professor of Applied Geophysics,  
Nuclear Materials Authority.*

***Dr. Gooda A. Dabbour*** : *Assistant Professor Prof. of Geology,  
Nuclear Materials Authority.*

*Head, Geology Department*

***Professor A. M. Noweir.***

## **STATEMENT.**

The present thesis is submitted to the Faculty of Science, Tanta University in partial fulfillment for the requirements of Master of Science in geophysics.

Beside the research work presented in this thesis, the candidate attended seven post graduate courses for one academic year in the following topics:-

- 1- Magnetic methods.
- 2- Gravity methods.
- 3- Seismic methods.
- 4- Petroleum geology and hydrology.
- 5- Structural geology.
- 6- Statistics.
- 7- Germany.

He has successfully passed the final examination for these courses.

**Head, Geology Department,**

**Professor. A.M. Noweir.**

## ACKNOWLEDGMENTS

The author wishes to express his sincere thanks to **Prof. Nabil El Hazeik**, President of Nuclear Materials Authority (N.M.A.), for the facilities offered by the Authority to carry out this research. Thanks are also due to **Prof. A. M. Noweir**, Head of the Geology Department, Faculty of Science, Tanta University, for continuous encouragement and assistance.

I record my gratitude to my supervisors, **Prof. Aziz M. Kafafy**, Prof. of Geophysics, Geology Department, Faculty of Science, Tanta University, **Dr. Said I. Rabie**, Ass. Prof. of Applied Geophysics, Nuclear Materials Authority, and **Dr. Gooda A. Dabbour**, Ass. Prof. of Geology, Nuclear Materials Authority, for their faithful guidance, continuous help and valuable discussions throughout this study.

It is not possible to mention everyone who helped me to produce this work ; However , I am grateful to the staff members of the Exploration Division, Nuclear Materials Authority. I am particularly indebted to **Prof. Ahmed A. Ammar**, Head of the Exploration Division, Nuclear Materials Authority, for his sincere guidance and helpful comments.

Thanks are also due to members of the field groups of the Ground Geophysical Missions, and members of the Exploration Division, Nuclear Materials Authority. Thanks are also to the staff of the Radioactive beach and recent sediments Department for the fruitful help.

# CONTENTS

Subject	Page
CONTENTS .....	i
ABSTRACT .....	iii

## 1 - CHAPTER ONE :

### INTRODUCTION.

1.1 - Review on the Egyptian black sands .....	1
1.2 - Location and topography of the area .....	1
1.3 - Geology of the area .....	3
1.3.1 - Regional geology of the coast .....	3
1.3.2 - Geology of Abu - Khashaba beach .....	4
1.4 - Plan and methods of study .....	4
1.4.1 - Ground magnetometry .....	4
1.4.2 - Ground spectrometry .....	5
1.4.3 - Mineralogical analysis .....	5

## 2 - CHAPTER TWO:

### PREVIOUS WORK.

2.1 - Previous studies on the black sands.....	6
2.2 - Mineralogy of the Egyptian black sands .....	10
2.3 - Origin and sedimentation of the Egyptian beach deposits .....	11

## 3 - CHAPTER THREE:

### GROUND MAGNETIC SURVEY.

3.1 - General .....	13
3.2 - Survey specification and field procedures .....	13
3.3 - Data recording and instrumentation .....	14
3.4 - Data reduction and compilation .....	14
3.5 - Data analysis .....	17
3.5.A - Isolation of magnetic anomalies .....	17
3.5.B - Spectral analysis technique and depth estimation.....	17
3.6 - Interpretation of magnetic data .....	22
3.6.A - Qualitative interpretation of magnetic data .....	22
3.6.B - Quantitative interpretation of magnetic data .....	23
3.6.B.1 - Regional magnetic stacked profile map .....	24
3.6.B.2 - Residual magnetic stacked profile map .....	24
