CYTOGENETIC STUDIES ON THE EFFECT OF SOME CHEMICAL POLLUTANTS ON A FRESH WATER FISH

B I Y A ' S

A Thesis

*Submitted for Partial Fulfillment the
Degree of Master of Science (Zoology)
Zagazig University (Benha Branch)*

Presented by

AMANI ABD EL-HAMID MAHMOUD
(B.Sc., Zoology, Zagazig University)

Supervisors

PROF. DR. SABRY EL-SERAFY
*Professor of Fish Biology, Head of Zoology
Department and Associate - Dean for Environmental
Affairs and Society development
Faculty of Science Zagazig University (Benha branch)*

DR. MOHAMMED E.M. ZOWAIL
*Assistant Professor of Cytogenetics
Zoology Department, Faculty of Science, Benha
Zagazig University*

DR. MERVAT S. ZAGHLOUL
*Lecturer of Zoology
Zoology Department, Faculty of Science Benha
Zagazig University*

SUPERVISORS

PROF. DR. SABRY EL-SERAFY

Professor of Fish Biology, head Zoology Department and
Associate - Dean for Environmental affairs and society development,
Faculty of Science Zagazig University
Benha Branch

DR. MOHAMMED E.M. ZOWAIL

Assistant Professor of Cytogenetics - Zoology
Department, Faculty of Science Benha, Zagazig University

DR. MERVAT S. ZAGHLOUL

Lecturer of Zoology
Zoology Department, Faculty of Science Benha,
Zagazig University

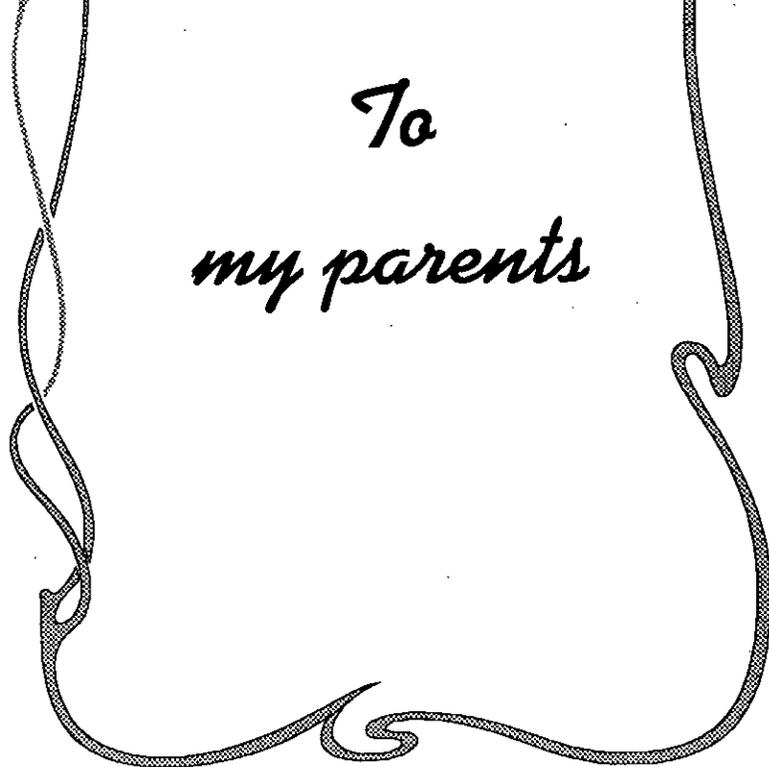

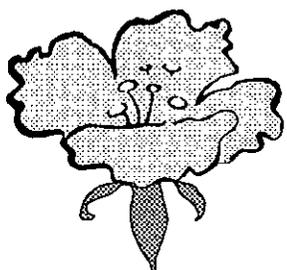

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

وقالوا سبحانك لا علم لنا إلا ما

علمتنا إنك أنت العليم الحكيم

صدق الله العظيم

سورة البقرة آية (٣٢)

To
my parents

ACKNOWLEDGEMENT

Thank **ALLAH** by whom the progress and success of this work was possible.

I would like to express my sincere gratitude and appreciation to **PROF. SABRY S. EL-SERAFY**, Professor of Fish Biology, head of Zoology Department and Vice-dean for Environmental affairs and Society development, Faculty of Science Zagazig University, Benha Branch, for supervising the work, his careful guidance, continuous constructive criticism and valuable discussions during the course of this investigation and for the revision of the manuscript. I will always be indebted to him for his constant encouragement.

I am greatly indebted to **DR. MOHAMMED E.M. ZOWAIL**, Assistant professor of Zoology, Zoology Department, Faculty of Science Benha, Zagazig University, for suggesting the problem, planning, reading, revising the manuscript and significant encouragement and help. His insight and patience on the both professional and personal levels helped in the accomplishment of the present study.

I also wish to express my great thanks to **DR. MERVAT S. ZAGHLOUL**, Lecturer of Zoology, Faculty of Science, Zagazig University Benha Branch, for her valuable criticism, reading the manuscript and interest in this work.

LIST OF TABLES

	Page
Table(1): The mean values of centromeric attenuation in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.....	33
Table(2): The mean values of centromeric attenuation in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	35
Table(3): The mean values of chromatid break in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	37
Table(4): The mean values of chromatid break in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	39
Table(5): The mean values of chromatid gap in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	42
Table(6): The mean values of chromatid gap in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	44
Table(7): The mean values of fragmentation in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	46
Table(8): The mean values of fragmentation in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	48
Table(9): The mean values of chromatid deletion in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	50
Table(10): The mean values of chromatid deletion in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.....	52

Table (11):	The mean values of stickiness in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	55
Table (12):	The mean values of stickiness in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	57
Table (13):	The mean values of monosomic in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	59
Table (14):	The mean values of monosomic in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	61
Table (15):	Mitotic index in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	64
Table (16):	Mitotic index in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	66
Table (17):	The mean values of cells with one type of aberrations of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	69
Table (18):	The mean values of cells with one type of aberrations of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	71
Table (19):	The mean values of cells with more than one type of aberrations of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	73
Table (20):	The mean values of cells with more than one type of aberrations of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	75

Table (21):	The mean values of total structural aberrations in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	77
Table (22):	The mean values of total structural aberrations in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	79
Table (23):	Average of chromosomal abnormalities observed in head kidney cells of male <u>Oreochromis niloticus</u> treated with different doses of saturn.	81
Table (24):	Average of chromosomal abnormalities observed in head kidney cells of female <u>Oreochromis niloticus</u> treated with different doses of saturn.	82
