بسم الله الرحمن الرحيم

((قالوا سبحانك لا علم لنا إلا ما علمتنا
إنك أنت العظيم))

صدق الله العظيم

سورة البقرة الآية ٣٢

ACKNOWLEDGMENT

((اللهم لك الحمد والشكر ، حمداً كثيراً طيباً مباركاً فيه ، ملء السموات وملء الأرض وملء ما بينهما ، وملء ما شئت من بعد ذلك ، إنك أنت العليم القدير))

I wish to express my deepest gratitude and thanks to *Dr. Hanan Mostafa El-Shakankiry*, Assistant Professor of Pediatrics, Ain Shams University, for her help and expert supervision. She has been very kind, generous with scientific advice and a strong motivating force to produce an accurate research. For her I will remain humbly grateful.

I also wish to express my sincere gratitude to *Dr. Eman Ibrahim Salama*, Assistant Professor of Community Medicine, National Research Center, for the great help and the valuable time and experience she gave me and her great kindness and encouragement at every stage of this work.

Finally, I would like to thank the teachers of our research and all the persons who helped me in this work.

The candidate

LIST OF ABBREVIATIONS

ACTH	= Adreno corticotropic hormone
ADHD	= Attention deficit – hyperactivity disorder
CNS	= Central nervous system
Cont	= Continuation
EEG	= Electroencephalography
GABA	= Gamma – Aminobutyric acid
GABA_A	= Gamma – Aminobutyric acid subclass A
GABA_B	= Gamma – Aminobutyric acid subclass B
H⁺	= Hydrogen
HCO₃⁻	= Bicarbonate
ILAE	= The International League Against Epilepsy
IM	= Intramuscular
IQ	= Intelligence quotient
IV	= Intra venous
JME	= Juvenile myoclonic epilepsy
KAP	= Knowledge, attitude and practice
Mg	= Milligram
MRI	= Magnetic resonance imaging
N	= Number
Na⁺	= Sodium
NMDA	= N – methyl – D-aspartate .
PEMA	= Phenylethyl malonamide
Q	= Question
SE	= Standard error
SIADH	= Syndrome of Inappropriate Secretion of Antidiuretic Hormone.
µg	= Microgram
Y	= Year
γ -Aminobutyric acid	= Gamma – Aminobutyric acid

LIST OF TABLES

Table		Page
I	The International League Against Epilepsy classification of epileptic seizures (1981)	16
II	The International league Against Epilepsy classification of epilepsies and epileptic syndromes (1989)	17
III	Common Anticonvulsant Drugs	52
III, Cont.	Common Anticonvulsant Drugs	53
IV	Antiepileptic Agents For Specific Seizure Types	54
1	Demographic characteristics of the studied teachers in the three governorates	75
2	Contact with an epileptic person	77
3	Level of the knowledge of epilepsy according to contact with an epileptic person among the studied school teachers in the 3 governorates	77
4	Level of the knowledge of epilepsy among the studied school teachers in the 3 governorates	79
4, Cont.	Level of the knowledge of epilepsy among the studied school teachers in the 3 governorates	80
5	Knowledge about the possible causes of epilepsy among the studied school teachers in the 3 governorates	81
6	Level of the knowledge of epilepsy among all the studied school teachers according to residence (governorates)	82
7	Level of the knowledge of epilepsy according to age among all the studied school teachers in the 3 governorates	83
8	Level of the knowledge of epilepsy among the studied school teachers according to age in each governorate	83

Table		Page
9	Level of the knowledge of epilepsy according to sex among all the studied teachers in the 3 governorates	84
10	Level of the knowledge of epilepsy according to sex among the studied teachers in each governorate	84
11	Level of the knowledge of epilepsy according to level of education among all the studied school teachers in the 3 governorates	84
12	Level of the knowledge of epilepsy according to level of education of teachers in each governorate	85
13	Level of the knowledge of epilepsy according to school level among all the studied school teachers in the 3 governorates	85
14	Level of the knowledge of epilepsy according to school level among the studied school teachers in each governorate	86
15	Level of the knowledge of epilepsy according to school type among all the studied school teachers in the 3 governorates	86
16	Level of the knowledge of epilepsy according to school type among the studied school teachers in each governorate	87
17	Level of the knowledge of epilepsy among all the studied teachers in the three governorates from urban and rural areas	87
18	Level of the knowledge of epilepsy among the studied teachers in each governorate from urban and rural areas	88
19	Correlation between different demographic characteristics of the studied teachers and knowledge score	88
20	Multiple regression analysis to detect variables significantly predictive for good knowledge score	89
21	Attitudes of the studied teachers towards epilepsy in the 3 governorates.	96
