Neurology

Neurology: The study of the nervous system.

Neurology is a branch of medicine that deals with the diagnosis and treatment of disorders of the nervous system. The nervous system is composed of the brain, spinal cord, and peripheral nerves. It is responsible for controlling and coordinating all the functions of the body. Neurologists are medical doctors who specialize in the study and treatment of neurological disorders. They use a variety of techniques, including physical examination, laboratory tests, and imaging studies, to diagnose and treat these conditions. Some common neurological disorders include Alzheimer's disease, Parkinson's disease, multiple sclerosis, and epilepsy.

ACKNOWLEDGMENT

"First and foremost, I feel always indebted to God, the most beneficent and merciful"

The author wishes to express his greatest appreciation and deepest gratitude to prof. Dr. **M.K. El-Kazzaz**, prof. of plant pathology, Agricultural Botany Department, Faculty of Agriculture, Kafr El-Sheikh, Tanta University, prof. Dr. **El-Saied El-kady**, Prof. of Plant Pathology Fac. Of Agric. Kafr El-Sheikh, Tanta University, Dr. **M. Abd El-Rahman Hassan**, Associate Prof., Fac. Of Agric. Kafr El-Sheikh, Tanta university and to prof. Dr. **Esmat M. El-Mersawy** Prof. of Plant Pathology of Maize, sugar crops and Follages diseases Department,, plant pathology Research institute, (ARC), for their valuable scientific supervision, advice, continuous help and great assistance in the preparation of this dissertation.

Thanks also are extended to Prof. Dr. **M.S. El Nasr Diab** Prof. of Plant Plant Pathology of Maize. Sugar crops and follages diseases Department, plant pathology Research Institute. (ARC) for finance, supplying materials and Facilities throught the course of this investigation.

Thanks are also to Dr. **M.Gabr** Associate Prof. of Plant Pathology Fac. Of Agric. Kafr El-Sheikh, Tanta univ. And to Dr. **M. M. El-Shamy** Senior researcher of Plant Pathology, Gemmeiza Agric, Res. Station for their scientific help, providing facilities during this work and for their generous help in this manuscript.

The wirter would like to express his deep thanks to all staff members of Agricultural Botany Department. Fac. of Agric Kafr El-sheikh, Tanta Univ. And staff members of Plant Pathology, Gemmeiza Agric, Rec. Station for every effort they kindly made during preparing this investigation.

My sincere thanks are extended to my Fathar, mother and my wife for their constant encouragement and moral support during the course of this study.
