**A GIS TO STUDY URBAN ENVIRONMENTAL
IMPACTS OF THE REHABILITATION OF
EI -MAHMOUDIA CANAL
IN ALEXANDIRA**

A Thesis By:

Mohammed Abdel Meguid Saleh

Submitted in partial fulfillment of the requirements for

Master Degree in Environmental Studies

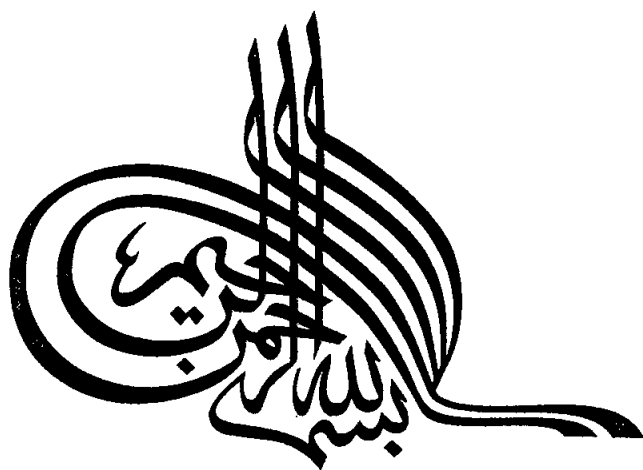

[Handwritten signatures: Hanyip, Amr El-Helw, Raey]

Department of Environmental Studies
Institute of Graduate Studies and Research
Alexandria University

2003

B

13895

وبه نستعين

*To my teachers
My parents,
My wife,
And my new born baby
Mennet' Allah*

Committee in charge:

1-

2-

3-

Supervisors:

Prof. Arch. Magdy Mohammed Moussa

Dean of Faculty of Fine Arts and professor of Architecture
Alexandria University

Prof. Arch. Amr Galal Eladawy

Professor of architecture
Faculty of Engineering, Architecture Department
Alexandria University

Dr. Saleh Mesbah Elkaffas

Lecturer,
Department of Environmental Studies
Institute of Graduate Studies and Research
Alexandria University

Acknowledgement

First and for most thanks to Allah the most beneficial and merciful
I wish to express my appreciations to my supervisors : professor Magdy
Moussa Dean of Faculty of Fine Arts and professor of architecture ,
professor Dr. Amr Galal Eladawy professor of architecture, Faculty of
Engineering and Dr. Saleh Mesbah Elkaffas lecturer of environmental
studies , Institute of Graduate Studies and Research for their strong
support, effort, patience and encouragement to me .

I would like to thank the staff of R.S. and GIS lab at the Institute of
Graduate Studies and Research for their support and encouraging to me.

My deep gratitude to my parents and my wife for their support to
finish this research, Thanks again for all whom had helped me.

Table of Contents	ii
List of Figures	viii
List of Plates	xii
List of Tables	xiv

Chapter I : Introduction and literature review

I-1: Introduction	1
I-1.1 :Motivation for the present study	2
I-1.2 :The aim of the study	2
I-1.3 :Methodology	2
I-1.4 :Thesis Structure	3
I-2 : Historical review	4
I-2.1 General background of Alexandria	4
I-2.2 The history of El Mahmoudia Canal	6
I-3 : An approach to landscape design	9
I-3.1 :The role of water and canals within the urban context	9
I-3.1.1 :Introduction	9
I-3.1.2 :Surface water	9
I-3.1.3 :The definition of a canal	10
I-3.1.4 :Significance of canals	11
I-3.2 :The role of green areas within the urban context	11
I-3.3 :Outdoor recreational areas	12
I-3.4 :Landscape design bases	13
I-3.4.1 :Definitions	13
I-3.4.2 :Environmental approach	13
I-3.4.3 :The ecosystem concept	14
I-3.4.4 :The process of landscape design	14

I-3.4.5 :Social and physical factors in landscape architecture.....	16
I-4 Motives and objectives of upgrading project	17
I-4.1 :The effect of degraded urban areas on the city and their residents.....	17
I-4.2 :The upgrading concept from different experts group	18
I-4.3 :The nature of upgrading.....	18
I-4.4 :The upgrading stages	19
I-4.5 :The co-operation of different upgrading authorities.....	19
I-4.6 :The advantages of upgrading projects	19
I-4.6.1 :The fundamentals of upgrading project finance	20
I-4.6.2 : Sources of financing	20
I-4.6.3 : Revenues and self-income	20
I-5 Review of similar projects concerning the rehabilitation of Canals	21
I-5.1 :Upgrading of Saint Martin Canal in Paris	21
I-5.2 : Upgrading the Thames river banks in London, England	25
I-6 Introduction to environmental impact assessment	28
I-6.1 :Environmental definitions.....	28
I-6.2 :Monitoring and auditing of actions.....	28
I-6.3 :Social and economic impact	30
I-6.4 :Visual impact	30
I-6.5 :water impacts	31
I-6.6 General life style and quality of life.....	31
I-7 Introduction to GIS as a powerful analysis tool	32
I-7.1 :History of GIS.....	32
I-7.2 :Definition of GIS	32
I-7.3 :Components of GIS.....	33
I-7.4 :Functions of GIS	34
I-7.5 :GIS capabilities.....	34
I-7.6 :Conceptual framework of a GIS	37
I-7.6.1 :Data input.....	37
I-7.6.2 :Information output	39

Chapter II : Defining the study area and data collection

II-1 Defining the study area	40
II-1.1 :The Mahmoudia canal and the city growth	40
II-1.2 :Determining the study area	41
II-2 Detailed description of the canal landscape	42
II-2.1 :The canal banks slopes	42
II-2.2 :The canal bank land cover	42
II-2.3 :The illegal occupations of the canal banks	43
II-3 The pollution of the canal course	46
II-3.1 Definition of pollution	46
II-3.2 Air pollution.....	46
II-3.3 :Water pollution of El- Mahmoudia Canal	47
II-3.3.1 :Definition of water pollution	47
II-3.3.2 :Water pollution problem due to illegal occupation	48
II-3.3.3 :Pollution from industrial discharge	48
II-3.3.4 :Main water pollution matters	48
II-3.4 :Aquatic plants problems	49
II-3.5 :Solid waste pollution	50
II-3.6 :Visual pollution	50
II-3.6.1 :Definitions	50
II-3.6.2 :Reasons lead to visual pollution	50
II-3.6.3 :Sources of visual pollution in El Mahmoudia Canal	51
II-3.7 :Noise pollution	52
II-3.7.1 :Introduction to noise pollution	52
II-3.7.2 :Negative effects of noise	52
II-3.7.3 :Noise sources in El Mahmoudia canal	52
II-3.8 :Summary of main pollution sources on both canal banks of the study area	53
II-4 Transportation and streets status along the study area	53
II-4.1 :Introduction.....	53
II-4.2 : Some observation on transportation	53

II-4.3 : Streets and side walks condition	53
II-5 Crossing means along the study area	56
II-5.1 :Introduction	56
II-5.2 :Pedestrians movement	56
II-6 Description of the canal surrounding characteristics	58
II-6.1 :Introduction	58
II-6.2 :Land-use characteristics	58
II-6.2.1:Stores and warehouses.....	58
II-6.2.2 : Industries.....	58
II-6.2.3 :Public parks	59
II-6.2.4 :The agricultural land.....	60
II-6.2.5 :Services and public facilities	60
II-6.2.6 :Religious facilities	60
II-6.2.7 :Educational facilities	60
II-6.2.8 :Health care facilities	60
II-6.2.9 :Commercial facilities	60
II-6.2.10 :General notes	61
II-6.3 : Building's heights	61
II-6.4 : Building's conditions.....	61
II-7 The rehabilitation of El Mahmoudia canal project	62
II-7.1 :The general objectives of the project.....	62
II-7.2 :The design criteria and concepts.....	62
II-7.3 :The EIA of the rehabilitation project	63
II-7.4 :The project stages	64
II-7.5 :Components of the project.....	64
II-7.5.1 :The architectural component	64
II-7.5.2 : The social component.....	65
II-8 Data collection.....	67
II-8.1 :Data sources	67
II-8.2 : The available data format	67
II-9 The socio-economic study.....	69
