PREVALENCE OF COMMON PARASITIC INFECTIONS AMONG HEPATIC PATIENTS

B18909

THESIS
SUBMITTED IN PARTIAL FULFILLMENT
OF M.Sc. DEGREE IN MEDICAL PARASITOLOGY

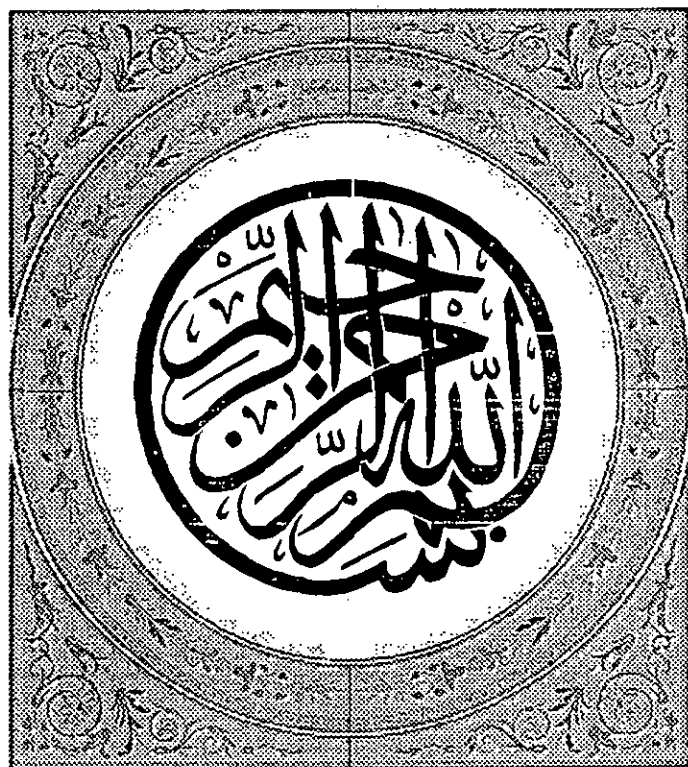

By
Yousry Abd El-Hameid Hawash
(M.B., B.Ch.)
Demonstrator of Parasitology,
National Liver Institute, Menoufiya University

Supervised by
Prof. Dr. SORAYA ABD EL-AZIZ SHARAF
Chairman – Parasitology Dept.,
National Liver Institute, Menoufiya University

Dr. OMAYMA KAMEL EL-SHAFEI
Assistant Professor of Parasitology,
Faculty of Medicine, Menoufiya University

Dr. ABD EL-GAWAD EL-SAYED A.
Lecturer of Parasitology,
National Liver Institute, Menoufiya University

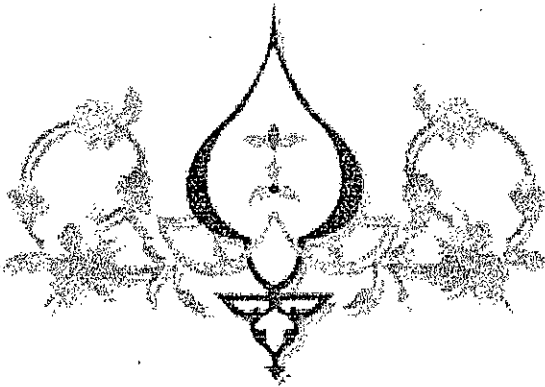

FACULTY OF MEDICINE
MENOUFIYA UNIVERSITY
2002

قَالُوا سُبْحَانَكَ يَا عَزِيزُ
لَقَدْ عَلَّمْتَنَا أَنْزَلَكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

***To my
Beloved
Family***

ACKNOWLEDGEMENT

I would like to introduce my heartily appreciation to *Prof. Dr. Nashaat El-Sayed Nassef*, Professor and Head of Parasitology Department, Faculty of Medicine, Menoufiya University, for her kind moral support, continuous encouragement and sincere help.

I would like to express my deepest gratitude as I am deeply indebted to my professor and supervisor, *Prof. Dr. Soraya Abd El-Aziz Sharaf*, Professor and Head of Parasitology Department, The National Liver Institute, Menoufiya University, for her kind moral support, enthusiastic encouragement and help to pursue this work.

I would also like to express my very sincere thanks to *Dr. Omaina Kamel El-Shafei*, Assistant Professor of Parasitology, Faculty of Medicine, Menoufiya University, for her patience, tremendous effort and guidance throughout this work.

I wish to express my deep indebtedness to *Dr. Abd El-Gawad El-Sied Abd El-Gawad*, Lecturer of Parasitology, The National Liver Institute, Menoufiya University, for his close supervision, encouragement and sincere follow up.

I am deeply indebted to *Dr. El-Amir Mahmoud Amir*, Lecturer of Parasitology, The National Liver Institute, Menoufiya University, for his sustained support, continuous supervision and unlimited help.

LIST OF TABLES

- Table (1): Characteristics of studied hepatic disease patients and controls
- Table (2): Clinical data of studied hepatic disease patients.
- Table (3): Laboratory data of studied hepatic patients and controls
- Table (4): Abdominal ultrasonography of hepatic patients.
- Table (5): Abdominal CT findings for selected hepatic patients.
- Table (6): Results of stool analysis by formol-ether oncentration method in hepatic disease patients and controls.
- Table (7): Comparison of the results of IHA method for detection of schistosomiasis in studied hepatic disease patients and controls.
- Table (8): Result of stool analysis for *Schistosoma mansoni* by Kato technique in hepatic disease patients.
- Table (9): Results of rectal snip analysis for *S. mansoni* in hepatic disease patients.
- Table (10): Results of analysis for detection of *S. mansoni* by different techniques in hepatic disease patients.
- Table (11): Comparison of the results of IHA for detection of fascioliasis between hepatic disease patients and controls.
- Table (12): Comparison of the prevalence of amoebiasis as detected by IHA between hepatic disease patients and controls.
- Table (13): Comparison of the results of detection of hydatid disease by (IHA) technique between hepatic disease patients and controls.
