ACKNOWLEDGEMENT

First, thanks to Allah, who made me able to accomplish this work.

I would like to express my deep gratitude and appreciation to Dr. Moussa Abd El-Hameed Moussa, Assistant Professor of Orthopedics Surgery, Faculty of Medicine, Suez Canal University, for his stimulating enthusiasm, unlimited help encouragement and valuable instructions all through this work.

My deepest thanks to Dr. Mohamed Ibrahim El-Kalioby Assistant Professor of Pediatrics, Faculty of Medicine, Suez Canal University, who provided much of his time and expressed so much sincere care, kind supervision and concern.

I am deeply grateful to Dr. Wafaa El-Sayed Abd-El Gileel, Assistant Professor of Pediatrics Nursing, Ain Shams University, for giving me much of her time and constant guidance.

My special gratitude for my family members for their tolerance and sustained moral support especially my parents.

I wish to express great thanks to my friends for the marvelous support, continuous guidance and valuable help.

Finally I wish to show gratitude to all those who sincerely helped me in this work.

LIST OF ABBREVIATIONS

ABG	Arterial Blood Gases .
CO ₂	Carbon Dioxide .
FEF	Forced Expiratory Flow .
FEV1	Forced Expiratory Volume in 1 st Second .
FVC	Forced Vital Capacity .
IgE	Immunoglobulin E .
MDI	Metered Dose Inhaler .
MMEFR	Maximum Mid Expiratory Flow Rate .
PEF	Peak Expiratory Flow .
PEFR	Peak Expiratory Flow Rate .
PFR	Peak Flow Rate .
PFT	Pulmonary Function Test .
RAST	Radio-Allergosorbent Test .
SO ₂	Sulphur Dioxide .
TLC	Total Lung Capacity .

LIST OF TABLES

Literature Review

Table	Page
1 Classification of asthma according to its causes	17
2 Classification of asthma according to its severity.....	18

Results

I Frequency distribution of mothers by their socio-demographic data	50
II Frequency distribution of asthmatic children according to their socio-demographic data	52
III Frequency distribution of mothers of asthmatic children according to their housing condition	54
IV Frequency distribution of asthmatic children according their family history of asthma	56
V Frequency distribution of mothers according to the type of allergens in their houses.....	58
VI Frequency distribution of mothers' knowledge about asthma	59
VII Frequency distribution of mothers according to their knowledge about precipitating factors of asthma	61

List of Tables (Cont.)

VIII Frequency distribution of mothers reaction regarding their asthmatic children	64
IX Frequency distribution of mothers regarding their practice before an asthmatic attack of their children	65
X Frequency distribution of mothers according to their practice during an asthmatic attack of their children	66
XI Frequency distribution of mothers according to their practice after an asthmatic attack of their children.....	68
XII Frequency distribution of mothers according to their sources of information about asthma.....	71
XIII Relation between mothers' knowledge and their occupation	72
XIV Relation between mothers' knowledge and their residence	73
XV Relation between mothers' knowledge and their educational level..	74
XVI Relation between mothers' knowledge and the rank of the asthmatic child in the family.....	75
XVII Relation between practice , age of the child, age of mothers and income	76

List of Tables (Cont.)

XVIII Relation between mothers' level of knowledge and level of practice regarding asthma.....	77
XIX Relation between mothers' practice and their occupation	78
XX Relation between studied mothers' practice and their residence....	79
XXI Relation between mother's practice and their educational level	80
XXII Relation between mother's practice and the rank of the asthmatic child in the family	81

LIST OF FIGURES
