ACKNOWLEDGEMENT

First of all, all gratitude is to ***GOD*** the Almighty who guided and aided me in bringing this thesis to light which has never been crowned by success without the blessing of ***ALLAH*** to whom my faithful loyalty will remain forever beyond and compromises.

I would like to express my sincere gratitude to ***Prof. Dr. Khaled Mohamed Hassanein***, Professor of Microbiology and Immunology Department, Faculty of Medicine, Assiut University, for his great help, constructive suggestions, excellent guidance and eminent supervision which tided me over the difficulties I met with throughout this work.

I wish to express my deep and extreme appreciation to my kind teacher ***Dr. Ehssan Abd El -Sabour Hassan***. Assistant professor of Microbiology and Immunology Department, Faculty of Medicine, Assiut University, for great encouragement, unlimited efforts in bringing out this work, her kind support, valuable instructions and for continuous guidance and useful help.

I am also grateful and deeply indebted to ***Dr. Ahmed Fayek Amin***, Assistant professor of Obstetrics and Gynecology Department, Faculty of Medicine, Assiut University, for performing and supervising the clinical part of this work.

Special thanks to my entire dear staff members of Microbiology and Immunology Department, Faculty of Medicine, Assiut University, for their continuous encouragement and help.

Finally many thanks to the ***pregnant women***; on whom and for whom this study has been done.
