GEOPHYSICAL STUDIES OF THE AREA NORTH EASTERN ASWAN, EASTERN DESERT, A.R.E.

A THESIS

Submitted to the Geology Department
Qena Faculty of Science
South Valley University

for the degree of M. Sc. in Geology
(Applied Geophysics)

By

Ahmed Wahaballa Mohamed
(B. Sc. in Geology 1989)

Supervised by

Pro. Dr. M. S. Shalabi
Head of Geology Department
and Dean of Qena Faculty of Science
South Valley University

Dr. Abass Mansour
Ass. Prof. of Geology
Geology Department
Qena Faculty of Science
South Valley University

Dr. S. O. El-Khteb
Lecturer of Geophysics
Geology Department
Qena Faculty of Science
South Valley University

Dr. A. M. I. El-Akraby
Lecturer of Geophysics
Geology Department
Qena Faculty of Science
South Valley University

1995

B
130-1

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

" رَبَّنَا لَا تُخِمْ قُلُوبَنَا بَعْدَ إِذْ هَدَيْتَنَا وَهَبْ لَنَا مِنْ لَدُنْكَ رَحْمَةً إِنَّكَ أَنْتَ الْوَهَّابُ "

صدق الله العظيم

*TO MY MOTHER
AND
THE MEMORY OF MY FATHER*

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

All gratitude is due to Allmightly god who guided and aided me to bring this thesis forth to light.

I'm deeply indebted and gratefully acknowledge Prof. Dr. M. S. Shalabi, Prof. of Geophysics, Head of Geology Department, and Dean Qena Faculty of Science, South Vallye University, Dr. S. O. El Khateeb Lecturer of Geophysics, Qena Faculty of Science, for their supervision, advice, continual assistance, instructive discussions and valuable directions which encouraged me to accomplish this work, without their continuous help, this work would have never come to light.

I would like to express my deep thanks and gratitude to Dr. Abass Mansour Ass. Prof. of Geology Qena Faculty of Science and Dr. Abdel Hady El-Akraby, Lecturer of Geophysics, Qena Faculty of Science for their supervision, advice, continual assistance, instructive discussions and their kind cooperation.

I wish to express my grateful acknowledgement to Prof. Dr. A. H. Nawar, for his kind cooperation and the facilities offered.

Finally, all members of the Geology Department, international Institute of Ocangraphy and Fisheries, Red Sea Branch, and all who gave hand during the progress of this work.

A.Wahaballa Mohamed.

LIST OF TABLES -----	
ABSTRACT -----	1
CHAPTER 1 : GENERAL GEOLOGY OF THE INVESTIAGTED AREA.	2
1.1 INTRODCUTION -----	2
1.2 Morphology -----	3
1.3 Geology -----	5
1.4 Geophysics -----	13
1.5 Source of Data -----	14
CHAPTER 2 : INTERPRETATION OF AEROMAGNETIC DATA.	15
2.1 Qualitative Interpretation -----	15
2.1.1 General -----	15
1 Description of the Aeromagnetic Map -----	17
2 Regional-Residual Separation -----	19
3 Second vertical derivative -----	22
4 Downward Continuation -----	23
5 Magnetic Lineaments -----	26
6 Surface Faults Trend Analysis -----	
7 Determination of the Type of the Causative Bodies	26
1-By using Magnetic Gradients -----	27
2-By using Powell,s Method -----	29
2.2 Quantitative Interpretation	29
2.2.1 General -----	
2.2.2 Evaluation of Dyke and Fault Parameters :-----	
- Durantny and Krs's Method (1963)-----	30
- Koulomzine and Lamontagnes,s Method (1970) -----	30
- Powell's Method (1966) -----	33
- Atchuta Rao, D. et al. Method (1981) -----	33
- Nabighain's Method (1972) -----	35
- Skolov's Method (1964)-----	36
- Demi-Pentes Method (1963)-----	36
- Green and Stanly's Method (1976) -----	37
- Mohan, Sundarajan and Seshagiri Rao's -----	

	page
Method (1982) -----	38
- Ram Babu, Subrahmanyam and Atchuta Rao's Method, (1982).-----	39
- Determination of the Depth of the buried Causative bodies applying Spectral Analysis -----	41
CHAPTER 3 : INTERPRETATION OF AERORADIOMETRIC DATA.	
3.1 Theoretical Considerations -----	43
3.1.1 General -----	43
3.1.2 Natural Sources of Radioactivity -----	44
3.1.3 Residual Field or Residual Background. -----	44
3.2 Qualitative Interpretation of Aeroradiometric Survey Data -----	45
3.2.1 General -----	45
3.2.2 Aeroradioactivity Levels -----	46
3.2.3 Relation between Aeroradioactivity and Lithology	47
3.2.4 Aeroradiometric Trend Analysis -----	48
3.3 Qualitative Interpretation of Aeroradiometric Survey Data -----	49
3.3.1 Statistical Methods of Analysis -----	49
- General -----	49
- Arithmetic Mean -----	50
- Standard Deviation -----	50
- Normal Distribution -----	51
- Chi-Square Test -----	51
3.3.2 Statistical Inference Tests -----	52
- General -----	52
- Bartlett's Test -----	52
- Analysis of Variance Test -----	53
- F-Test -----	55
- Studentized t-Test -----	55
3.3.3 Aeroradiometric Unit Map -----	56
Application of Statistical Method of Analysis ---	56
Results of X, S and Normalities -----	56
3.3.4 Application of Statistical Inference Tests -----	62
- General -----	62

	page
- Statistical Inference Tests -----	62
- Results of the Bartlett's Test -----	62
- Results of the Analysis of Variance Test -----	63
- Results of the F-Test -----	67
- Results of the Studentized t-Test -----	68
3.3.5 General Discussions -----	69
Group 1 : Mig'if Hafafit Gneisses and Migmatites	69
Group 2 : Geosynclinal Metasediments -----	69
Group 3 : Geosynclinal Metavolcanics -----	70
Group 4 : Serpentine -----	71
Group 5 : Metagabbro-Diorite Complex -----	71
Group 6 : Older Granites -----	71
Group 7 : Dokhan Volcanics -----	72
Group 8 : Younger Granites -----	72
Group 9 : Lower Cretaceous Sediments -----	74
Group 10 : Upper Cretaceous Sediments -----	75
Group 11 : Wadi Natash Volcanics -----	75
Group 12 : Quaternary Sediments -----	76
