

Assessment of bone regeneration in the esthetic zone with resorbable and non- resorbable membrane

«A Comparative randomized clinical study»

A thesis submitted to Faculty of Dentistry, Ain-Shams
University.

In partial fulfillment of the requirements for the Master's
degree in Oral and Maxillofacial Surgery

By

Aya Magdy Abd El-Rady

B.D.S. Future University in Egypt

2012

Faculty of Dentistry,

Ain-Shams University

2019

Supervisors

Prof. Mohammed Diaa Zein EL-Abdien

Professor of oral and maxillofacial surgery

Faculty of Dentistry

Ain shams University

Prof. Waleed Ragab EL-Beialy

Professor of oral and maxillofacial surgery

Faculty of Oral and Dental medicine

Cairo University

Dr. Karim Abdel Mohsen

Lecturer of Oral and Maxillofacial Surgery,

Faculty of Dentistry,

Ain-Shams University,

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

يَشَاءُ ۚ وَاللَّهُ ذُو الْفَضْلِ الْعَظِيمِ﴾

Dedication

To the one whose soul filled me with life, empowered my heart and calmed my restless soul.. To the one who I so endearingly acknowledge through dedicating my work.. The one who gifted me with mercy, wisdom and geniality that steered me through life. To the one who enlightened my way and helped me believe in hope in times of adversity. The one who unveiled before me the power of words and their everlasting effect on one's heart and how they can be guiding lanterns on a learner's arduous path.. To my father's soul.. Because of you I sowed the seeds of hard work, and today your immortal soul will be the first witness as I reap the fruits of success.. Father, I dedicate my thesis to your forever immortal soul that shall always reside in my heart.

I also dedicate my work to all those who are determined to live up to their daily battles on their journey to learn, the believers and the dreamers who are destined to be achievers.. Thank you.

Acknowledgments

*First and foremost to **ALLAH**, goes all my deepest gratitude and thanks for achieving any work in my life.*

This thesis would not have been possible without the guidance and the help of several individuals who in one way or another contributed and extended their valuable assistance in the preparation and completion of this work.

*It gives me great pleasure to express my deepest thanks and profound respect to **Dr. Kareem El Tabarany**, Assistant lecturer of Oral Radiology, Faculty of Oral and Dental Medicine, Modern University for Technology and Information, for his meticulous scientific effort in this work.*

*I would also like to pay tribute to **Dr. Khaled Mohi** teaching assistant of Oral and Maxillofacial Surgery, Faculty of Oral and Dental Medicine, Future University in Egypt, for their scientific cooperation, great efforts and encouragement.*

*Last but not least I would like to express my gratitude to all my **Professors, colleagues and friends** in the Department of Oral and Maxillofacial Surgery, Faculty of Oral and Dental Medicine, Future University in Egypt, for being outstanding advisors and for their constant encouragement, support, and invaluable suggestions.*

LIST OF CONTENTS

INTRODUCTION & REVIEW OF LITERATURE	1
AIM OF THE STUDY	35
PATIENT AND METHOD	37
RESULTS.....	61
DISCUSSION	71
SUMMARY AND CONCLUSIONS	79
REFERENCES.....	83
APPENDIX 1	103
APPENDIX 2	109
APPENDIX 3	111

LIST OF TABLES

Table 1: Misch Bone Density Classification Scheme.....	5
Table 2: Healing capability Of each type of graft materials .	16
Table 3: Various types of bone grafts	18
Table 4: Mean & STD of crestal bone width.....	66
Table 5: Mean & STD of middle bone width.	67
Table 6: Mean & STD of apiccal bone width.	69

LIST OF FIGURES

Figure 1: Representing Lekholm & Zarb Classification.....	4
Figure 2: Representing Misch Classification	6
Figure 3: Representing Edentulous Bone Ridge Classification followed three-dimensional (3D) quantity of alveolar bone shape and volume.	9
Figure 4: Pyramid with the 5 main criteria that barrier membranes, should fulfill.....	24
Figure 5 (A): Pre-Operative Frontal View in Occlusion	39
Figure 5 (B): Anterior Retracted View	39
Figure 5 (C): Left Retracted view for defected alveolar ridge	40
Figure 6: Study Casts	40
Figure 7: Preoperative Oral Pantamogram.....	41
Figure 8: Pre-Operative CBCT Evaluation	42
Figure 9: (a&b) Showing the Horizontal Measurements at 3 Levels	43
Figure 10: Horizontal and Vertical Measures	44
Figure 11: (a&b) Showing the Crestal and oblique Incisions	45
