I would like to express my gratitude and appreciation to all members of tropical medicine department for kind cooperation & encouragement in accomplishing my thesis.

CONTENTS

	Page
Introduction	1
Aim of the Work	2
Review:	
I- Pancreatitis	
Anatomy of the pancreas	3
Blood supply of the pancreas	5
Nerve supply of the pancreas	9
Lymphatic drainage of the pancreas	10
Physiology of the pancreas	11
Acute pancreatitis	19
II- Typhoid fever	
Etiology.	31
Modes of transmission	33
Survival of S.typhi	34
Incidence, seasonal and age variations	35
Pathology	36
Bacteriology	38
Immunologic responses in typhoid fever.	40
Diagnosis	42
Complications	51
Treatment	57
Vaccination	63
III- Pancreatic disturbances in typhoid fever	64
Patients and Methods	66
Results	74
Discussion	83
Summary and conclusions	98
Recommendations	101
References	103
Arabic Summary	

LIST OF FIGURES

Fig. (1): Anatomy of the pancreas.	4
Fig. (2): Arterial supply of the pancreas.	6
Fig. (3): Venous drainage of the pancreas.	8
Fig. (4): Results of amylase level in studied groups.	80
Fig. (5): Results of lipase level in studied groups.	81

LIST OF TABLE S

Table (1): Age distribution of studied groups.	74
Table (2): Sex distribution in studied groups.	74
Table (3) clinical manifestations in studied groups.	75
Table (4): Results of CBC in studied groups.	76
Table (5): Results of liver function tests in studied groups.	77
Table (6): Results of widal test in studied groups.	78
Table (7): U.S. results in studied groups.	78
Table (8): Results of amylase level in studied groups.	79
Table (9): Results of lipase level in studied groups.	79
Table (10): Results of clinical picture in the patients with elevated pancreatic enzymes.	82
