

Mutual Environmental Effect Between Bio-mass and Radioelements Concentration in Some Uraniferous Sedimentary Rocks, Sinai-Egypt

A Dissertation Submitted as a partial fulfillment for the Degree
of Philosophy Doctor in Science in

Biophysics

by

Sameh ElSayed Mohamed Mohamed

Assistant lecturer of Biophysics-Nuclear Materials Authority

M.Sc. in Biophysics (2011)

Supervised by

Prof. Dr. Abdelsattar M. Sallam

Prof. of Biophysics, Faculty of
Science - Ain Shams University.

Prof. Dr. Mohamed G. El Feky

Prof. of Geochemistry –
Nuclear Materials Authority.

Prof. Dr/ Afaf A. Nada

Prof. of Nuclear physics –
Faculty of Women for Art,
science and Education – Ain
Shams University.

Ass. Prof. Dr/ Maisa M. Amin

Ass. Prof. of Microbiology–
Nuclear Materials Authority

To
Physics department
2019

Approval Sheet

Title: Mutual Environmental Effect Between Bio-mass and Radioelements Concentration in Some Uraniferous Sedimentary Rocks, Sinai- Egypt.

Candidate name: Sameh ElSayed Mohamed Mohamed

Degree: Doctorate

Supervisors

Approved

1- Prof. Dr. Abdelsattar M. Sallam

Prof. of Biophysics, Physics Department,
Faculty of Science -Ain Shams University.

2- Prof. Dr. Mohamed G. El Feky

Prof. of Geochemistry – Nuclear Materials Authority.

3- Prof. Dr. Afaf A. Nada

Prof. of Nuclear physics – Faculty of Women for Art,
science and Education – Ain Shams University.

4- Ass. Prof. Maisa M. Amin

Ass. Prof. of Microbiology– Nuclear Materials
Authority

*[may Allah
mercy her soul]*

Ph.D. Thesis

***Candidate name:* Sameh ElSayed Mohamed**

Title: Mutual Environmental Effect between Bio-mass and Radioelements Concentration in Some Uraniferous Sedimentary Rocks, Sinai- Egypt.

Degree: Ph.D. Biophysics.

Supervisors:

Prof. Dr. Abdelsattar Mohamed Sallam

Prof. of Biophysics- Physics Dept.- Faculty of Science, Ain Shams University.

Prof. Dr. Mohamed Galal Hussein El-Feky

Prof. of Geochemistry- Nuclear Materials Authority.

Prof. Dr. Afaf Abd El-Latif Nada

Prof. of Nuclear Physics, Faculty of Girls for Art, Science and Education, Ain Shams University.

Ass. Prof. Maisa Mohamed Amin

Ass. Prof. of Microbiology– Nuclear Materials Authority

Examiners:

Prof. Dr. Abdelsattar Mohamed Sallam

Prof. of Biophysics- Physics Dept.- Faculty of Science, Ain Shams University.

Prof. Dr. Ibrahim Hassan Ibrahim

Prof. of Biophysics-Physics Dept.- Faculty of Science, Ain Shams University

Prof. Dr. Sayed Fahmy Hassan

Prof. of Radiological and Environmental Physics- Nuclear Materials Authority

Prof. Dr. Mohamed Galal Hussein El-Feky

Prof. Dr. of Geochemistry- Nuclear Materials Authority.

Prof. Dr. Afaf Abd El-Latif Nada

Prof. of Nuclear Physics- Physics Dept.- Faculty of Women Ain Shams University.

Name: *Sameh ElSayed Mohamed Mohamed*

Degree: Ph.D.

Department: Physics-Biophysics

Faculty: Faculty of Women for Arts, Science
and Education

University: Ain-Shams

Graduation Faculty of Science- Ain-Shams

Date: University, 2002.

Award Date: 2019

Acknowledgements

First, I can't be thankful enough for Allah to whom I am indebted for his blessings on me.

I would especially like to thank my supervisors for initially accepting me as a Ph.D. Candidate, for their commitment to science and which has been an inspiration to me and for conveying the meaning of a successful team work to me.

I owe my deepest gratitude and debt to ***Prof. Dr. Abdelsattar M. Sallam, Professor of Biophysics, Faculty of Science, Ain Shams University*** who was always there for me since I was an undergraduate student. He taught me science as well as ethical principles and put me on the right track by introducing me to the amazing world of Biophysics and Environmental studies which became my passion. He also provided me with all the possible means and tools that could help me during my studies. And above all, He stood by my side in every situation and helped me get up on my feet whenever I was feeling down.

I would like to express the deepest appreciation to ***Prof. Dr/ Mohamed G. El Feky, Professor of Geochemistry, Nuclear Materials Authority***, for his constructive criticism, helpful and enlightening discussions. He was always there whenever I needed his opinion and stood by me during my work in spite of being extremely busy. He taught me that there is no "pure" science and that a research study is better by collaborating on with researchers in many other fields.

My deepest heartfelt appreciation goes *to Prof. Dr. Afaf A. Nada, Professor of Nuclear Physics, Faculty of Women for Arts, Science and Education, Ain Shams University.* for her endless encouragement, valuable ideas, uncountable basic editing, independent thinking and her ability to find creative simple solutions to complex problems. I wish to express my thanks to her for instilling spirit of hope and optimism.

I also would like to thank *Dr. Maisa M. Amin, [may Allah mercy her soul] Assistant Professor of Microbiology, Nuclear Materials Authority* for her guidance during my studies, providing me with any materials needed whenever asked to and standing with me in laboratory teaching me many techniques.

I am greatly indebted and would like to express my sincere appreciation towards *Prof. Dr. Ibrahim. E. El Aassy, Professor of Applied Geology, Nuclear Materials Authority,* for his valuable assistance during the progress of this work. I am grateful for his patience and professional support. I would also like to thank him for the continued advices.

I am deeply grateful to *Dr. Nareman M. Harpy, Lecturer of Biophysics, Nuclear Materials Authority,* I cannot evaluate her efforts in this thesis. Working with her was a great delight, it was a great opportunity to work with her on practical experiments. I would like to express my thanks to her for all things, she spared no effort at any time for discussion and guiding me since work starts till ends up.

I would like to thank Nuclear Materials Authority of Egypt; Special thanks goes to my lab-mates in Hp-Ge especially *Prof. Dr. Eman. M. Ibrahim* who helped me during work with any possible tools.

Finally, I would like to extend my sincere appreciation and unlimited thanks for my family, especially my mother and my beloved wife for her valuable support, cooperation and encouragement all the time, Special thanks to my brothers Mohamed, Mostafa and Mahmoud for supporting me and finally to my sons Omar, Yara and Alaa.

To you all, I say *Thanks!*

To My Father's Soul
