

"Preparation and Characterization of Magnetic Nanocomposite from Agricultural Waste for Industrial Wastewater Treatment"

A thesis submitted by

Kholod Hamdy Kamal Kamel
(M.Sc. in chemistry 2012)

For the Requirement of the Degree

of

Doctor of Philosophy (Ph.D.)

to

Chemistry Department

Faculty of Science

Ain Shams University

2019

Preparation and Characterization of Magnetic Nanocomposite from Agricultural Waste for Industrial Wastewater Treatment

Submitted By

Kholod Hamdy Kamal Kamel

This Ph.D. thesis has been approved for submission by supervisors:

Thesis Supervisors

Approved

Prof. Mohamed Said Attia

Prof. of analytical chemistry - Faculty of Science
Ain Shams University.

.....

Prof. Enas Mohamed Abou-Taleb.

Prof. of wastewater treatment technology
and environmental studies, National Research Center.

.....

Prof. Nabila Mohamed Ammar.

Prof. of water chemistry, National Research Center.

شكـر

اشكر السادة الأساتذة الذين قاموا بالإشراف وهم :

أ.د/ محمد سعيد عطيه مصطفى
استاذ - الكيمياء -كلية العلوم - جامعة عين شمس

أ.د/ ايناس محمد على ابوطالب
استاذ بقسم بحوث تلوث المياه - المركز القومى للبحوث

أ.د/ نبيلة محمد عمار
استاذ بقسم بحوث تلوث المياه - المركز القومى للبحوث

ثم الأشخاص الذين تعاونوا معى فى البحث وهم :

أ.د/ حنان سيد عبد الرحمن
استاذ بقسم بحوث تلوث المياه - المركز القومى للبحوث

وكذلك الهيئات الآتية :

1- قسم بحوث تلوث المياه المركز القومى للبحوث

2- كلية العلوم جامعة عين شمس

Acknowledgments

First and foremost, all praises and sincere thanks are to

ALLAH.

I wish to express my sincere appreciation to *Prof. Mohamed Said Attia*, Professor of Chemistry, Faculty of Science, Ain Shams University, for his valuable guidance, helpful suggestions, continuous encouragement, supervision and support during this work.

I would like to express my sincere thanks, full respect and deep gratitude to *Prof. Enas Mohamed Abou-Taleb*, Professor of Water Pollution Research - National Research Centre, for her patient supervision, inspiring guidance, critical comments, suggestions, and the never-ending support she displayed throughout this study.

Thanks, appreciation and gratitude are due to *Prof. Nabila Mohamed Ammar*, Professor of Water Pollution Research, National Research Centre, for providing the necessary knowledge and laboratory facilities during this work.

I sincerely express my deepest gratitude to *Prof. Hanan Sayed Abd Elrahman*, Professor of Water Pollution Research, National Research Centre, for his support, enthusiasm, and valuable discussion.

I wish to express my warm and sincere thanks and appreciation to *my husband Dr. Mohamed Ali Hassan*, for his supporting.

I would like to thank the *Water Research Department, National Research Centre, and Faculty of Science, Ain Shams University*, for all the facilities provided.

Finally, I would like to thank *my family* for their love, support and devotion throughout my Ph.D. fulfillment.

Kholod Hamdy Kamal Kamel

Assistant Researcher,
Water Research Department,
National Research Centre

2.2. X-ray diffraction spectroscopy (XRD)	34
2.3. Scanning electron microscopy (SEM)	35
2.4. Transmission electron microscopy (HR-TEM)	36
2.5. Zeta-potential measurement.....	36
2.6. Vibrating sample magnetometer (VSM)	37
3. SORPTION STUDY	37
3.1. Methylene blue.....	38
3.1.1. Sorbents comparative study.....	38
3.1.2. Methylene blue sorption study.....	39
3.2. Copper ions (Cu^{2+}).....	40
3.2.1. Sorbents comparative study.....	40
3.2.2. Copper ions sorption study.....	40
3.3. Lead ions (Pb^{2+}).....	41
3.3.1. Sorbents comparative study.....	41
3.3.2. Lead ions sorption study.....	41
3.3.3. Column case study.....	42
3.3.4. Regeneration.....	46
3.4. Data evaluation	47
3.4.1. Kinetic study.....	47
3.4.2. Isotherm study.....	49
CHAPTER (3)	52
RESULTS AND DISCUSSION	52
1. SORBENTS CHARACTERIZATION	52
1.1. Fourier transform infrared spectroscopic measurement (FTIR).....	52
1.2. X-ray diffraction (XRD).....	53
1.3. Scanning electron microscopy (SEM)	54
1.4. Transmission electron microscopy (HR-TEM)	59
1.5. Zeta-potential measurement.....	61
1.6. Vibrating sample magnetometer (VSM)	62
2. THE SORPTION STUDY	63
2.1. Methylene blue sorption study	63

Table of Contents

2.1.1. Comparative study on the removal efficiency of methylene blue using different sorbents.....	63
2.1.2. Effect of contact time on the removal efficiency of methylene blue using silica/corn cob nanocomposite.....	65
2.1.3. Effect of pH on removal efficiency of methylene blue using silica/corn cob nanocomposite.....	68
2.1.4. Effect of sorbent dosage of silica/corn cob nanocomposite on the removal efficiency of methylene blue and the uptake capacity.....	69
2.1.5. Effect of methylene blue concentration on removal efficiency and uptake capacity of silica/corn cob nanocomposite.....	71
2.2. Copper ions sorption study.....	76
2.2.1. Comparative study on removal efficiency of copper ions using different sorbents.....	76
2.2.2. Effect of contact time on the removal efficiency of Cu^{2+} using magnetic silica/corn cob nanocomposite.....	77
2.2.3. Effect of pH on removal efficiency of copper ions using magnetic silica/corn cob nanocomposite.....	81
2.2.4. Effect of sorbent dosage of magnetic silica/corn cob nanocomposite on the removal efficiency of Cu^{2+} and the uptake capacity.....	82
2.2.5. Effect of copper ions concentration on the removal efficiency and the uptake capacity of magnetic silica/corn cob nanocomposite.....	83
2.3. Lead ions sorption study	88
2.3.1. Comparative study on the removal efficiency of lead ions using different sorbents.....	88
2.3.2. Effect of contact time on the removal efficiency of Pb^{2+} using magnetic silica/corn cob nanocomposite.....	90
2.3.3. Effect of pH on removal efficiency of Pb^{2+} using magnetic silica/corn cob nanocomposite.....	93
2.3.4. Effect of sorbent dosage of magnetic silica/corn cob nanocomposite on the removal efficiency of lead ions and the uptake capacity.....	94
2.3.5. Effect of lead ions concentration on removal efficiency and uptake capacity of magnetic silica/corn cob nanocomposite.....	96

Table of Contents

2.3.6. Column case study.....	101
2.3.7. Regeneration.....	107
