ACKNOWLEDGMENT

This work would never be completed or crowned by success without the help of our merciful God (ALLAH), to whom our loyalty must remain forever beyond any compromise.

I am much grateful and I would like to express my deepest appreciation, gratitude and my sincere thanks to my kind teacher **Dr. El-Hassan Mohamed Ali**, Assistant Professor of Pediatrics, Assiut University, for his continuous excellent guidance, skillful help and great encouragement. No words can be sufficient to express my gratitude and indebtedness.

My sincere appreciation to **Dr. Mohamed Mahrous Sayed**, Lecturer of Pediatrics, Assiut University, for his kind supervision and support during the whole scope of this work, also for his paramount assistance, enthusiastic help, genius cooperation and encouragement throughout this work, the much time he had spent in revising every step of this work and his sincere kindness will always be remembered.

I'm grateful to **Dr. Azza Mahmoud Ezz El-Din**, Lecturer of Clinical Pathology, Assiut University, for her effort in accomplishment of the laboratory work of this study.

Furthermore, I wish to extend my great thanks and greetings to the nursing staff members of the neonatology unit at Pediatric Departement for their help in my work.

Yasser Gamal Abd El-Rhman
