Dedicated to
my Mother

ACKNOWLEDGEMENT

I want to express my deepest gratitude to Professor Hoda Gindi who has been my supervisor in life and research for seventeen years. The pleasure of working under the supervision of a legend and the highest model of morals, integrity and wisdom is immeasurable. Words fail to express how much grateful I am and I will always be for her patience in reading and improving my work and putting up with the defects of a would – be scholar since I was taking my first steps in research. I will always be indebted to her guidance both in life and work.

I dedicate all my work to my mother not only because in spite of her health problems she was the only persistent source that drove me to work and survive but also hoping that this work might satisfy her soul in the world of immortality to make up for all the tension and worry that she used to put up with during the long fifteen years of writing the M.A. and the Ph.D. theses. I hope that this modest effort would give her some satisfaction or reward.

My deepest thanks go to all those around me who encouraged me to continue working in spite of all bad situations and problems especially my brothers, my nephews, my sister in law Salwa and my friends, Cecil, Rania, my uncles, aunts and cousins.

Special thanks go to my friend Dr. Mona Ibrahim who did not only support me morally but was very illuminating concerning this work in our long discussions of some of the issues of the thesis.

My dear godmother, my uncle's wife Dr. Thanaa Abbas gave one of the main pushes for me to continue working during all the difficult periods that this thesis witnessed. Words fail to express the due thanks for her interest and moral support.

My deepest thanks go also to those whose suggestions and improvements were very illuminating concerning the contents and organization of this work especially Dr Mohammed Yehia and Dr. Samia Khlousi.

Many friends also helped provide material that completed the research in this thesis. In this respect, I heartily thank Dr. Dalia El-Shayal, Dr. Heba Sharobeem, Dr. Iman Hanafy, Dalia Azmy, Hala Safwat and Mounira Soliman.

And Amal How can one thank God for having such a wonderful life and work companion without whom, literally, any success or achievement would not have been possible; without whose suggestions, moral support and real sacrifice and guidance, this work, may be this person, would have never met a happy end. It is only God who can reward her for all what she did for me silently and happily. May the meaning of her name as the only inspiring "hope" in my life continue to be like this for ever, praying that she get the reward of her good heart and nature in her life and work.

Zeinab
