Acknowledgment

Firstly, I would like to begin by thanking the Almighty (ALLAH) for his limitless help, guidance, protection and peace be upon his prophet.

I wish to express my sincere and deep appreciations to **Professor Doctor Hesham Awad**, Professor of Pediatrics and Neonatology, Faculty of Medicine, Ain Shams University for his continuous supervision, valuable guidance, loyal encouragement and valuable advises throughout this work.

I am also deeply grateful to **Professor Doctor Mona ElGanzoury**, Professor of Pediatrics, **Professor Doctor Safaa Shafik** Professor of Pediatrics and Neonatology for their valuable guidance. **Professor Doctor Ghada Gad** Professor of Pediatrics and Neonatology Faculty of Medicine, Ain Shams University for her continuous close supervision, unique effort, support, knowledge and assistance she offered me throughout the performance of this work. **Professor of Pediatrics and Neonatology Dr Rania Elfarash** for her valuable advises and amazing effort throughout this work. I am thankful to **Professor of Physical Medicine Dr Abeer Elzoheri** for her great efforts.

Special thanks to my first home Neonatal Intensive Care Unit, Gynecology and Obstetrics Hospital, Ain Shams University also my deepest gratitude to all the consultants in this great unit for their generous help. I am grateful to my patients and their parents for their cooperation.

Finally, I convey my thanks to my family especially my mother for her continuous help, support and love. I dedicate this to my father whose encouragement and guidance always accompany me and may God rest his soul in peace and rest of my family especially my brother and sisters.

Introduction

Aim of work

Chapter (1)

Prematurity

Chapter (2)

Bone Metabolism and Physiology

Chapter (3)

Osteopenia of Prematurity

Patients & Methods
