

"Effect of Retainer Design on the Mode of Failure of All Ceramic Cantilever Adhesive Fixed Dental Prosthesis"

A Thesis

Submitted for the Fulfillment of the Master's Degree of Science requirements in Fixed Prosthodontics, Faculty of Dentistry, Ain Shams University

By

Mark Tharwat Fouad

(B.D.S) October University for Modern Science & Arts University (MSA)2013,

Teaching Assistant in Fixed Prosthodontics Department, Faculty of Dentistry October University for Modern Sciences and Arts (MSA).

2019

Under Supervision of

Dr. Marwa Mohamed Wahsh

*Associate Professor, Fixed Prosthodontics Department
Faculty of Dentistry
Ain Shams University*

Dr. Maged Mohamed Zohdy

*Associate Professor, Fixed Prosthodontics Department
Faculty of Dentistry
Ain Shams University*

Dr. Nadia Zakaria Fahmy

*Professor, Fixed Prosthodontics Department
Faculty of Dentistry
October University for Modern Sciences and Arts (MSA)*

Acknowledgment

First and foremost, I would like to thank God for giving me the strength, knowledge, ability and opportunity to undertake this research study and to persevere and complete it satisfactorily. Without his blessings, this achievement would not have been possible.

*I am deeply grateful and thankful to **Associate Professor Dr. Marwa Mohamed Wahsh**, Associate Professor of Fixed Prosthodontics Department, Faculty of Dentistry, Ain Shams University for her great effort, her valuable guidance, her meticulous observation and for giving me generously of her time.*

*I also express my gratitude to **Associate Professor Dr. Maged Mohamed Zohdy**, Associate Professor of Fixed Prosthodontics Department, Faculty of Dentistry, Ain Shams University, for his Great cooperation, support, guidance, and valuable supervision. I am thankful for his efforts.*

*I would like to express my sincere gratitude and appreciation to **Professor Dr. Nadia Zakaria Fahmy**, Professor of Fixed Prosthodontics Department, Faculty of Dentistry, MSA University. I will remain grateful for her valuable guidance, continuous scientific supervision, spiritual encouragement, unforgettable efforts and proper planning that lead to the formation of this work.*

*Many thanks go to **Dr Alaa Naguib** for his cooperation and his extraordinary support during this thesis process.*

*I would like to thank **Mr. Mahmoud Sandeh** for his technical assistance during the laboratory phase. It was very interesting to accomplish the laboratory work with him.*

I wish to thank all the staff members Fixed Prosthodontics Department, Ain Shams University, for their continuous support.

I should not miss the chance to express my gratitude and thanks to all my professors and colleagues in Fixed Prosthodontics Department at MSA University for their help and encouragement.

Finally, I will end up thanking my amazingly supportive friends for their support all over this journey.

Dedication

*This thesis is dedicated to, the soul of my **Father**, for his endless support. He is gone now but left fingerprints of grace on my life that will not be forgotten.*

*To my **Mother**, for being my first teacher and the reason for who I am today, thanks for your great support and continuous care.*

*To my **Wife** for supporting me and being always my backbone. Without her endless love and encouragement, I would never have been able to complete my work.*

*To my lovely daughter **Lilya**, who has waited a very long time to have free time to enjoy our moments together.*

*To my **Brother**, for his continuous prayers and his brotherhood love and support.*
