

"The effect of using of i-PRF (injectable platelet rich fibrin) on filling the gap of immediate dental implant in the esthetic zone": Randomized clinical trial

Thesis submitted to the Faculty of Dentistry,
Ain Shams University
For Partial Fulfillment of Requirements of the master
degree in Oral Medicine and Periodontology

By
Bassant Mohye El-Deen Mohamed Ezz El-Deen

B.D.S.
(Ain Shams University, 2013)

Supervisors

Prof. Dr. Ahmed Youssef Gamal

Professor of Oral Medicine, Periodontology and Oral Diagnosis
Faculty of Dentistry, Ain Shams University
Dean of Faculty of Dentistry,
Nahda University

Assistant Prof. Dr. Mohamed El-Mofty

Assistant Professor of Oral Medicine, Periodontology and Oral Diagnosis,
Faculty of Dentistry, Ain Shams University
Vice dean of Faculty of Dentistry,
Nahda University

Faculty of Dentistry
Ain Shams University
2019

Acknowledgment

First I want to thank god for helping me and giving me faith and support to finish this work, my sincere appreciation goes to Prof. Dr. Ahmed Youssef Gamal (professor of oral medicine and periodontology Ain shams university and Dean of Faculty of Dentistry Nahda University) for his continous support, patience and generous help during all the study period, scientifically and socially, I have learned from him how to appreciate the value of science and non-stop working, also I want to thank Dr.Mohammed El-Mofty (assistant professor of oral medicine and periodontology faculty of dentistry Ain shams university and Vice Dean of Faculty of Dentistry Nahda University) for his continuous help, precious advices and for his support in facilitating requirements for this work

.

Also I extend my thanks to Dr. Doaa Adel, Dr. Hadeel Gamal, Dr. Waleed M. Abbas (Lecturers of of oral medicine and periodontology Ain shams university), Dr. Ahmed Fathy (assistant Lecturer of oral medicine and periodontology faculty of dentistry Nahda University) for their help and support in finishing the requirements.

Great appreciation for Dr. Shaimaa El Sadat (Lecturer of Oral and Maxillofacial Radiology, Faculty of dentistry Ain Shams University) for her profuse knowledge and her help to accomplish this work.

Then I would like to thank my parents and my friend Dr. Maie Sami for their valuable suggesstions and guidance and for being helpful in various phases of the completion of this work.

Dedication

I want to dedicate this thesis to my mother Dr. Fatma Fatahalla who taught me how to handle life, how to be powerful, how to face difficulties, to be optimistic despite all things, and to have hope and great faith in god , she supported me from day one in my life with her great heart and generous beautiful personality. My father who helped me along this journey and gave me great support and did all his efforts to guarantee my success. Special thanks to my sister, soulmate and friend Dr. Dalia Mohye.

Special thanks to my husband Dr. Gamal, My son and twin Yehia and my dear uncle Atef , his beautiful wife and daughters.

LOVE YOU ALL
