**A STUDY OF SKELETAL MATURATION IN
RELATION TO CHRONOLOGICAL AND DENTAL
AGES IN EGYPTIAN ADOLESCENTS**

B1EVE

Thesis

**Submitted In Partial Fulfillment Of The
Requirement For Master Degree In Orthodontics**

By

Ghada Abdel Fatah El-Mehy

B.D.S

Faculty of Dentistry

Tanta University

1998

SUPERVISORS

Prof. Dr.

Samir Fouad Aboul Azm

Prof. of Orthodontics.

Head of Orthodontic Department

Faculty of Dentistry

Alexandria University.

Dr.

Medhat M. El-Sakhawy

Ass. Prof. of Orthodontics

ACKNOWLEDGEMENT

All thanks and deepest gratitude to "ALLAH" whose great and endless help guided me in my life as well as through all this work.

I wish to express my sincere gratitude to my supervisor **Prof. Dr. Samir F. Aboul Azm**. Professor and head of Orthodontic Department, Faculty of Dentistry, Alexandria University for his valuable sound advices, understanding, valuable supervision, continuous encouragement and guidance of this work to completion.

I am grateful to **Dr. Medhat El-Sakhawy**, Ass. Prof. of Orthodontic, Faculty of Dentistry, Tanta University, for his great help, continuous guidance, patience, valuable supervision and advice through the course of this research.

I am also deeply grateful to **Dr. Ahmed Yosry**. Ass. Prof. of Orthodontic, Faculty of Dentistry, Tanta University, for his efforts, advices, wise guidance, understanding and encouragement.

I would like to thank **Dr. Magdy Mashaly**, Lecturer of Radiology Faculty of Medicine, Tanta University for his efforts while checking the cervical vertebrae on lateral cephalograms.

Last but not least, I would like to thank **Dr. Abdel Aziz Yassen**, Lecturer of Public Health, Faculty of Medicine, Tanta University for the effort he spent in doing accurate statistical analysis.

*To my
Parents, Husband and
Son*

Ghada

List of figures & diagrams

- Figure (1)** : Patient's chart used in this work.
- Figure (2)** : Patient's picture on cephalostate.
- Figure (3)** : Fishman's skeletal maturity indicators.
- Figure (4)** : Radiographic identification of skeletal maturity indicators.
- Figure (5)** : Nolla's stages of tooth development.
- Figure (6)** : Tracing procedures of four first normal cervical vertebrae.
- Figure (7)** : Indicators of the cervical vertebral maturation.
- Figure (8)** : Cephalometric tracing.
- Figure (9)** : Linear and angular measurements.
- Figure (10)** : Factors that influence the determination of maturation age for an individual.
- Figure (11)** : Hand-wrist radiograph for a boy.
- Figure (12)** : Lateral cephalometric radiograph for a boy.
- Figure (13)** : Fullmouth periapical radiographs for a boy.
- Figure (14)** : Hand-wrist radiograph for a girl.
- Figure (15)** : Lateral cephalometric radiograph for a girl.
- Figure (16)** : Full mouth periapical radiographs for a girl.
- Figure (17)** : Correlation between chronological age and cervical vertebrae for boys.
- Figure (18)** : Correlation between chronological age and C.V. for girls.
- Figure (19)** : correlation between chronological age and C.V. for boys and girls.
- Figure (20)** : Correlation between chronological age and had-wrist age for boys.

- Figure (21)** : Correlation between chronological age and H.W. for Girls.
- Figure (22)** : correlation between chronological age and H.W. for boys and girls.
- Figure (23)** : Correlation between H.W. and C.V. for boys.
- Figure (24)** : correlation between H.W. and C.V. for Girls.
- Figure (25)** : Correlation between H.W. and C.V. for boys and girls.
- Figure (26)** : Comparison of cephalometric linear measurements for boys and girls.
- Figure (27)** : Comparison of cephalometric angular measurements for boys and girls.
- Figure (28)** : Comparison of body heights and weights for boys and girls.

List of Tables

Table (1) : Coefficient of correlation's of chronological, skeletal (hand-wrist and cervical vertebrae) and dental ages for boys :

Table (2) : Coefficient of correlation's between chronological, skeletal (hand-wrist and cervical vertebrae) and dental ages for girls :

Table (3) : Coefficient of correlation's of chronological, skeletal (hand-wrist and cervical vertebrae) and dental ages for boys and girls :

Table (4) : Cephalometric linear measurements for boys :

Table (5) : Cephalometric linear measurements for girls :

Table (6) : Comparison of linear measurements for boys and girls :

Table (7) : Cephalometric angular measurements for boys :

Table (8) : Cephalometric angular measurements for girls :

Table (9) : Comparison of angular measurements for boys and girls.

Table (10) : Body heights and weights for boys :

Table (11) : Body heights and weights for girls :

Table (12) : Comparison of body heights and weights for boys and girls:
