**Molecular, Physiological, Characterization
and Histopathological Studies On Pathogenic
Fungi Isolated From Muddy Soils In Cairo
Vicinities, Egypt**

Thesis

**Submitted for the degree of Ph.D.
Doctor of Philosophy of Science
(Microbiology)**

By

Sherif Mohamed Zaki

B.Sc. & M.Sc. Microbiology

Department of Microbiology
Faculty of Science
University of Ain Shams
2001

B
١٤٣٨٧

APPROVAL SHEET

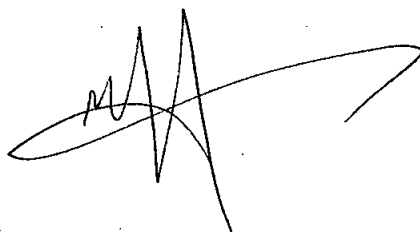

Molecular, Physiological, Chracterization and Histopathological studies on Pathogenic Fungi Isolated From Muddy Soils In Cairo Vicinities, Egypt

Advisory Committee

Signature

Prof. Dr. Youssef A. Youssef

Prof. Of Mycology
Department of Microbiology
Faculty Of Science
University of Ain Shams

Prof. Dr. Al-Zahraa A. Karam El-Din

Prof. Of Mycology
Department of Microbiology
Faculty of Science
University of Ain Shams

Prof. Dr. Yuzuru Mikami

Research Center For Pathogenic Fungi and Microbial Toxicoses,
Chiba University, Japan

Acknowledgement

I thank Chiba University, Research center for pathogenic fungi and microbial toxicosis, for offering me the opportunity to complete my Ph.D research work,

I would like to express my deep gratitude to my supervisors Prof. Youssef A. Youssef and Prof. Al-Zahraa A. Karam El-Din, Professors of Mycology, Faculty of science, University of Ain Shams for suggesting the point of research, their guidance, intellectual stimulation, friendship, and encouragement during the course of my study. I'm very grateful to both of them for introducing me to the real world of Medical Mycology.

I would like to thank Prof. Y. Mikami, Research center for Pathogenic fungi and Microbial toxicosis, Chiba University, Japan, for his assistance and advise during my study on the pathogenic fungi and for teaching me the molecular, physiological and biochemical techniques involved in classifying, identifying and characterization of my isolates of pathogenic fungi. Many thanks are due to Prof. Kuraishi for supplying us with the authentic samples of Ubiquinone and Dr. Tamura for her help in teaching me molecular techniques and Dr. Yazawa in his help in determination of Ubiquinone composition.

Many thanks are also due to Dr. Sano, Research center for pathogenic fungi, Chiba University and Dr. Mohamed Abdel-Razek, assistant Prof., Suez Canal University for their help in preparing and describing the histopathological part of my thesis.

Many thanks to Dr. Arwa Hassan, lecturer of Microbiology, Faculty of Science, University of Ain Shams for her valuable help and supervision.

I also thank all members of the department of Microbiology, faculty of Science, University of Ain Shams for their valuable help and assistance.

This thesis has not been previously submitted for any degree at this or any other university.

Sherif Mohamed Zaki

CONTENTS

Subjects	Pages
<u>Chapter, I</u>	
Introduction and Literature review	1-12
<u>Chapter, II</u>	
Opportunistic pathogenic fungi isolated via dilution plate method	13-59
<u>Chapter, III</u>	
Opportunistic pathogenic fungi isolated via animal inoculation method	60-106
<u>Chapter, IV</u>	
Keratinophilic Fungi	107-168
<u>Chapter, V</u>	
General conclusions	169-170
Summary	171-175
References	176-219
