Alexandria University
Faculty of Veterinary medicine
Department of Food Control

The effect of different viral vaccines adjuvants on the quality of meat and organs of vaccinated sheep and birds

Thesis
presented by

MANAL AWAD MIKHAIL

B.V.Sc., Zagazig University (Benha Branch), 1989
M.V.Sc., Alexandria University, 1995

For
The Degree of Ph. D.
(Meat Hygiene)

To
Food Control Department
Faculty of Veterinary Medicine
Alexandria University

1999

B

١٤٠٠٠

Under Supervision of

DR. IBRAHIM A. SAMAHA

*Assistant Professor of Meat Hygiene
Faculty of Veterinary Medicine
Alexandria University*

DR. AZIZ M. ISHAK

*Head of Pox Department
Veterinary Serum and Vaccine Research Institute,
Abbasia, Cairo*

Acknowledgement

Firstly, great thanks to merciful God.

*My grateful appreciation is due to **Dr. Ibrahim Samaha**, Assistant Prof. of Meat Hygiene, Faculty of Veterinary Medicine, Alexandria University, who gave me generously of his valuable time and facilities in the supervision of this work.*

*I wish to express my appreciation to **Prof. Dr. Aziz M. Ishak**, Head of Pox Department, Veterinary Serum and Vaccine Production and Research Institute, Abbasia, Cairo, for his supervision and continous help to conduct this work.*

*Thanks to **Prof. Dr. Ahmed Daoud**, Director of the Veterinary Serum and Vaccine Production and Research Institute, Abbasia, Cairo, and staff members of the institute management, for offering facilities throughout the investigation done in this work.*

*I would like to express my deep gratitude to **Prof. Dr. El-Sayed A.M. Abdallah**, Prof. of Food Contaminant and Mycotoxins, Department of Food and Dairy Sciences, National Research Centre, Dokki, Giza, Egypt, for his encouragement, his efforts in the experimental work of this thesis.*

I am also grateful to **Dr. Ahmed Hussein**, Senior Researcher, Rinderpest Dept., Veterinary Serum and Vaccine Production and Research Institute, Abbasia, Cairo, for his much real help while doing this work.

My high appreciate and worm thanks to **Prof. Dr. Soad M. Soliman**, Chief Researcher of Pox Dept., Veterinary Serum and Vaccine Production and Research Institute, Abbasia, Cairo, for her continous encouragement.

I express my sincere gratitude to **Prof. Dr. Elham Atta El-Ebiary**, Director of the Central Laboratory for Control of Veterinary Biologics, Abbasia, Cairo, for giving me valuable facilities during practical work of this thesis.

I am grateful to **Dr. Ferial Abdel Hady**, Prof. of Pharmacology, Animal Health Research Institute, Dokki, Giza, Egypt, for her continous encouragement and great help through the work.

I wish to express my sincere gratitude to **Dr. Sherine S.S. Rizkalla**, Researcher, Pox Dept., Veterinary Serum and Vaccine Production and Research Institute, Abbasia, Cairo, for his efforts and helpful assistance during this study.

Great thanks is due to **Dr. Monier El-Safy**, Researcher, Central Laboratory for Control of Veterinary Biologics, Abbasia, Cairo, for his unfailing help in the practical work throughout my study.

I would like to thank all members of Food Hygiene Dept., Faculty of Veterinary Medicine, Alexandria University, for their assistance and encouragement.

Also, special thanks to all members of Pox Dept., Veterinary Serum and Vaccine Production and Research Institute, Abbasia, Cairo, for their helpful assistance during the practical work.

Cardiac thanks to my husband for his great help and encouragement during all steps of this thesis.
