Cairo University
Faculty of Veterinary Medicine
Bacteriology, Mycology and Immunology
Department

A PROSPECTIVE STUDY OF BORRELIA ANSERINA ISOLATION AND CULTIVATION APPROACH

Thesis presented by
LILIAN FARAG SAAD MELIKA
B.V.Sc Cairo University, 1989

For the Degree of
Master in Veterinary Medical Sciences
Bacteriology, Immunology and Mycology

Under the Supervision of
Prof. Dr.
Wagih Armanious Gad El-Said
Prof. and Chairman of Microbiology Department
Faculty of Veterinary Medicine
Cairo University

Dr.
Zein El-Abdin Abdou Mohammed
Chief Researcher and Head of Parasitology Department,
Vet. Serum & Vaccine Research Institute,
Abbasia, Cairo

1998

قسم الميكروبيولوجي

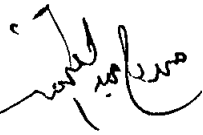

قرار لجنة الحكم والمناقشة

قررت لجنة الحكم والمناقشة ترشيح السيد طه / ليليان فرج سعد مليكه للحصول على
درجة الماجستير في العلوم الطبية البيطرية - بكتريولوجيا - أمينولوجيا - ميكولوجيا)
من جامعه القاهرة

السيد الاستاذ الدكتور / فوزي رياض الصعيدي

أستاذ ورئيس قسم الميكروبيولوجيا طب بيطري - بنى سويف

السيد الاستاذ الدكتور / ممدوح عبد الغنى عبد العزيز

أستاذ الميكروبيولوجيا بكلية الطب البيطري - جامعه القاهرة

السيد الاستاذ الدكتور / وجيه ارمانىوس جاد السيد

أستاذ ورئيس قسم البكتريا والفطريات والمناعه بكلية الطب
البيطري - جامعه القاهرة والمشراف على الرسالة .

**To
My Dear
Mother,**

ACKNOWLEDGMENT

In actual facts my deepest prayerful thanks at first to our lot merciful 'GOD' who give me very great hand for the performance and the achievement of this work.

I am greatly indebted with my sincere gratitude and best thanks to **PROF. DR. WAGIH ARMANIOUS GAD EL SAID**, Chairman of Microbiology Department, Faculty of Veterinary Medicine, Cairo University for his ideal guidance, creative supervision, and for giving me so much of his valuable time, experience, scientific knowledge, as well as his great endless help and encouragement throughout this work.

I wish to express my appreciation and sincere thanks to **PROF. DR. ZEIN AL ABDIN ABDOU MOHAMED**, Head of Parasitological Vaccines Department, Veterinary Serum and Vaccine Research Institute for his valuable supervision, willing guidance with continuous kindness, support and encouragement.

I am deeply honored to have the opportunity to express my gratitude to **PROF. DR. SAHER MAKIN GERGIS**, Head of Aerobic Bacterial Vaccine Department Veterinary Serum and Vaccine Research Institute for his valuable help and scientific advices with continuous support and encouragement.

I would like to present the utmost thanks to **PROF. DR. AHMED MAHMOUD DAOUD**, Director of the Veterinary Serum and Vaccine Research Institute, for his guidance, support and supplying all the facilities for this work.

Also I would like to thank **PROF. DR. ABD-EL-SALAM ZAKI HUSSEIN**, Deputy director of Veterinary Serum and Vaccine Research Institute for giving me the facilities to carry out this work.

Also it is my pleasure to express my deep thanks to **DR. ROMANY MANSOUR MAKRAM** Researcher in Parasitological Vaccines Department for his great support.

I would like to express my high love feeling to **THE ALL STUFF MEMBERS OF PARASITOLOGICAL VACCINES DEPARTMENT, VETERINARY SERUM AND VACCINE RESEARCH INSTITUTE** for their continuous support and encouragement during this thesis.

I warmly thank **MR. KAMAL EL-LETHY**, Head of the library, Serum and Vaccine Research Institute for his help and efforts.

My thanks is sent to **EVERY HAND THAT EXTENDED TO HELP ME** to allow the fulfillment of this work.

last but not least, my great thanks and love to **MY DEAR MOTHER** for her efforts, support, and endless help throughout the whole work.

LIST OF CONTENTS

	Page
1. INTRODUCTION	1
2. REVIEW OF LITERATURE	4
2.1 History and distribution of <i>B. anserina</i>	4
2.2 Disease in Egypt	8
2.3 Morphology and staining	14
2.4 Attempts to cultivate <i>Borrelia anserina</i>	19
2.5 Attempts to cultivate <i>Borrelia</i> other than <i>anserina</i>	26
2.6 Maintenance and preservation of <i>Borrelia anserina</i>	31
2.7 Pathogenicity	35
3. MATERIAL AND METHODS	42
3.1 Material	42
3.2.1 Patent media	42

3.2.4 Method of preparation of stabilized Borrelia growth medium "A"	56
3.2.5 Method of preparation of stabilized BSKII medium	58
3.2.6 Steralization control and sterility of both stabilized media	59
3.2.7 Keeping of sterile media	60
3.2.8 Method of cultivation	61
3.2.9 Culture passage	62
3.2.10 Detection of efficiency of stabilized culture media	63
4. RESULTS	73
4.1. Growth of B. anserina in the basal growth medium "A:"	73
4.2. Growth of B. anserina in the basal modified BSKII medium	73
4.3. Studies of the growth requirements for B. anserina using basal Borrelia growth medium "A"	76

	Page
4.4. Stabilization of the <i>Borrelia</i> growth medium "A"	93
4.5 Growth and subculture of <i>B. anserina</i> in stabilized <i>Borrelia</i> growth medium "A"	95
4.6. Subculture of <i>B. anserina</i> in stabilized <i>Borrelia</i> growth medium "A"	100
4.7. Studies of the growth requirement of <i>B. anserina</i> in basal modified BSKII medium	101
4.8. Stabilization of the BSKII medium	120
4.9. Growth and subculture of <i>B. anserina</i> in the stabilized BSKII culture medium	120
4.10 Subculture of <i>B. anserina</i> in stabilized BSKII medium	123
4.11. Test results for detection the efficiency of stabilized culture media of <i>B. anserina</i> .	125
4.12. Maintenance test	134
5. DISCUSSION	144

ARABIC SUMMARY	

LIST OF TABLES

Table No.		Page
1	Subculture of <i>B. anserina</i> in both stabilized media	63
2	Growth of <i>B. anserina</i> in basal medium of <i>Borrelia</i> growth medium "A"	74
3	Growth of <i>B. anserina</i> in basal modified BSKII medium	75
4	Effect of the turkey or chicken serum conc. On the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A" at temp. 35°C	81
5	Effect of turkey or chicken serum conc. On the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A" at temp. 37°C	82
6	Effect of duck serum conc. On the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A" at temp. 35°C	83
7	Effect of duck serum conc. On the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A" at temp. 37°C	84
8	Effect of rabbit serum conc. On the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A" at temp. 35°C - 37°C	85

Table No.		Page
9	Effect of horse or bovine serum conc. On the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A" at temp. 35°C-37°C	86
10	Effect of temperature on the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A"	87
11	Effect of pH on the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A"	88
12	Effect of the type of serum on the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A"	91
13	Effect of chicken or turkey serum conc. On the growth of <i>B. anserina</i> in <i>Borrelia</i> growth medium "A" at temp. 39°C	92
14	Growth and subculture of <i>B. anserina</i> in stabilized <i>Borrelia</i> growth medium "A"	97
15	Effect of chicken or turkey serum conc. On the growth of <i>B. anserina</i> in BSKII at temp. 35°C.	102
16	Effect of chicken or turkey serum conc. On the growth of <i>B. anserina</i> in BSKII at temp. 37°C	104
17	Effect of duck serum conc. On the growth of <i>B. anserina</i> in BSKII at temp. 35°C	105
18	Effect of duck serum conc. On the growth of <i>B. anserina</i> in BSKII at temp. 37°C.	107
19	Effect of rabbit serum conc. On the growth of <i>B. anserina</i> in BSKII at temp. 35°C	109
