CAIRO UNIVERSITY
INSTITUTE OF AFRICAN RESEARCHES & STUDIES
DEPARTMENT OF NATURAL RESOURCES

HYDROGEOLOGICAL STUDIES OF EL KUFRA AREA
(SOUTH EAST LIBYA)

THESIS

*Submitted in Partial Fulfillment for the Degree
of Master of Science in African Studies, Natural Resources
(Water Resources)*

Presented by
KAMEL ABD EL GELIL ABD ALLAH

B.Sc. Science (1979), Zagazig University
Diploma in African Studies (Natural Resources)
(1991) Cairo University

Supervised by

Prof. Dr. TARIK LABIB

Vice Director

Institute of African Research and Studies
Cairo University

Prof. Dr. KAMAL HEFNY

Emeritus Professor

Groundwater Research Institute

1996

B

180 V.

APPROVAL SHEET

HYDROGEOLOGICAL STUDIES ON KUFRA BASIN, LIBYA

By

KAMEL ABD EL GELIL ABD ALLAH

This M.Sc. Thesis is approved by:

Prof. Dr. George Philip Azer

Prof. Dr. Eweda Ahmad Farag

Prof. Dr. TARIK M. LABIB

Prof. Dr. KAMAL HEFNY

17 / 6 / 1996

ACKNOWLEDGEMENTS

The author cannot sufficiently express his deepest gratitude to Prof. Dr. TARIK LABIB Vice dean of Institute of African Researches and Studies for suggesting the problem and planning the work. I owe him much thanks for teaching me the art of research, accuracy and patience. His checking of the final manuscript made it possible to prepare it in its present form.

I also acknowledge with great appreciation and deep gratitude the supervision and constructive criticism of Prof. Dr. KAMAL HEFNY, Emiratus professor of Research Institute for Groundwater for his continuous supervision, encouragement, valuable advices, discussion and completion of this work.

The effort of the team RIGW is greatly appreciated, especially Prof. Dr. Fatma Abd El Rahman Attia, director of the institute for much facilities to leave into Libya to get data about the study area.

Thanks are also due to Dr. Josef B. Khalil deen of the Research Institute for Groundwater for his encouragement and help.

I wish to acknowledge Dr. Said Zaghlul for help and his checking of the draft manuscript.

TABLE OF CONTENTS

	Page
ACKNOWLEDGEMENTS	i
TABLE OF CONTENTS	ii
LIST OF TABLES	vi
LIST OF FIGURES	vii
 1. INTRODUCTION	 1
 2. REVIEW OF LITERATURE	 7
2.1 Geological Works	7
2.2 Hydrogeological Works	12
 3. MATERIAL AND METHOD	 38
3.1 Physical Setting of the Study Area	38
3.1.1 Location	38
3.1.2 Climate	38
3.1.3 Topography and Geomorphology	42
 3.2 Geological Setting of the Study Area	 47
3.2.1 Lithostratigraphical aspects	48
3.2.1.1 Surface Geology	48
3.2.1.2 Subsurface Geology	64
3.2.2 Geological Structures	66
3.2.2.1 Folds	66
3.2.2.2 Faults	68
3.2.3 Geological History	69
 3.3 Hydrogeological Setting of the Study Area	 71
3.3.1 Well Fields	74
3.3.2 Discharge	74
3.3.3 Pumping rate	81
3.3.4 Aquifer parameter	81
3.3.5 Recharge	84

4.	RESULTS AND DISCUSSION	87
4.1	Aquifer System	87
4.2	Groundwater Hydrology	91
4.2.1	Groundwater Movement	91
4.2.2	Groundwater Drawdown	99
4.2.3	Groundwater Depletion	103
4.2.4	Groundwater Fluctuation	108
4.3	Hydrochemistry of the Study Area	114
4.3.1	Sulin's Classification	116
4.3.2	Bar Diagram	119
4.4	Groundwater Evaluation	123
4.4.1	Quality of Groundwater for Domestic Uses	123
4.4.2	Quality of Groundwater for Irrigation	128
4.4.3	Quality of Groundwater for Industrial Purposes	133
4.4.4	Quality of Groundwater for Livestock and Poultry	137
5.	CONCLUSIONS AND RECOMMENDATIONS	139
5.1	Conclusions	139
5.2	Recommendation	140
6.	SUMMARY	143
7.	REFERENCES	150
8.	APPENDICES	156
	APPENDIX I	156
	APPENDIX II	199
9.	ARABIC SUMMARY	205
