*Clinical Evaluation For The Use Of
In Vitro Fertilization (IVF) In Infertile Patients
Indications, Methods, and Results*

B 14781

Thesis

Submitted in partial fulfillment
For Master degree in Gynecology and Obstetric .

By

Magda Mohamed Ali
Candidate for M.S degree ,
Sohag Faculty of Medicine ,
South Valley University

Supervised By

Prof. Dr. Shigeru Saito
Professor and chairman ,
Department of Gynecology
and Obstetric
Toyama Med. and Pharm.
University Japan.

Dr. Sabry Mahmoud Mohamed
Assistant professor,
Department of
Gynecology and
Obstetric
South Valley University

Dr. Ahmed Tag Eldin . Abd Alhafez
Lecturer,
Department of Gynecology and Obstetric
South Valley University

ACKNOWLEDGMENTS

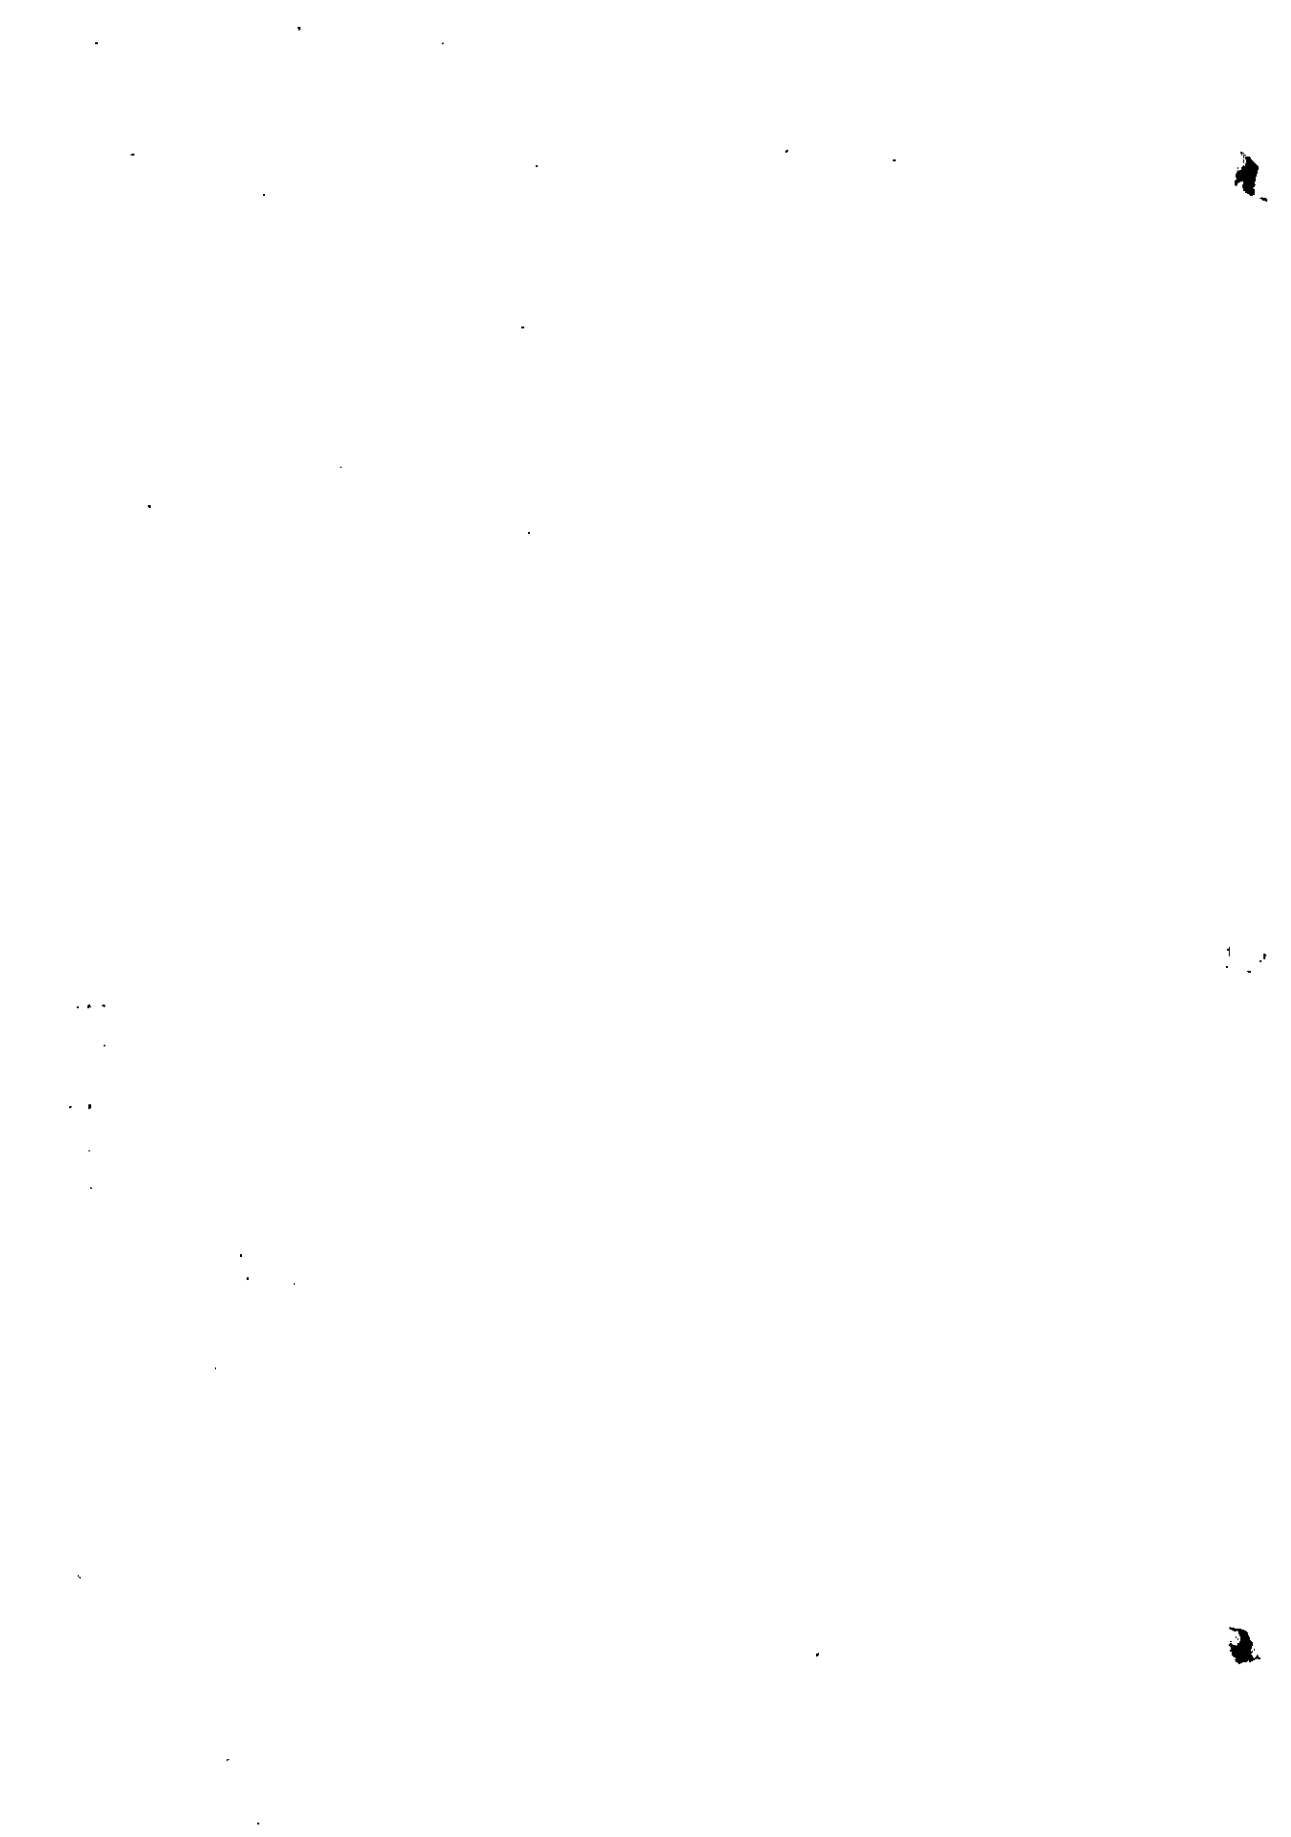

Praise is to ALLAH, the Merciful, and the compassionate for all the countless gifts have been offered to me .

-I Would like to express my grateful appreciation to Prof. Dr . Shigeru Saito, professor and Head of Obstetrics and Gynecology Department, Toyama Medical and pharmaceutical University , Japan (and his colleagues) For giving me the chance to learn and practice under his supervision and for his active guide and supervision through this work .

-I would like to express my grateful appreciation to Prof. Dr . Osman Abdel karim , Professor and Head of obstetrics and Gynecology Department, Sohag Faculty of Medicine , South Valley University , for giving me the chance to learn and practice under his supervision and for his kind help and unfailing support during the conduction of this work.

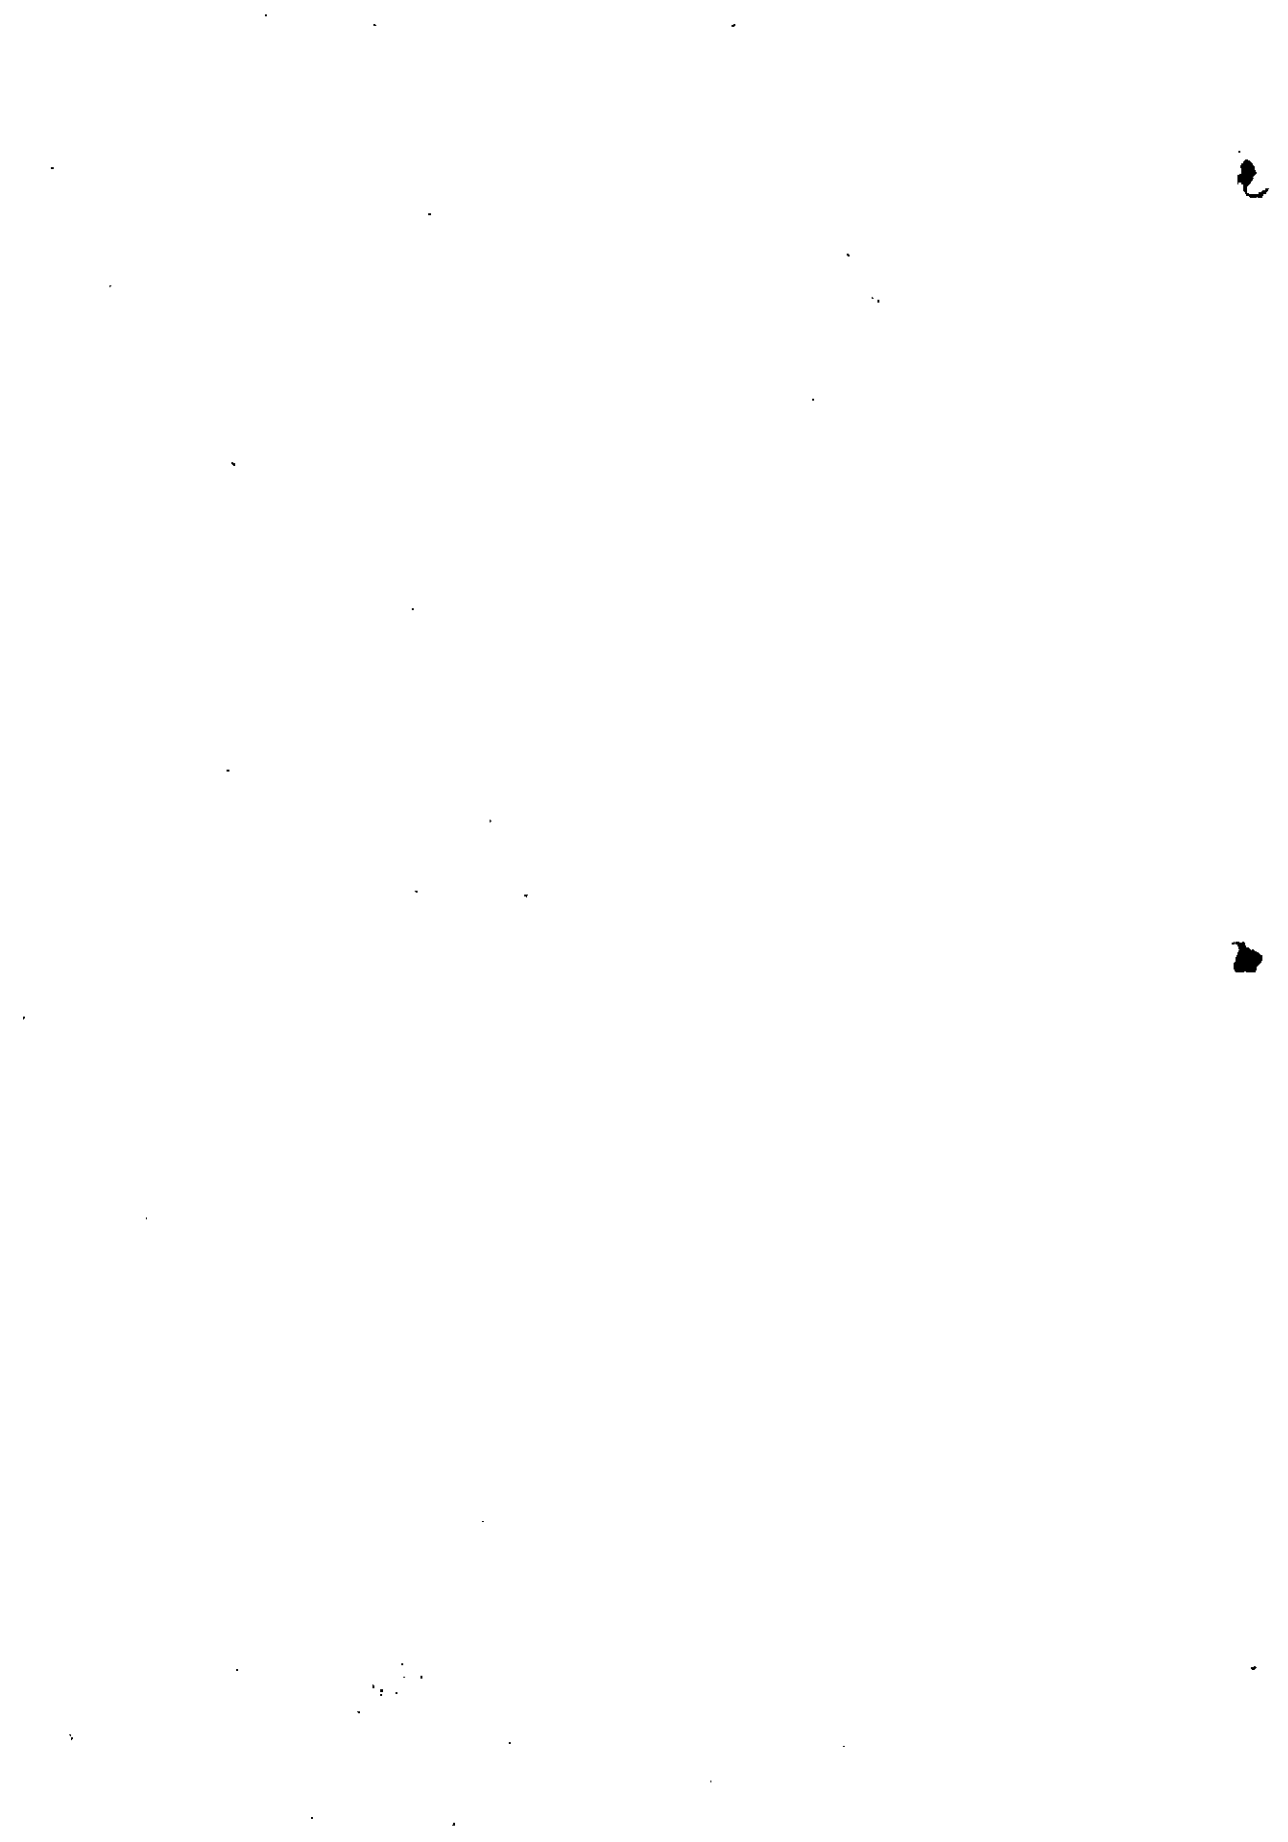

-I Would like to express m great gratitude to Dr . Sabry Mahmoud . Assistant professor, Department of Obstetrics and Gynecology, South Valley University, for his guide and supervision and for his unfailing support and sympathetic help through all my steps.

-I do express my gratitude to Dr . Ahmed Tag Eldin . South Valley University , for his kind guide and supervision and for his unfailing support during the conduction of this work .

Contents

* Introduction	1
* Review	2
• Female infertility	3
▪ Ovulatory factor	3
▪ Diagnosis of ovulatory disorder	4
▪ Treatment of ovulatory disorder	11
○ Clomiphene citrate	12
○ Gonadotriophin Releasing hormone	13
○ Gonadotrophine hormone	14
○ Prolactin inhibiting Drugs	14
▪ Unexplained infertility	14
• Male fertility	17
• In Vitro Fertilization	20
▪ IVF in a spontaneous cycle	28
▪ Induction of ovulation in IVF	29
○ Gonadotropin Releasing hormone agonists	29
○ Gonadotropin Releasing hormone Antagonists	31
○ Gonadotropin hormone	34
○ Human chorionic Gonadotropin	39
▪ Procedures involved in clinical IVF	39
○ Determination of the ovarian response	40
○ Laboratory procedures	42
○ IntraCytoplasmic Sperm Intection (ICSI)	44
○ In Vitro Maturation of ocytes (IVM)	46
○ Risks of IVF-ET	49
○ Results of IVF	50
○ Future developments	52
* Material and Methods	55
▪ Preparatory investigations	55
○ Tubal and peritoneal factors	56
○ Ovulatory factor	56
○ Male factor	57

▪ Hormonal induction protocol	58
▪ IVF ET techynique study	59
○ Oocyte pick up	60
○ Sperm preparation for IVF	62
○ Oocyte insemination and culture	63
○ Conventional IVF	63
○ IntroCytoplasmic Sperm Injection	64
○ Embryo Transfer	65
○ Management of the luteal phase	66
* Results	
▪ Preparatory investigation	67
▪ The ovulation induction protocol	69
▪ Figure 1 IVF ET procedures	72
▪ Figure 2 IVF ET procedures	73
▪ Table 1(clinical profile of 40 patients treated by IVF ET)	74
▪ Table 2 (indications for ICSI procedures)	78
▪ Charts showing the results of IVF	79
* Discussion	94
▪ Hormonal Induction protocol	94
▪ Oocyte pick up procedure	106
▪ Conventional procedure versus IntraCytoplasmic Sperm Injection procedure	107
▪ Embryo transfer	109
▪ Luteal phase management	109
▪ IVF in polycystic ovarian syndrome patients	112
▪ IVF in poor responders	116
▪ Pregnancies and live births	116
* Summary and conclusion	118
* References	122
