ACKNOWLEDGMENT

I'm deeply thankful to ALLAH, by the grace of whom, this work was possible.

Sincere thanks and deep gratitude due to Prof. Dr. Mahmoud I.Hassan, Professor of Agricultural Botany, Faculty of Agric. Minufiya University Shebin El-Kom for suggesting the problem, supervision and guidance during the course of this study, his help is very much appreciated.

Thanks also to Prof. Dr. Ahmed A. Gendy, professor of Agricultral Botany, Faculty of Agric. Minufiya University ,Shebin El-Kom for his vauable supervision during the course of this study.

Sincerest appreciation to Prof. Dr. Ansary E.Moftah professor of Agricultural Botany Department, Faculty of Agriculture, Minufiya University, for his suggesting the problem, supervision help, advice, and crticism through out this work.

The author expresses her sincerest appreciation for the effort and guidance of Prof. Dr.Mervat E Sorial, proffesor of Agric. Botany at the same Faculty, whose keen supervision and continuous help are gratefully acknowledged.

Appreciations also to all members of Department of Agric. Botany, Minufiya Univ. and members of the Agric.

Station in Zarzoura for their helps and assistance during the work in this investigation.

Sincerest appreciation to Prof. Dr.Osman A. Abo-Grab Physiology Department Field Crops Institue Gemiza Station and all members of Physiology Department for their helps.

Sincerest appreciation to Prof. Dr. Mahmoud Zaki hed Legumes Field Crops Institue and all members of Legumes Department for their helps and assistance during the work in this investigation.

I wish to express my great indebetdness and infinite affection to my father, my mother and my wife for their valuable help and continuous encouragement.
