## Radiation Processing of Polymers and Its Application In Some Industrial Waste Treatment

Thesis submitted to
University College for Girls
Ain Shams University

For Ph.D. In Chemistry

Bv

#### AFAF ABD EL- MAKSOUD MOHAMED IMAM

**Assistant Lecturer** 

National Center for Radiation Research and Technology Atomic Energy Authority Cairo-Egypt

### Radiation Processing of Polymers and Its Application In Some Industrial Waste Treatment

Thesis Advisors

Approved

#### Prof. Dr. ABO EL-KHAIR B. MOSTAFA

Professor of Polymer Chemistry
Deputy University College for Girls
Ain Shams University

A. Khay

### Prof. Dr. El-SAYED A. HEGAZY E.A. Heg

Professor of Radiation Chemistry
Chairman of Industrial Irradiation Division
National Center for Radiation Research and Technology
Atomic Energy Authority

#### Ass. Prof. Dr. HANAA K. MOHAMED

4. Kamal

Assistant Professor of Radiation Chemistry
Polymer Chemistry Department
National Center for Radiation Research and Technology
Atomic Energy Authority

#### ACKNOWLEDGMENT

First of all, thanks to GOD for the infinite helps and persistent supply with patience and efforts to accomplish this work successfully.

The author wishes to express her deep gratitude and thanks to **Prof. Dr. Abo El-Khair B. Mostafa Prof.** of Polymer Chemistry, deputy University College for Girls, Ain Shams University for his continuous supervision, valuable advice and fruitful discussion throughout this work.

The author is highly indebted to **Prof. Dr. El-Sayed A. Hegazy**, chairman of Industrial Irradiation Division, National Center for Radiation Research and Technology (NCRRT), for suggesting, planning the point of research, fruitful guidance and helpful discussions and also for the un-failed sincere guidance with encouragement during his direct supervision throughout this work.

Deepest thanks and sincere gratitude are due to Dr. Hanaa K. Mohamed, Assistant Prof. of Polymer Chemistry Department (NCRRT), Atomic Energy Authority for her active supervision, generous guidance, critical reading and reviewing this thesis, scientific and practical support throughout this study.

Deepest thanks and gratitude are due to the chairmen of National Center for Radiation Research and Technology (NCRRT), Atomic Energy Authority for their keen support throughout this work.

Many thanks are also for all the staff members and colleagues of polymer chemistry (NCRRT)

especially, for their interest and facilities provided throughout this work.

Finally, no word can express my gratitude to my parents.
