Quality of Life for Clients with Parkinson's Disease

Thesis

*Submitted for Fulfillment of the Requirements
of Master Degree in Nursing Science
Community Health Nursing*

Under Supervision of
Dr./ Hala Mohamed Mohamed

*Assistant Prof. of Community Health Nursing
Faculty of Nursing - Ain Shams University*

Dr/ Wafaa Khalil Ibrahim

*Lecturer of Community Health Nursing
Faculty of Nursing - Ain Shams University*

**Faculty of Nursing
Ain Shams University
2020**

Acknowledgement

First and foremost, I feel always indebted to **ALLAH**, the Most Kind and Most the Merciful for all his blessing and for giving me the will and strength for completion of this work.

I am deeply grateful to **Dr/ Hala Mohamed Mohamed** Assist prof. of Community Health Nursing, Faculty of Nursing, Ain Shams University, for her guidance, constructive criticism and supervision for the perfection of this thesis.

I would like to express my deep thanking and appreciation to **Dr/ Wafaa Khalil Ibrahim** Lecturer of Community Health Nursing, Faculty of Nursing, Ain Shams University, for her unlimited help, effort, support, guidance and for the time she devoted to me in this work. I would not have been able to start and continue this work without her help.

I would like to express my thanks to all clients, their family and all person shared in study, who helped me in collection of the data, and my thanks to all those who contributed by giving their time, effort and encouragement to the fulfillment of this study.

List of Tables

No.	Table	Page
	Table in Review	
1	Summary points for drugs used to treat Parkinson's disease	38
	Table in Results	
1	Number and Percentage of Parkinson's clients according to their socio-demographic data (n=360).	83
2	Number and Percentage of Parkinson's clients according to their health status of disease about mobility (n=360).	85
3	Number and Percentage of Parkinson's clients according to their health status about of daily living activities (n=360).	86
4	Number and Percentage of Parkinson's clients according to their health status about emotional well-being (n=360).	87
5	Number and Percentage of Parkinson's clients according to their health status about stigma of disease (n=360).	88
6	Number and Percentage of Parkinson's clients according to their health status about social support (n=360).	89

No.	Table	Page
7	Number and Percentage of Parkinson's clients according to their health status about cognitive (n=360).	90
8	Number and Percentage of Parkinson's clients according to their health status about communication (n=360).	91
9	Number and Percentage of Parkinson's clients according to their health status about physical exhausting (n=360).	92
10	Number and Percentage of Parkinson's clients according to their knowledge about definition and cause of PD (n=360).	94
10a	Number and Percentage of Parkinson's clients according to their knowledge about predisposing factors for Parkinson's disease (n=360).	95
10b	Number and Percentage of Parkinson's clients according to their knowledge about symptoms and signs of PD (n=360).	96
11	Number and Percentage of Parkinson's clients according to their knowledge about complications of PD (n=360).	97
11a	Number and Percentage of Parkinson's clients according to their knowledge about emergence and discovery of PD (n=360).	98

No.	Table	Page
12	Number and Percentage of Parkinson's clients according to their knowledge about stages of PD (n=360).	99
13	Number and Percentage of Parkinson's clients according to their knowledge about treatment of PD and its effect on the quality of life (n=360).	100
13a	Number and Percentage of Parkinson's clients according to their knowledge about impact Parkinson's disease on the quality of life (n=360).	101
13b	Number and Percentage of Parkinson's clients according to their knowledge about prevention of Parkinson's disease (n=360).	103
14	Number and Percentage of Parkinson's clients according to their general level quality of life for clients with PD (n=360).	105
15	Number and Percentage of Parkinson's clients according to their personal care quality of life for clients with PD (n=360).	106
16	Number and Percentage of Parkinson's clients according to their quality of life for clients with PD about dress and appearance (n=360).	107
17	Number and Percentage of Parkinson's clients according to their quality of life for clients with PD about food and drink (n=360).	108

No.	Table	Page
18	Number and Percentage of clients according to their quality of life for clients with Parkinson's disease about elimination (n=360).	109
19	Number and Percentage of Parkinson's clients according to their history of disease (n=360).	111
19 Cont.	Number and Percentage of Parkinson's clients according to their history of disease (n=360).	112
19a	Number and Percentage of Parkinson's clients according to their health history of disease about symptoms (n=360).	113
20	Relation between clients regarding level of health status for Parkinson's clients and their socio-demographic data (n=360). Q1	115
21	Relation between clients regarding level of knowledge and their socio-demographic data (n=360).Q2	117
22	Relation between clients satisfied and unsatisfied regarding level of knowledge and their level of QOL for Parkinson's (n=360).Q3	119

No.	Table	Page
23	Relation between clients mild, moderate and severe regarding level of health status for Parkinson's and quality of life for Parkinson's (n=360).Q4	120

List of Figures
