Approval Sheet

Title of thesis: Biochemical studies on oil feedstock produced from oleaginous fungi for biodiesel production and evaluation of the residual biomass as animal feed

Name of student: Eman Mohamed Shehata Ragab Abdellah

Degree: Doctor of Philosophy in science in Microbiology.

This thesis has been approved by:

Supervisors

Prof. Dr. Naziha Mohamed Hassanein
Professor of Microbiology, Microbiology Department, Faculty of Science, Ain Shams University.

The late/ Prof. Dr. Al Zahraa Ahmed Karam El-Deen
Professor of Microbiology, Microbiology Department, Faculty of Science, Ain Shams University.

Prof. Dr. Thanaa Hamed Ali
Professor of Microbial chemistry, Microbial Chemistry Department, National Research Center, Cairo, Egypt.

Prof. Dr. Mohamed Fadel Soliman
Professor of Microbial chemistry, Microbial Chemistry Department, National Research Center, Cairo, Egypt.

Dr. Dina Helmy El- Ghonemy
Associate Professor of Microbial chemistry, Microbial Chemistry Department, National Research Center, Cairo, Egypt.

Dr. Dalia Ali Mahmoud
Lecturer of Microbiology, Microbiology Department, Faculty of Science, Ain Shams University.

Examination Committee:

Prof. Dr. Rawia Fathy Gamal
Professor of Microbiology, Faculty of Agriculture, Ain Shams University

Prof. Dr. Hussein Hosny El-Sheikh
Professor of Microbiology, Faculty of Science, Al-Azhar University

Prof. Dr. Naziha Mohamed Hassanein
Professor of Microbiology, Microbiology Department, Faculty of Science, Ain Shams University.

Prof. Dr. Thanaa Hamed Ali
Professor of Microbiology, Microbial Chemistry Department, National Research Center, Cairo, Egypt.

Approval date / / 2020

Dedication

To

The soul of My Father

&

My Lovely Family

*I dedicate this to them, as my great
happiness is theirs.*

Eman Mohamed Shehata

ACKNOWLEDGEMENT

*First and foremost, all the praises and limitless thanks are to **ALLAH** who gave me the capability to end this work.*

*I wish to express my gratitude and sincere appreciation to **Prof. Dr. Naziha Mohamed Hassanein**, Professor of Microbiology, Microbiology Department, Faculty of Science, Ain Shams University for supervision, suggestion solving the problem, continuous assistance, encouragement, guidance and the valuable advices in writing and revising the thesis.*

*I'm very grateful to **Prof. Dr. Thanaa Hamed Ali**, Professor of Microbial Chemistry, Microbial Chemistry Department, National Research center for suggesting the subject of the present investigation, planning the work, solving the problem, continuous guidance throughout the experimental section, valuable discussion, teaching, explaining and unlimited helps in writing and revision of the thesis; Finally, for her patience and kindness.*

*Also, I'd like to express my sincere thanks and gratitude to **Prof. Dr. Mohamed Fadel Soliman**, Professor of Microbial Chemistry, Microbial Chemistry Department, National Research center, for supervision, helping, unlimited supporting with continuous assistance and encouragement throughout the present study.*

*My grateful thanks to **Dr. Dina Helmy El-Ghonemy**, Associate Professor of Microbial Chemistry, Microbial Chemistry Department, National Research Center for encouragement, facilities and the valuable advice during the practical work, in writing and revising the thesis.*

*Deep thanks to **Dr. Dalia Ali Mahmoud**, Lecturer of Microbiology, Microbiology Department, Faculty of Science, Ain Shams University for supervision, encouragement, valuable advice throughout the present study and in revising the thesis.*

*My deepest thanks to **the head and all the staff members of Microbial Chemistry Department**, National Research Center, for their continuous support & encouragement during the course of this study.*

*Finally, I turn to the spirit of **Pro. Dr. Al-Zahra Ahmed Karam El-Din** by praying with infertility and mercy. I wish she was present with us now to convey to her all the gratitude, appreciation and love for her kindness and sincerity in giving advice. Her efforts during this thesis never will be forgettable.*

Eman Mohamed Shehata
