Quality of Life among Women with Uterine Prolapse

Thesis

*Submitted for fulfillment of Master Degree in
Nursing Science
(Community Health Nursing)*

By

Eman Abd Elmoniem

(B.Sc., Nursing Science, 2005)

Assistant in Technical Institute of Nursing

Al-Hussein Hospital

Al-Azhar University

**Faculty of Nursing
Ain Shams University
2019**

Quality of Life among Women with Uterine Prolapse

Thesis

*Submitted for fulfillment of Master Degree in
Nursing Science*

(Community Health Nursing)

Under Supervision of

Prof. Dr. Nawal Mahmoud Soliman

Professor of Community Health Nursing
Faculty of Nursing - Ain Shams University

Dr. Hala Mohammed Mohammed

Assistant Professor of Community Health Nursing
Faculty of Nursing - Ain Shams University

**Faculty of Nursing
Ain Shams University
2019**

Acknowledgement

First and for most I feel always indebted to **ALLAH**, the most kind and most merciful.

I would like to express my sincere thanks and deepest appreciation to **Prof. Dr/ Nawal Mahmoud Soliman** Professor of Community Health Nursing, Faculty of Nursing, Ain Shams University, for her continuous meticulous supervision, constructive criticism, effective impetus, prudent guidance, support and unlimited help throughout this work.

I would like to express my deep thanks and appreciation to **Dr. Hala Mohammed Mohammed** Assistant Professor of Community Health Nursing, Faculty of Nursing, Ain Shams University, for her guidance, fruitful comments and unlimited time and efforts to complete this work.

I wish to extend my thanks to all of the women who participated in this study and to all of the nursing personnel at outpatients clinics of El-Hussein University and Jhria University maternity Hospital for their cooperation.

Last but not least many thanks to all these who contributed to achievement of this study.

Thank you

Eman Abd Elmoniem

List of Review

Part (I): Uterine Prolapse	10
Definition of Uterine Prolapse (UP)	10
Anatomy of the Female Genital System:	11
Anatomy of Uterus and Pelvic Support	12
Incidence of uterine prolapse	15
Factors Leading to Uterine Prolapse	16
Predisposing factors for uterine prolapse	17
Symptoms of uterine prolapse:	20
Stages of Uterine Prolapse:	22
Causes of uterine prolapse:	24
Screening & Diagnosis	25
Management of uterine prolapse:	27
A. Nonsurgical management of uterine prolapse	28
B. Surgical management:	31
Complications of uterine prolapse:	35
	37
Part (II): Health Needs and Problems of Women with Uterine Prolapse	
1. Physical needs	37
2. Psychological needs	40
3. Social needs	42
Problems of women with from uterine prolapse:	44
1. Physical problems:	44
2. Psychology problems:	48
3. Social problems	51

Part (III): Quality of Life for Women with from Uterine Prolapse	58
Quality of life domains	60
1. Physical domains	61
2. Psychological domains	63
3. Social domains	64
4. Sexual domains	65
Part (IV): Community Health Nursing Roles for Women with uterine Prolapse	66
Health promotion	67
Primary prevention	68
Second prevention	77
Tertiary prevention	79

Tables in Review

No.	Table	Page
1	Recommended Dietary allowance for women with uterine prolapse.	38

Tables in Results

No.	Table	Page
1	Distribution of the women with uterine prolapse according to Socio Demographic characteristic (N=350).	100
2	Distribution of the women with uterine prolapse according their obstetric history (N=350).	102
3	Distribution of the women with uterine prolapse according their obstetric history (N=350)	103
4	Distribution of the women with uterine prolapse according their past medical history (N=350).	105
5	Distribution of the women with uterine prolapse according their present complains (N=350).	106

 List of Tables 

No.	Table	Page
6	Distribution of the women with uterine prolapse according to this Knowledge regarding uterine prolapse (N=350).	108
7	Distribution of women with uterine prolapse according to their physical health needs (N=350).	110
8	Distribution of women with uterine prolapse according to their physical health needs (N=350).	111
9	Distribution of women with uterine prolapse according to their physical health needs (N=350).	112
10	Distribution of women with uterine prolapse according to their psychological health needs (N=350).	113
11	Distribution of women with uterine prolapse according to their social health needs (N=350).	114
12	Distribution of women with uterine prolapse according to their physical health problems (N=350).	116
13	Distribution of women with uterine prolapsed according to their psychologically health problems (N=350).	117

 List of Tables 

No.	Table	Page
14	Distribution of women with uterine prolapse according to the impact of social health problems: (N= 350).	118
15	Distribution of women with uterine prolapsed according to their effect uterine prolapsed on Physical domain of QOL (N=350).	120
16	Distribution of women with uterine prolapsed according to their Effect uterine prolapse on social domain of QOL (N=350).	121
17	Distribution of women with uterine prolapsed according to their Effect uterine prolapsed on Psychological domain of QOL (N=350).	122
18	Distribution of women with uterine prolapse according to their Effect uterine prolapsed on sexual domain of QOL (N=350).	123
19	Relation between women with uterine prolapse regarding total level of knowledge and their socio-demographic data (N=350)	125
20	Relation between women with uterine prolapse regarding of total health problems and their socio-demographic data (N=350).	127

 List of Tables 

No.	Table	Page
21	Relation between women with uterine prolapse regarding of total needs and their socio-demographic data (N=350).	129
22	Relation between women with uterine prolapse regarding level total of quality of life and their socio-demographic data (N=350).	131
23	Correlation between total score of quality of life with total score of knowledge, total score of problems, total score of needs of women with uterine prolapse (N=350).	133

Figure in Review

No	Figure	Page
1	Uterus prolapsed.	11
2	Female reproductive system.	12
3	Pelvic floor muscles.	14
4	Stages uterine prolapse	23
5	Various types of pessaries	28
6	Types of hysterectomy.	34
7	Rectocele.	36
8	Wilson and Cleary Model of Quality of Life	60
9	Types "Kegel" exercise	74

Figure in Result

No	Figure	Page
1	Percentage distribution of the women with uterine prolapsed according to the stages of uterine prolapse (N=350).	107
2	Distribution of the women with uterine prolapse according to their knowledge regarding uterine prolapse (N=350).	109
3	Distribution of the women with uterine prolapsed according to their total health needs (N=350).	115
4	Distribution of the women with uterine prolapsed according to the level of total health problem (N=350).	119
5	Percentage distribution of women with uterine prolapse according to the total level of quality of life (N=350).	124
