**POPULATION STUDIES OF THE EGYPTIAN FRUIT-
BAT, *Rousettus aegyptiacus*, IN GREATER CAIRO,
AND ITS ANTIFERTILITY-BASED MANAGEMENT**

A Thesis Submitted for the Award of the Degree of

Doctor of Philosophy in Science

By

Ayat Taha Abdel-Fattah Taha

M.Sc. Zoology (2017)

Under Supervision of

Prof. Sohail Samy Soliman

Professor Emeritus of Mammal Ecology and Taxonomy,
Department of Zoology, Faculty of Science, Ain Shams University

Prof. Yomna Ibrahim Mahmoud

Professor of Cell Biology and Histology
Department of Zoology, Faculty of Science, Ain Shams University

(2020)

**POPULATION STUDIES OF THE EGYPTIAN FRUIT-
BAT, *Rousettus aegyptiacus*, IN GREATER CAIRO,
AND ITS ANTIFERTILITY-BASED MANAGEMENT**

A thesis for Ph.D. degree

(Zoology)

By

Ayat Taha Abdel-Fattah Taha

Under Supervision of

Prof. Sohail Samy Soliman

Department of Zoology, Faculty of Science, Ain Shams University

Prof. Yomna Ibrahim Mahmoud

Department of Zoology, Faculty of Science, Ain Shams University

(2020)

Approval sheet

POPULATION STUDIES OF THE EGYPTIAN FRUIT- BAT, *Rousettus aegyptiacus*, IN GREATER CAIRO, AND ITS ANTIFERTILITY-BASED MANAGEMENT

By

Ayat Taha Abdel-Fattah Taha

M.Sc. Zoology (2017)

This thesis for Ph.D. degree has been approved by:

Prof. Samy Abdel Latif Ahmed Saber.....

Professor Emeritus of Vertebrate Ecology - Department of Zoology -
Faculty of Science - Al-Azhar University-Cairo-Egypt.

Prof. Magdy Wilson Bouils.....

Professor of harmful animals - Plant Protection Institute -Agricultural
Research Center - Dokki.

Prof. Sohail Samy Soliman.....

Professor Emeritus of Mammal Ecology and Taxonomy,
Department of Zoology, Faculty of Science, Ain Shams University

Prof. Yomna Ibrahim Mahmoud.....

Professor of Cell Biology and Histology
Department of Zoology, Faculty of Science, Ain Shams University

Data of examination: 8/8/2020.

ACKNOWLEDGMENTS

First, and foremost, praise is to ALLAH, the Almighty, the Greatest of all.

I am greatly indebted to Prof. Sohail Soliman, Professor Emeritus of Mammal Ecology and Taxonomy, Department of Zoology, Faculty of Science, Ain Shams University, for suggesting and planning this research point. I also thank him for his precious advice, continuous encouragement and critical reading of the manuscript. It is a great honor to work under his supervision.

Deep appreciation is due to Prof. Yomna I. Mahmoud, Professor of Histology, Department of Zoology, Faculty of Science, Ain Shams University, for her supervision and careful reading of the manuscript. Her research experience has added a lot to the integrity of this thesis. No words seem to be sufficient to describe how lucky I am to be under her supervision.

Sincere thanks are due to Prof. Ashraf A. Montasser, Head of the Department of Zoology, Faculty of Science, Ain Shams University, for his interest in the work, and for administrative facilities.

I owe much to my family for their moral support, and my colleagues for their help and encouragement throughout the course of the work.
