PHARMACOGNOSTICAL STUDY OF
***SINAPIS ARVENSIS* L.**
BELONGING TO FAMILY CRUCIFERAE

A THESIS

Submitted For The Master Degree Of
Pharmaceutical Sciences (Pharmacognosy)

BY

EHAB SAAD MOHAMMED EL-KHAYAT

(B. Pharm. Sciences 1994)

UNDER THE SUPERVISION OF

Prof. Ahmed A. Ali

Professor of Pharmacognosy

Faculty of Pharmacy

Assiut University

Prof. Hashim A. Hassanean

Professor of Pharmacognosy

Faculty of Pharmacy

Assiut University

Prof. Mahmoud H. Mohammed

Professor of Pharmacognosy

And Dean of Faculty of Pharmacy

Al-Azhar University, Assiut

Pharmacognosy Department

Faculty of Pharmacy

Assiut University

APPROVAL SHEET

Name: Ehab Saad Mohamed EL-Khayat.

Title: Pharmacognostical Study of *Sinapis arvensis* L.
Belonging To Family Cruciferae.

Approved by:

Prof. Dr. Ahmed Abd-El Rhaman Ali

Prof. Dr. Taha Ibraheim Abu Khalifa.

T. Khalifa

Prof. Dr. Samia Mohamed El-Sayyad

Committee in Charge Date: 30 / 3 / 2000.

**To my Parents,
Wife, Sister
and my Brothers**

Acknowledgement

ACKNOWLEDGEMENT

First of all, my greatest thanks to *ALLAH* who invoked his blessings and grace upon this work.

I would like to express my sincere gratitude to *Prof. Dr. Ahmed Abd El-Rahman Ali*, Professor of Pharmacognosy, Faculty of Pharmacy, Assiut University, *for his kind supervision, directions, constructive comments and the presentation of this work.*

I would like to present my thankful appreciation and sincere gratitude to *Prof. Dr. Hashim Abd El-Haleem Hassanean*, Professor of Pharmacognosy, Faculty of Pharmacy, Assiut University, *for suggesting the subject of this research, valuable comments, guidance, continuous follow up and encouragement.*

I am sincerely grateful to *Prof. Dr. Mahmoud Hamed Mohammed*, Professor of Pharmacognosy and Dean of Faculty of Pharmacy, Al-Azhar University, Assiut *for kind support, guidance and valuable comments.*

I am thankful to *Dr. Mohammed Salah Kamel*, Associate Professor of Pharmacognosy, Faculty of Pharmacy, Assiut University, *for carrying out the spectral analysis.*

I am very grateful to *Mr. Alaa Arafat*, Assistant Lecturer of Organic Pharmaceutical Chemistry, Faculty of Pharmacy, Assiut University, *for his generous help during the methylation of the fatty acids.*

Finally my greatest thanks to all the staff members of Pharmacognosy Department, Faculty of Pharmacy, Assiut University, *for their basic teaching which enabled me to carry out this work.*

CONTENTS

	Page
- Introduction	1
- Aim of work	12
- Taxonomy	13
- Materials, Apparatus and Techniques	16
- Part I: Botanical study of <i>Sinapis arvensis</i> L.	
- Macro- and Micromorphology of the Leaf	25
- Macromorphology of the flower	35
- Macro- and Micromorphology of the Stem	42
- Macro- and Micromorphology of the Root	50
- Part II: Phytochemical studies	
<i>Chapter 1: Preliminary Phytochemical Screening and Proximate</i>	
Analysis.....	59
<i>Chapter 2: Extraction, fractionation and isolation</i>	
-Extraction, fractionation and isolation of the major components of the seeds of <i>Sinapis arvensis</i>	62
-Investigation of the hexane fraction	63
-Column chromatography of the hexane fraction	63
-Extraction, fractionation and isolation of the major components of the flowers of <i>Sinapis arvensis</i>	65
-Investigation of the ethyl acetate fraction	66
-Column chromatography of the ethyl acetate fraction	66
<i>Chapter 3: Identification and characterization of the isolated compounds</i>	
- Identification and characterization of S-1	68
- Identification and characterization of S-2.....	71

- Identification and characterization of S-3	74
- Identification and characterization of S-4.....	81
- Identification and characterization of F-1.....	85
- Identification and characterization of F-2.....	90
- Identification and characterization of F-3.....	97
- Identification and characterization of F-4	106

Chapter 4: Lipid analysis

- Preparation of the unsaponifiable matter	114
- Preparation of the fatty acids methyl ester	115
- Identification of the fatty acids methyl ester	116
- Identification of the unsaponifiable matter	128

- Part III: Biological Screening

- Antimicrobial activity	131
- Anti-inflammatory effect	135
- Diuretic effect	137
- General summary	140
- References	152
- Arabic summary	

List of Figures

Figure No.		Page
1)	Photograph of <i>Sinapis arvensis</i> L.	23
2)	Diagrammatic illustration of <i>Sinapis arvensis</i> L.	24
3)	Diagrammatic illustration of the leaf of <i>Sinapis arvensis</i> L.	26
4)	A) Diagrammatic T. S. of the leaf of <i>Sinapis arvensis</i> L.	29
	B) Detailed T. S. of the Lamina	29
5)	Detailed T. S. of the midrib	32
6)	Powder of the leaf	34
7)	The flower of <i>Sinapis arvensis</i> L.	37
8)	Powder of the flower	41
9)	Diagrammatic T. S. of the stem of <i>Sinapis arvensis</i> L.	43
10)	Detailed T. S. of the stem	46
11)	Powder of the stem	49
12)	Diagrammatic illustration of the root of <i>Sinapis arvensis</i> L.	51
13)	Diagrammatic T. S. of the root	53
14)	Detailed T. S. of the root	55
15)	Powder of the root	58
16)	IR spectrum of compound S-1	69
17)	IR spectrum of compound S-2	72
18)	MS spectrum of compound S-2	72
19)	IR spectrum of compound S-3	75
20)	MS spectrum of compound S-3	75
21)	¹ H-NMR spectrum of compound S-3	77
22)	¹³ C-NMR spectrum of compound S-3	79
23)	¹ H-NMR spectrum of compound S-4	82
24)	¹³ C-NMR spectrum of compound S-4	83
25)	¹ H-NMR spectrum of compound F-1	86

26)	^{13}C -NMR spectrum of compound F-1	87
27)	DEPT measurement of compound F-1	89
28)	^1H -NMR spectrum of compound F-2	92
29)	^{13}C -NMR spectrum of compound F-2	94
30)	^1H -NMR spectrum of compound F-3	99
31)	^{13}C -NMR spectrum of compound F-3	102
32)	DEPT measurement of compound F-3	103
33)	^1H -NMR spectrum of compound F-4	108
34)	^{13}C -NMR spectrum of compound F-4	110
35)	DEPT measurement of compound F-4	111
36)	GC/MS of A) Caproic acid methyl ester	123
	B) Palmitic acid methyl ester	123
37)	GC/MS of A) Dihydricinoleic acid methyl ester	124
	B) Stearic acid methyl ester	124
38)	GC/MS of A) Linoleic acid methyl ester	125
	B) Linolenic acid methyl ester	125
39)	GC/MS of A) Arachidic acid methyl ester	126
	B) Lignoceric acid methyl ester	126
40)	GC/MS of A) Erucic acid methyl ester	127
	B) Oleic acid methyl ester	127
41)	GC/MS of USM acetate	129
42)	Diuretic effect of the oil	139
