MONA MAGHRABY

Pattern of Acute Synthetic Cannabinoids Toxicity in Patients Presented to the Poison Control Center of Ain Shams University Hospitals

Thesis

*Submitted for Partial Fulfillment of Master degree in
Clinical Toxicology*

Presented by

Asmaa Atef Hashem Omar

*Demonstrator in Forensic Medicine and Clinical Toxicology Department
Faculty of Medicine - Ain shams University*

Under supervision of

Prof. Dr. Suzan Mostafa Mahmoud

*Professor in Forensic Medicine and Clinical Toxicology Department
Faculty of Medicine – Ain Shams University*

Prof. Dr. Rasha El-Hussaini Abou Anza

*Professor in Forensic Medicine and Clinical Toxicology Department
Faculty of Medicine – Ain Shams University*

Dr. Walaa Gomaa Abdel Hamid

*Lecturer in Forensic Medicine and Clinical Toxicology Department
Faculty of Medicine – Ain Shams University*

*Faculty of Medicine
Ain Shams University
2020*

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

لسببائك لا علم لنا
إلا ما علمتنا إنك أنت
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٢٢

Acknowledgment

*First and foremost, I feel always indebted to **ALLAH**, the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and profound gratitude to **Prof. Dr. Suzan Mostafa Mahmoud**, Professor in Forensic Medicine and Clinical Toxicology Department Faculty of Medicine – Ain Shams University, for her keen guidance, kind supervision, valuable advice and continuous encouragement.*

*I am also delighted to express my deepest gratitude and thanks to **Prof. Dr. Rasha El-Hussaini Abou Anza**, Professor in Forensic Medicine and Clinical Toxicology Department, Faculty of Medicine – Ain Shams University, for her kind care, continuous supervision, valuable instructions, constant help and great assistance throughout this work.*

*I am deeply thankful to **Dr. Walaa Gomaa Abdel Hamid**, Lecturer in Forensic Medicine and Clinical Toxicology Department, Faculty of Medicine – Ain Shams University, for her great help, active participation and guidance.*

I would like to express my hearty thanks to all my family for their support till this work was completed.

Last but not least my sincere thanks and appreciation to all patients participated in this study.

Asmaa Atef Hashem Omar

List of Contents

Title	Page No.
List of Tables	i
List of Figures	v
List of Abbreviations.....	ix
Introduction	1
Aim of the Work.....	3
Review of Literature	
History Of Cannabis And Cannabinoids.....	4
Historical Perspective Of Synthetic Cannabinoids.....	14
Structure Of Synthetic Cannabinoids	18
Nomenclature And Forms Of Synthetic Cannabinoids ...	21
Epidemiology Of Synthetic Cannabinoids	24
Pharmacokinetics and Toxicokinetics Of Synthetic Cannabinoids	27
Pathophysiology Of Synthetic Cannabinoids.....	33
Toxicity Of Synthetic Cannabinoids	35
Management Of Synthetic Cannabinoids Toxicity	45
Legality And Regulation Of Synthetic Cannabinoids	50
Patients and Methods.....	54
Results	74
Discussion	106
Conclusion	127
Recommendations	129
Summary	132
References	137
Arabic Summary	----

List of Tables

Table No.	Title	Page No.
Table (1):	Main chemical groups and subgroups of synthetic cannabinoids.....	20
Table (2):	Reed's classification of the level of consciousness.....	59
Table (3):	Monthly variations in the presentation of acutely poisoned patients with synthetic cannabinoids under the study	75
Table (4):	Age of synthetic cannabinoids intoxicated patients in the current study.....	77
Table (5):	Sex and residence in synthetic cannabinoids intoxicated patients in the current study.....	77
Table (6):	Delay time of intoxication in synthetic cannabinoids intoxicated patients in the current study	79
Table (7):	Types of synthetic cannabinoid agents in relation to mode of intoxication in synthetic cannabinoids intoxicated patients under the study.....	79
Table (8):	Preconsultation management before presentation and co- ingestion in poisoned patients under the study.....	80
Table (9):	Types of co-ingested agents in poisoned patients under the study.....	80
Table (10):	Presence of medical comorbidities and concurrent medications in poisoned patients under the study.....	82
Table (11):	Frequency and severity of neurological manifestations in acutely poisoned patients with synthetic cannabinoids under the study.....	83

List of Tables (cont...)

Table No.	Title	Page No.
Table (12):	Different coma grades among acutely poisoned patients with synthetic cannabinoids under the study	84
Table (13):	Frequency and severity of respiratory manifestations in acutely poisoned patients with synthetic cannabinoids under the study	86
Table (14):	Frequency and severity of cardiovascular manifestations in acutely poisoned patients with synthetic cannabinoids under the study	87
Table (15):	Frequency and severity of gastrointestinal manifestations in acutely poisoned patients with synthetic cannabinoids under the study	88
Table (16):	Arterial blood gas analysis at the time of peak manifestations in poisoned patients under the study	90
Table (17):	Electrocardiographic findings in poisoned patients under the study.....	91
Table (18):	Place of management of the studied 448 acutely intoxicated patients by synthetic cannabinoids in PCC-ASUH	92
Table (19):	Causes of <i>ICU</i> admission among the studied 27 acutely intoxicated patients by synthetic cannabinoids who were admitted in the <i>ICU</i>	93

List of Tables (cont...)

Table No.	Title	Page No.
Table (20):	Duration of admission in the inpatient ward and ICU with total duration in the admitted intoxicated patients with synthetic cannabinoids in the current study	94
Table (21):	Poisoning severity score (<i>PSS</i>) at the time of peak manifestations in the studied 448 intoxicated cases	95
Table (22):	ANOVA one-way statistical analysis showing comparison between groups classified according to poisoning severity score as regards age in patients under the study.....	97
Table (23):	Chi- square statistical analysis showing comparison between groups classified according to poisoning severity score as regards sex and residence in patients under the study	98
Table (24):	Correlation between delay time and poisoning severity score	99
Table (25):	Chi- square statistical analysis showing comparison between groups classified according to poisoning severity score as regards types of synthetic cannabinoids agents in patients under the study	99
Table (26):	Chi- square statistical analysis showing comparison between groups classified according to poisoning severity score as regards mode of poisoning in patients under the study.....	101

List of Tables (cont...)

Table No.	Title	Page No.
Table (27):	Chi- square statistical analysis showing comparison between groups classified according to poisoning severity score as regards presence of co-ingestion and medical comorbidities in patients under the study.....	102
Table (28):	Chi- square statistical analysis showing comparison between groups classified according to poisoning severity score as regards preconsultation management before presentation in patients under the study.....	103
Table (29):	Chi- square statistical analysis showing comparison between groups classified according to poisoning severity score as regards arterial blood gas analysis at the time of peak manifestations in patients under the study.....	104
Table (30):	Correlation between place and duration of admission in the inpatient ward, <i>ICU</i> , total duration of admission and poisoning severity score in patients under the study	105

List of Figures

Fig. No.	Title	Page No.
Figure (1):	Types of cannabis species.....	4
Figure (2):	Composition of cannabis plant.....	5
Figure (3):	Different cannabinoids in cannabis plant	7
Figure (4):	The endocannabinoid system	9
Figure (5):	Effects of cannabinoid receptors activation	10
Figure (6):	Difference between endocannabinoids and phytocannabinoids regarding their chemical structure	13
Figure (7):	Molecular structure of Δ 9-THC and cyclohexylphenols (CP).....	15
Figure (8):	Chemical structure of Δ 9-THC and dipenzopyran.....	16
Figure (9):	Chemical structure of John W. Huffman (JWH).....	17
Figure (10):	Global structural scheme of synthetic cannabinoid illustrated by some selected members of the naphthoyl indole derivative family	19
Figure (11):	Different commercial brands of synthetic cannabinoids	22
Figure (12):	Different synthetic cannabinoid forms in drug market	23
