MONA MAGHRABY

**Faculty of women for Arts,
Science and Education
Ain Shams University**

Radiation induced synthesis of polymer nanocomposites; characterization and application studies.

**A Dissertation Submitted for the Degree of
Doctor of Philosophy in Science
(Ph.D. in Solid State Physics)**

By

Eman Kamal Mohamed Tawfik

Assistant lecturer at
National Center of Radiation Research and Technology (NCRRT)
Egyptian Atomic Energy Authority (EAEA)
M.Sc. In physics 2013 (zagazig university)

Supervised by

Prof. Dr. Hoda Ashry
Radiation physics department -
NCRRT-EAEA-Egypt

Prof. Dr. Nagwa Okasha Morad
Physics department- Women
College for Science, Arts and
Educations-Ain Shams University

**Ass.Prof. Dr. Wael Hosam El-din
Eisa**
Spectroscopy Department, Physics
Division, National Research Centre
(NRC), Egypt

To
Physics department
2020

**Faculty of women for Arts,
Science and Education
Ain Shams University**

Approval Sheet

Title: Radiation induced synthesis of polymer nanocomposites; characterization and application studies

Name: Eman Kamal Mohamed Tawfik

Degree: Doctorate (Ph.D.)

Supervisors:

approved

1-Prof. Dr.Hoda Abd El-moneam Ashry
Radiation Physics department - National Centre For
Radiation Research and Technology (NCRT),
Egyptian Atomic Energy Authority (EAEA).

2- Prof. Dr. Nagwa Okasha Morad
Physics department- Women College for Science,
Arts and Educations-Ain shams University.

3- Ass.Prof. Dr. Wael Hosam El-din Eisa
Spectroscopy Department, Physics Division,
National Research Centre (NRC).

**Faculty of women for Arts,
Science and Education
Ain Shams University**

Ph.D. thesis

Candidate name: Eman Kamal Mohamed Tawfik

Title: Radiation induced synthesis of polymer nanocomposites; characterization and application studies.

Degree: Doctorate (Ph.D.)

Supervisors:

1-Prof. Dr.Hoda Abd El-Moneam Ashry

Radiation Physics department - National Centre For Radiation Research and Technology (NCRT), Egyptian Atomic Energy Authority (EAEA).

2- Prof. Dr. Nagwa Okasha Morad

Physics department- Women College for Science, Arts and Educations-Ain shams University

3- Ass.Prof. Dr. Wael Hosam El-Din Eisa

Spectroscopy Department, Physics Division, National Research Centre (NRC).

Examiners:

1-Prof.Dr. Hoda Abd El-Moneam Ashry

Radiation Physics department - National Centre for Radiation Research and Technology (NCRT), Egyptian Atomic Energy Authority (EAEA).

2- Prof. Dr. Nagwa Okasha Morad

Physics department- Women College for Science, Arts and Educations-Ain shams University.

3- Prof. Dr. Hesham El-khabeary Tawfik

Radiation physics and ion sources- Atomic Energy Authority.

4- Prof.Dr. Ensherah Abd Elwahabb Hassan.

Solid state Physics – Faculty of Educations-Ain shams University.

Dedication

TO MY FATHER AND MY

MOTHER

TO MY HUSBAND AND

MY SONS

Acknowledgement

Acknowledgment

First and foremost, with a deep sense of gratitude, I want to thank **Allah** for allowing me to perform this thesis smoothly even though I face some obstacles throughout my work and peace be upon **Prophet Mohammed**. This thesis is the result of the work whereby I have been accompanied and supported by many people. It is a pleasant opportunity for me to express my gratitude for all of them.

I would like to express my deep thanks to **Prof. Dr. Hoda Ashry**, Radiation Physics Department, National Centre for Radiation Research and Technology, Atomic Energy Authority, for giving me the honor to be one of her students, continuous supervision and for her generous advices, valuable discussions which helped me greatly. Also, I would like to thank her for being an open person to ideas, encouraging, confidence in me and helping me to shape my interest and thoughts, her adequate reading of the thesis, worthy discussions and his kind assistance

I would like to thank **Prof. Dr. Nagwa Okasha**, Physics Department, Faculty of women for Art, Sciences, and Education, Ain Shams University, for her supervision, help, valuable advice as well as stimulating the discussions throughout this work, and especially for her encouragement.

I would also like to express my thanks to **Dr. Wael Hossam El dein**, for hosting me in his research team in lab. I would also like

to thank him for suggesting the point of investigation, for his continuous help, his great help in the experimental work encouragements and facilities offered by him throughout the work, his guidance and valuable advice.

I am gratefully appreciating all staff members of ***Radiation Physics Department***, NCRRT, Atomic Energy Authority for their support and appreciated help.

I would like also to thank my dear friend ***Dr. Safaa El Saied***, National Research center, for her help in the measuring quantities of chemical elements present in samples by Atomic absorption spectroscopy (AAS), her support and great help in the experimental work in National Research center.

I cannot forget all my friends that although outside my PhD environment, they are, without a doubt, the best I could even imagine. I am very grateful to ***soraya Mohamed, Nashwa Yousif*** for being always a great support.

This thesis could not have been completed without the endless love and blessings from my family. I wish to thank my parents, who taught me the value of hard work and rendered me enormous support during the whole tenure of my research work. I would like to thank my small family, my husband and my sons, for their patience to go through this endeavor hand-in-hand with me. Without their dearly accompaniment, both physically and spiritually, there would be no such an achievement.
