THE ROLE OF ULTRASONOGRAPHY IN EVALUATION OF THE VITREO-RETINAL INTERFACE IN PROLIFERATIVE DIABETIC RETINOPATHY

Thesis

Submitted for partial fulfilment of M.Sc. degree in Ophthalmology
By

AHMED ABD EL-MONEM EL-HAGAA

M . B . B . Ch .

Resident of Ophthalmology
Faculty of Medicine – Menoufiya University

Supervisors

 **Prof. Dr . MOSTAFA KAMAL NASSAR**

Professor of Ophthalmology
Faculty of Medicine-Menoufiya University

 **Prof. Dr . ABD EL-KHALIK IBRAHIM
EL-SAADANY**

Professor of Ophthalmology
Faculty of Medicine-Menoufiya University

**Dr . ABD EL-RAHMAN EL-SEBAEY
SARHAN** 

Lecturer of Ophthalmology
Faculty of Medicine-Menoufiya University

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

سورة البقرة

الحمد لله الذي هدانا لهذا

ما كنا لنهتدي لولا أن هدانا الله

والحمد لله رب العالمين

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

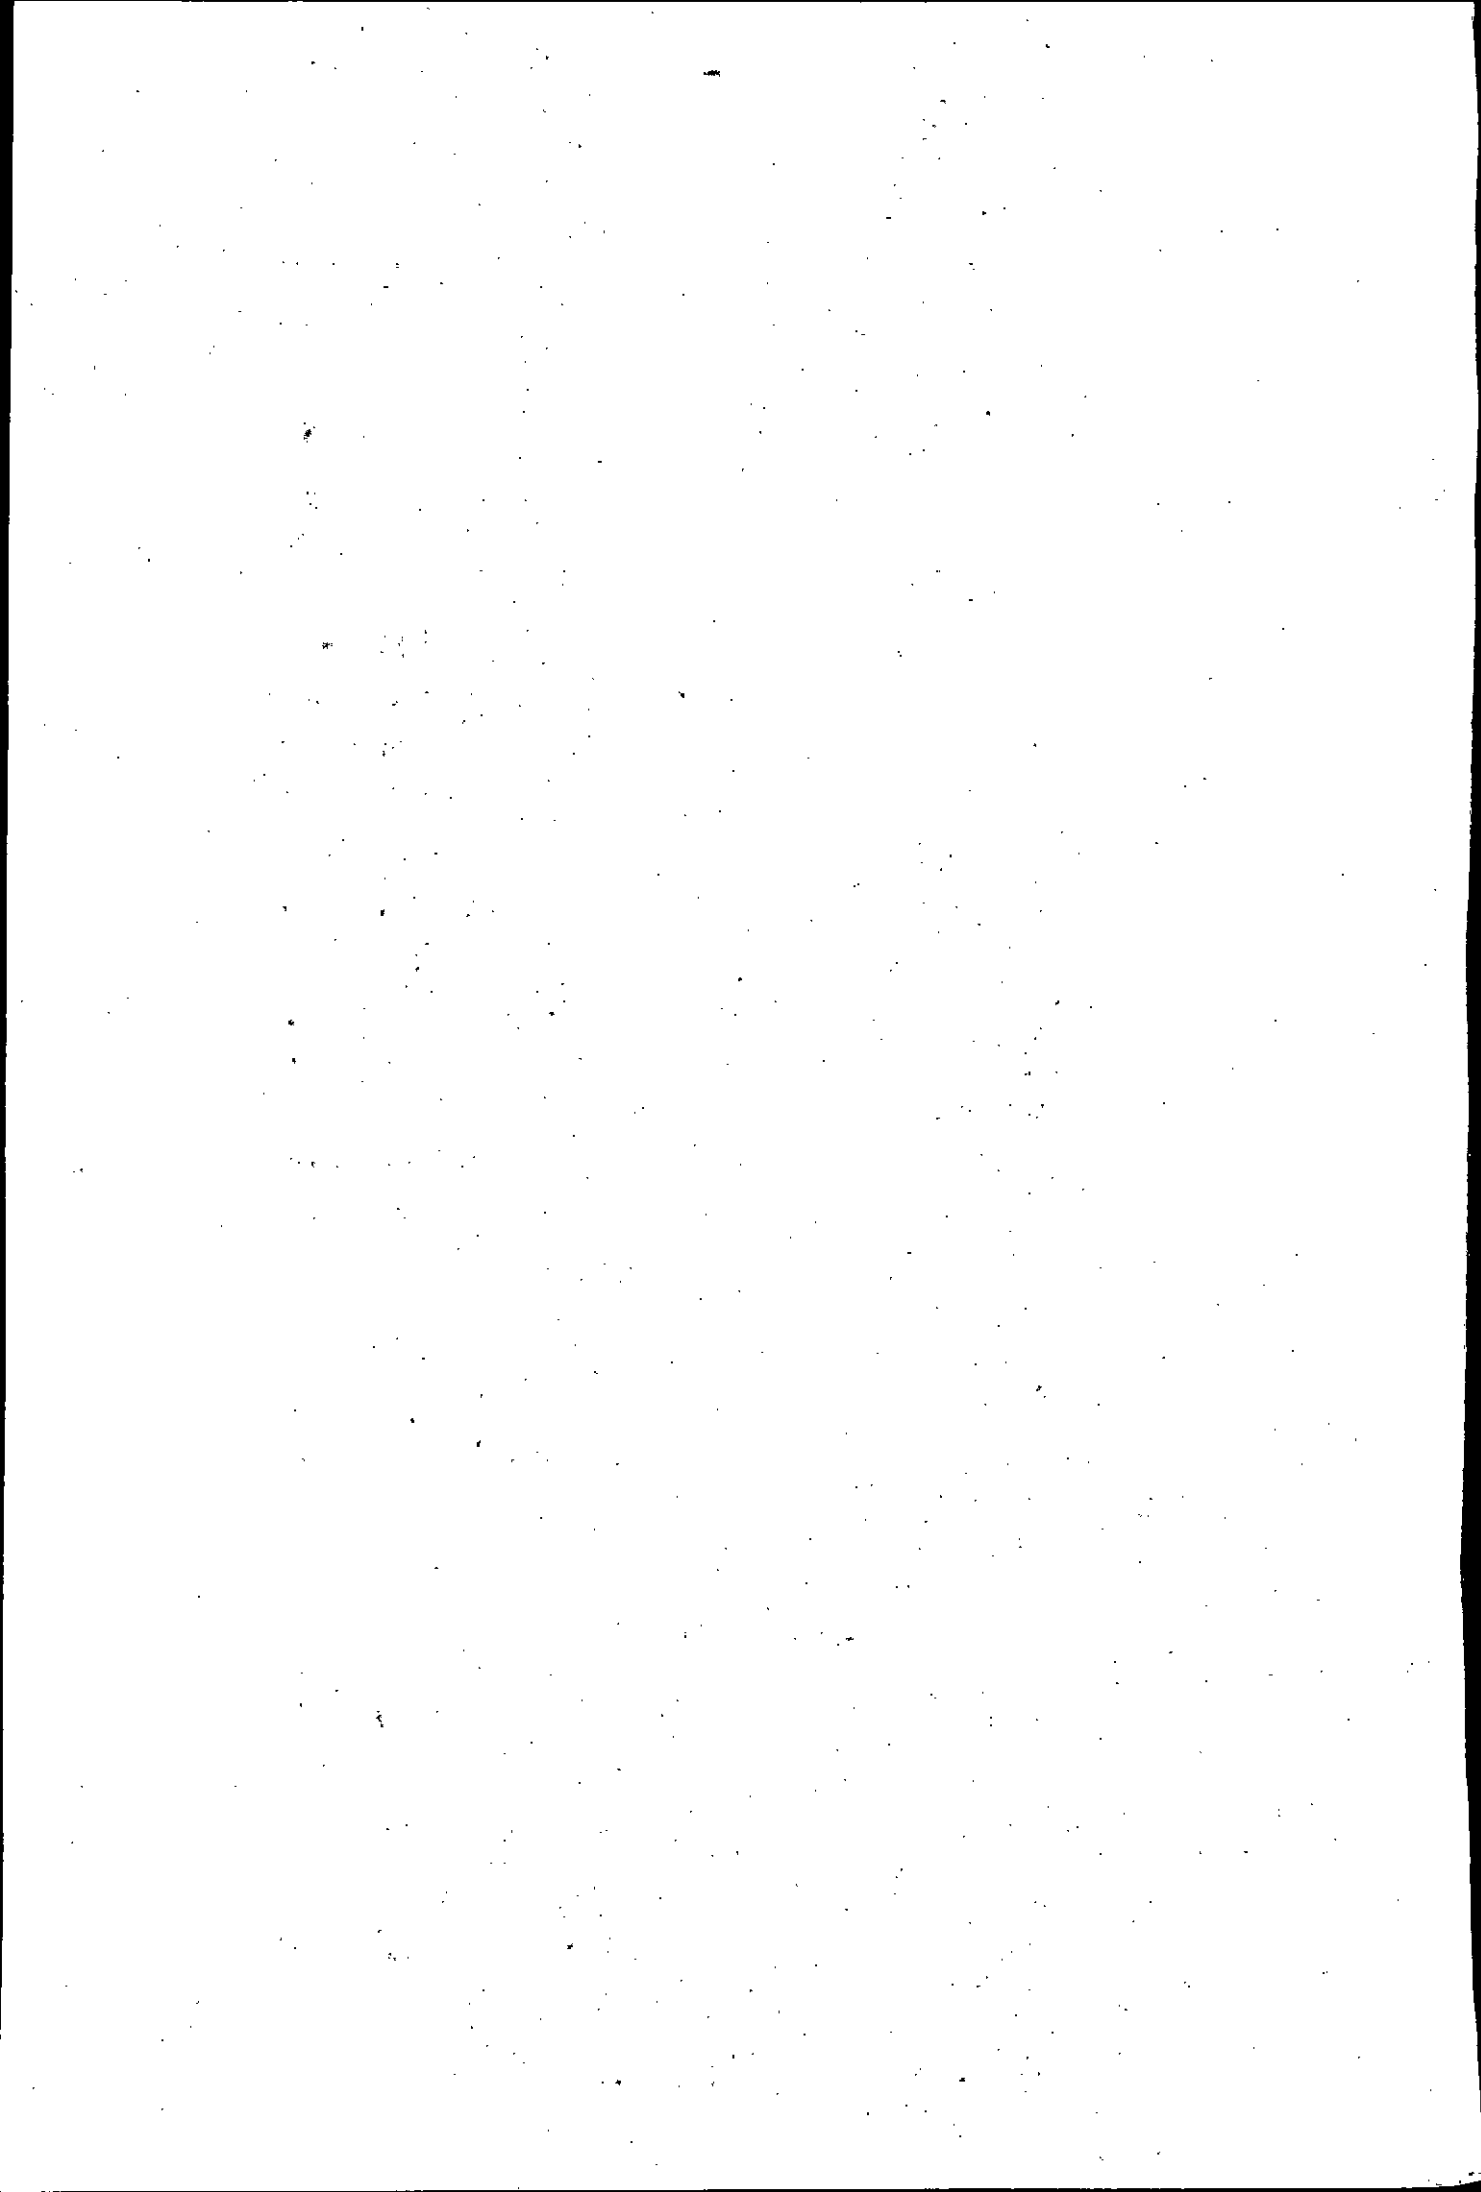

اقْرَأْ وَرَبُّكَ الْأَكْرَمُ * الضَّالِّ عِلْمِ

بِالْقَلَمِ * عَلَّمَ الْإِنْسَانَ مَا لَمْ يَعْلَمْ

صَلَّى اللَّهُ عَلَى الْعَظِيمِ

سُورَةُ الْعَلَقِ

الْأَبَاتِ * الثَّالِثَةِ وَخَلْفِ الْجَامِلَةِ

Acknowledgement

First of all, I kneel down and thank **ALLAH** for the faith and strength given to me to start, continue and accomplish this work.

My deepest thanks and feelings of appreciation to **Professor Dr. Saber Hamed El-Sayed**, Professor and Head of Ophthalmology Department, Faculty of Medicine, Menoufiya University, for his continuous encouragement and fatherly advice.

Words can't express my deep thanks and gratitude to **Professor Dr. Mostafa Kamal Nassar**, Professor of Ophthalmology, Faculty of Medicine, Menoufiya University who suggested this work. His meticulous supervision, constructive ideas and fruitful criticism helped to overcome the difficulties and made this study possible.

My deepest gratitude and warmest appreciation to **Professor Dr. Abd El-Khalik Ibrahim El-Saadany**, Professor of Ophthalmology, Faculty of Medicine, Menoufiya University for his tremendous effort, help and guidance throughout the entire work. To him, I owe so much in the field of posterior segment examination.

My sincere thanks to **Dr. Abd El-Rahman El-Sebaey Sarhan**, Lecturer of Ophthalmology, Faculty of Medicine, Menoufiya University for his encouragement, numerous valuable suggestions and helpful criticism. He spared no time or effort to help overcoming the difficulties. To him, I owe so much in the field of diagnostic ophthalmologic ultrasonography.

I would like to thank **Dr. Hesham El-Mazar**, Lecturer of Ophthalmology, Faculty of Medicine, Menoufiya University who in spite of being not a supervisor on this study, his continuous advice was very helpful to me.

I would like to thank all my colleagues in the Ophthalmology Department, Faculty of Medicine, Menoufiya University with special thanks to **Dr. Amin Faysal El-Lakwa, Dr. Hatem Mohammed Marey and Dr. Nermeen Mahmoud Badawy** for their help and advice.

Last but not least, my cardial appreciation to all who have shared either practically or morally in making this work show up to light.

Ahmed El-Hagaa.

Results:	109
A) persond and disease characteristics of patients with PDR	109
B) Posterior segment changes of patients with PDR By clinical and echographic examination	112
C) The relation between ultrasound and clinical findings in assessment of posterior segment changes among patients with PDR	118
D) the screening power of clinical Examination versus ultrasonographic Examination for detection of posterior segment changes among patients with PDR taking ultrasonographic examination as astandard	122
Discussion	147
Summary	166
Conclusion	174
