STUDIES ON THE MORPHOLOGICAL VARIETIES OF DERMATOPHYTES ACCORDING TO DIFFERENT FACTORS

NAHED MOHAMED EL-MOKHTAR SALEM

(B.V.SC. Cairo University)

Under The Supervision of

Dr. MOHAMED TAHA MAHMOUD

Prof. of Microbiology and Head of Bacteriology, Immunology
and Mycology Department
Zagazig University

And

Dr. Ferial Ahmed Mohamed El Far

Prof. of Mycology
Department of Mycology
Animal Health Research Institute

A THESIS

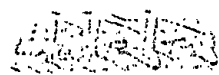

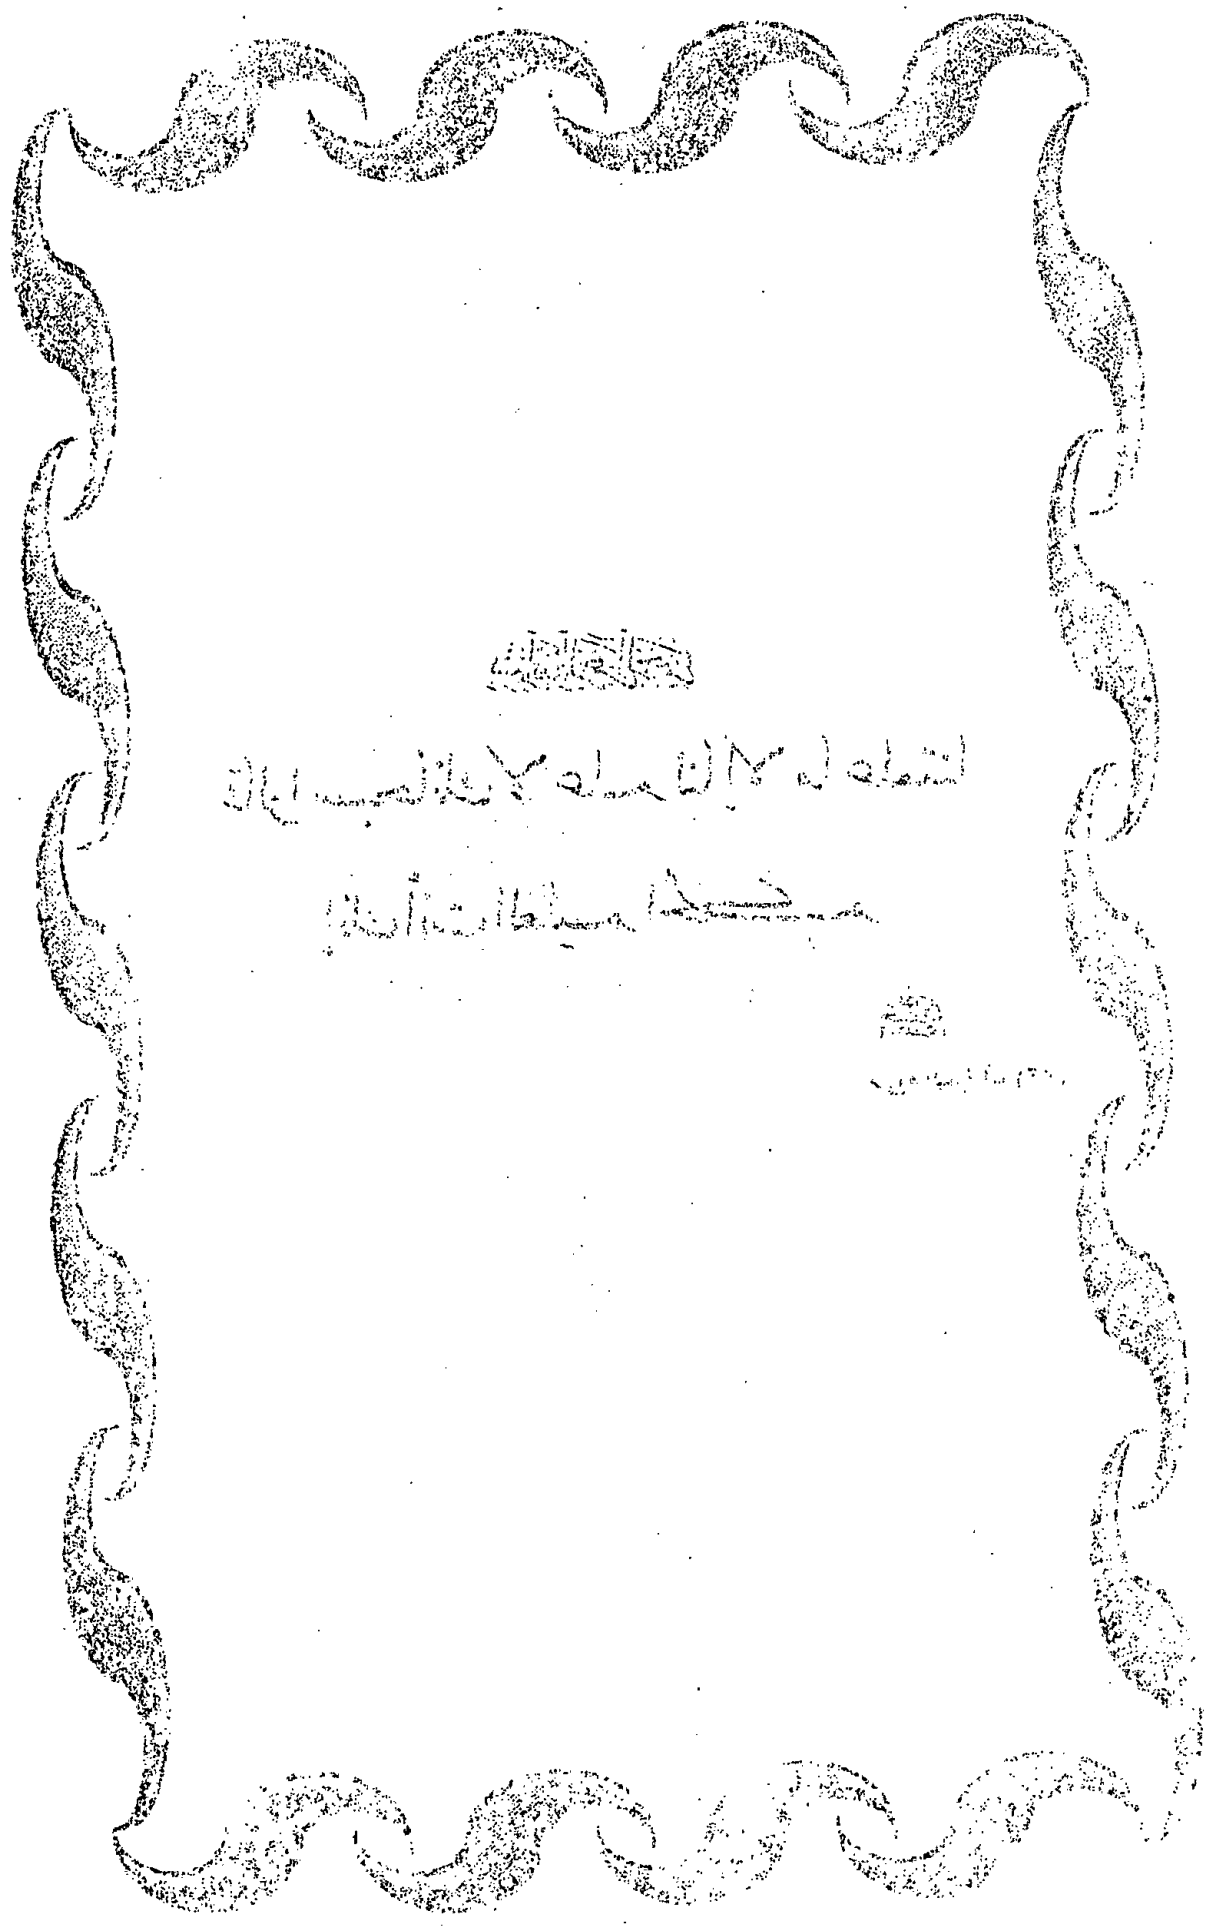

Submitted to
Zagazig University

For the Degree of Master in
Veterinary Science- Microbiology (Mycology)
Department of Bacteriology, Immunology, and Mycology

FACULTY OF VETERINARY MEDICINE

2001

B
12/10/2001

الحمد لله الذي هدانا لهذا
ما كنا لنهتدي لولا أن هدانا الله

والحمد لله رب العالمين

والحمد لله رب العالمين

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا سبحانك لا علم لنا إلا ما علمتنا
إنك أنت العليم الحكيم

الحكمة

سورة البقرة آية (٣٢)

of the Faculty of Veterinary Medicine
University of Baghdad
Iraq

Dr. Ali H. Al-Hadi

This is to certify that the dissertation was read by

Dr. Mohamed El Mokhtar

in regard to the study for the Degree of M.V.Sc. has been approved by the
Examination Committee

Prof. Dr. Elsay Ahmed Torky
Professor and Head of Microbiology
Department
Faculty of Veterinary Medicine
Assiut University

Prof. Dr. Hour El-Din El-Morshedy
Professor of Microbiology
Faculty of Veterinary Medicine
Suez Canal University

Prof. Dr. Mohamed Taha El-Hamdy
Professor of Microbiology and Head of
Department of Bacteriology, Immunology and
Mycology
Faculty of Veterinary Medicine
Alexandria University

Prof. Dr. Elsay Ahmed Torky
Professor of Microbiology
Animal Health Research Institute
Ministry of Agriculture

Department of Bacteriology, Immunology and Mycology
Faculty of Veterinary Medicine
Zagazig University

Approval Sheet

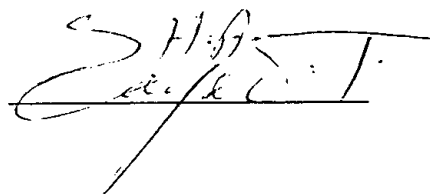

This is to approve that the dissertation presented by

NAHED MOHAMED EL MOKHTAR

to Zagazig University for the Degree of M. V. SC. has been approved by the
Examination Committee

1 **PROF. DR. HELMY AHMED TORKEY**

Professor and Head of Microbiology
Department,
Faculty of Veterinary Medicine,
Alexandria University

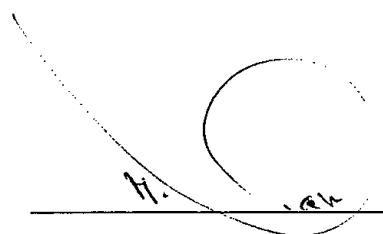

2 **PROF. DR. NOUR EL DIN AMIN MOHAMED**

Professor of Microbiology,
Faculty of Veterinary Medicine,
Zagazig University

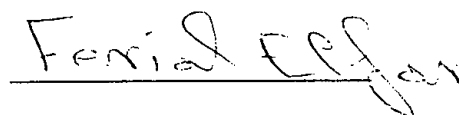

3 **PROF. DR. MOHAMED TAHA MAHMOUD**

Professor of Microbiology and Head of
Department of Bacteriology, Immunology and
Mycology,
Faculty of Veterinary Medicine,
Zagazig University

4 **PROF. DR. FERIAL AHMED EL FAR**

Professor of Mycology,
Animal Health Research Institute
Agriculture Research Centre

ACKNOWLEDGEMENT

No any words can express my sincere gratitude and deepest thanks to Prof. Dr. Mohamed Mahmoud Taha, Professor of Microbiology, and Head of Bacteriology, Immunology and Mycology Department, Faculty of Veterinary Medicine, Zagazig University, for his profound supervision, helpful guidance, continuous encouragement and support , valuable advices , criticism the work for best, and critical reading and revising the whole study.

I am also indebted and grateful to Prof. Dr. Ferial El Far, Professor of Mycology, Department of Mycology, Animal Health Institute, for her unforgettable assistance, understanding, continuous and thoughtful advices and great cooperation during the whole experimental work.

I would like to thank all my seniors especially, Prof. Dr. Aida Mohamed Abdel Aziz, and my colleagues and technicians in my Mycology Department for their help and cooperation during this work.

Lastly, but not least, I would like to convey my deepest thanks and gratitude to my little family, for their patient and support.

Table of Contents

	Page
1. INTRODUCTION	1
2. REVIEW OF LITERATURE	4
2.1 Historical review:	4
2.2 Animals as a source of human dermatophytosis	7
2.3 Human dermatohytosis	10
2.4 Animal dermatophytosis	12
2.4.1 Ringworm in cattle	12
2.4.2- Ringworm in sheep and goats	18
2.4.3 Ringworm in dogs and cats:	22
2.5 Factors affecting isolation and identification of dermatophytes:	30
2.5.1 Media used for isolation and identification:	30
2.5.2 Temperature changes	33
2.5.3 Carbohydrates concentration	34
2.5.4 Increased carbon dioxide tension	34
2.5.5 pH changes during dermatophytes growth	36
3. MATERIAL AND METHODS	41
3.1 Materials :	41
3.1.1 Strains :	41
3.1.2 Media	42
3.1. 3 Chemicals and reagents :	45
3.1. 4 Equipment and glassware:	46
3.2 Methods	47
3.2.1 Cultivation on SDA plus Chloramphenicol and Cyclohexamide.	47
3.2.2 Cultivation on different media.	48
3.2.3 Cultivation on SDA media under different conditions	48
3.2.3.1 Effect of variation of Temperature :	48
3.2.3.2 effect of variation of carbohydrates concentration:	49
3.2.3.3 effect of increased CO ₂ tension :	49

4. RESULTS	51
4.1 Effect of culture media:	51
4.2 Effect of temperature variation:	63
4.3 Effect of carbohydrates concentration	65
4.4 Effect of increasing CO ₂ tension:	67
5.DISCUSSION	119
SUMMARY	131
