HANAA ALY

Evaluation of the imaging accuracy of different desktop scanners, with different restorations designs

(In vitro study)

*A thesis submitted for partial fulfillment of the
Master Degree of Science requirements in Fixed
Prosthodontics, Faculty of Dentistry, Ain Shams
University*

By
Riham Emad Lwais

B.D.S
Faculty of Dentistry,
Future University,
2013

Faculty of Dentistry,
Ain Shams University,

2020

Supervisors

Dr. Tarek Salah Morsi

*Professor and Head of Fixed Prosthodontics
Department, Faculty of Dentistry, Ain Shams
University*

Dr. Andy Karam Nassif Tawfik

*Lecturer of Fixed Prosthodontics Department
Faculty of Dentistry, Ain Shams University*

Acknowledgement

I would like to express my deepest gratitude to Dr. Tarek Salah, Professor and Head of Fixed Prosthodontics Department, Faculty of Dentistry, Ain Shams University for his great help and guidance, and valuable advices throughout the accomplishment of this work.

Deep thanks and appreciation to Dr. Andy Karam, Lecturer Of Fixed Prosthodontics Department Faculty Of Dentistry, Ain Shams University for his constant support, advice and valuable comments.

Finally, I would like to thank all the staff members of the crown and bridge department, Faculty of Dentistry, Ain Shams University for their help and encouragement during the course of this study.

Dedication

This work is dedicated to my family for their continuous love, support and great care specially my Father and .Mother

My brother Dr. Rami Emad for helping and guide me throughout the work

My friend Dr. Sarah Raed for her continuous encouragement, and great care and for being source of my energy
