HANAA ALY

Assessment of cognitive and psychosocial Abnormalities in Children with idiopathic Nephrotic Syndrome

Thesis

Submitted for Partial Fulfillment of Master Degree in Pediatrics

By

Ahmed Taher El Zeny

M.B.B.Ch

Faculty of Medicine Ain Shams University

Supervised by

Prof. Dr. khaled Salah Awwad

Professor of Pediatrics

Ain Shams University Faculty of Medicine

Ass.Prof. Dr. Reham Mohammed Elhossiny Abdelbasir

Assistant Professor of Pediatrics

Ain Shams University Faculty of Medicine

Dr. Mohammad Abdelmonaem Sharaf

Lecturer of Pediatrics

Ain Shams University Faculty of Medicine

*Faculty of Medicine
Ain Shams University*

Cairo

2019

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قالوا

سببنا انك لا تعلم لنا
إلا ما علمتنا إنك أنت
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgment

*First and foremost, I feel always indebted to **ALLAH**, the Most Kind and Most Merciful.*

*I'd like to express my respectful thanks and profound gratitude to **Prof. Dr. Khaled Salah Awwad**, Professor of Pediatrics Ain Shams University Faculty of Medicine for his keen guidance, kind supervision, valuable advice and continuous encouragement, which made possible the completion of this work.*

*I am also delighted to express my deepest gratitude and thanks to **Ass. Prof. Dr. Reham Mohammed Elhossiny Abdelbasir**, Assistant Professor of Pediatrics Ain Shams University Faculty of Medicine, for his kind care, continuous supervision, valuable instructions, constant help and great assistance throughout this work.*

*I am deeply thankful to **Dr. Mohammad Abdelmonaem Sharaf**, Lecturer of Pediatrics Ain Shams University Faculty of Medicine, for his great help, active participation and guidance.*

Ahmed Taher El Zeny

List of Tables

Table No.	Title	Page No.
Table (1):	Common definitions to define the course of nephrotic syndrome.....	5
Table (2):	Etiological classification of nephrotic syndrome.....	6
Table (3):	Indications for kidney biopsy.	21
Table (4):	Indications for referral to a pediatric nephrologist.	23
Table (5):	Clinical features and management of infections.....	29
Table (6):	Complications of nephrotic syndrome include:	30
Table (7):	Subtypes of attention deficit hyperactivity disorder (based on DSM-5).....	38
Table (8):	DSM-5 definition of conduct disorder and oppositional defiant disorder(ODD)	39
Table (9):	Summary of common social communication enhancement strategies.	46
Table (10):	Summary of common behavioural modification strategies for management of childhood emotional and behavioural disorder	47
Table (11):	Summary of common risk factors for development of childhood emotional and behavioural disorder.....	51
Table (12):	Major classes of medications used in management of childhood emotional and behavioural disorders.	61
Table (13):	Description of personal and clinical data among group 1 cases. (SSNS).....	82
Table (14):	Description of baseline Depression, Anxiety, IQ and CBCL among group 1 cases. (SSNS)	82
Table (15):	Description of depression, anxiety, and CBCL at follow up among group 1 cases. (SSNS)	83
Table (16):	Description of personal and clinical data among group 2 cases. (SDNS)	83
Table (17):	Description of baseline depression, anxiety, IQ and CBCL among group 2 cases. (SDNS)	84

Table (42):	Correlations between (age, disease duration, steroid therapy duration) and (depression, anxiety, CBCL and IQ) at baseline.	102
Table (43):	Correlations between (age, disease duration, steroid therapy duration) and (depression, anxiety, CBCL and IQ) at follow up.....	104

List of Figures

Fig. No.	Title	Page No.
Figure (1):	Important causes of incidence of nephrotic syndrome, in number per million population.....	9
Figure (2):	Schematic drawing of the glomerular barrier.....	12
Figure (3):	Forces determining capillary filtration with a high enough capillary hydrostatic pressure or a low enough intravascular oncotic pressure the amount of fluid filtered exceeds the maximal lymphatic flow and edema occurs in patients with nephrotic syndrome this causes a reduction in plasma volume with a secondary increase of sodium and water retention by the kidneys.....	14
Figure (4):	Comparison between cases at baseline and controls as regard depression, anxiety, IQ and CBCL.	90
Figure (5):	Comparisons between cases at follow up and controls as regard depression, anxiety and CBCL.	91
Figure (6):	Comparison between baseline and follow up depression, anxiety and CBCL among group 1 cases.	92
Figure (7):	Comparison between baseline and follow up depression, anxiety and CBCL among group 2 cases.	93
Figure (8):	Comparison between baseline and follow up depression, anxiety and CBCL among group 3 cases.	94
Figure (9):	Comparison between three study cases group as regards depression, anxiety, IQ and CBCL at baseline.....	99
Figure (10):	Comparison between three study cases group as regards depression, anxiety, and CBCL at follow up.....	101

List of Figures Cont...

Fig. No.	Title	Page No.
Figure (11):	Correlations between duration of steroid therapy and depression at baseline.....	103
Figure (12):	Correlations between duration of steroid therapy and depression at follow up.....	105

List of Abbreviations

Abb.	Full term
AAC	augmentative and alternative communication
ABA.....	Applied behaviour analysis
ADHD	Attention deficit hyperactivity disorder
APN	Arbeitsgemeinschaft für Paediatrische Nephrologie
ARBs	Angiotensin II receptor blockers
ASD.....	Autistic spectrum disorder
ASEBA.....	Achenbach System of Empirically Based Assessment
CBCL	Child Behavior Checklist
CBT.....	Cognitive behavioral therapy
CD.....	Conduct disorder
CDD	Childhood disintegrative disorder
DBD	Disruptive behavior disorders
DBP.....	Disruptive behavior problems
DM	Diabetes mellitus
DMDD.....	Disruptive mood dysregulation disorder
DSM.....	Diagnostic and Statistical Manual of Mental Disorders
EBP.....	Emotional and behavioral problems
ESRD	End stage renal disease
FCT.....	Functional communication training
FGS.....	Focal glomerulosclerosis
GAD	Generalized anxiety disorder
GFR.....	Glomerular filtration rate
GMV.....	Grey matter volume
HIV	Human Immune Deficiency Virus
HPA	Hypothalamic-Pituitary-Adrenal

List of Abbreviations Cont...

Abb.	Full term
ICD.....	International Classification of Diseases
IDDM.....	insulin-dependent diabetes mellitus
IQ.....	Intelligence quotient
ISKDC	International Study of Kidney Disease in Children
KDIGO.....	Kidney Disease: Improving Global Outcomes
LD	Learning disability
MCD.....	Minimal change disease
MHD	Mental health disorders
MHDs.....	Mental health diseases
min change	Minimal-change nephropathy
MN	Membranous nephropathy
MPGN.....	Membranoproliferative
MRI.....	Magnetic resonance imaging
NEPTUNE.....	Nephrotic Syndrome Study Network
NS	Nephrotic syndrome
NSAIDs.....	Non-steroidal anti-inflammatory drugs
NSCH.....	National survey of children's health
OCD	Obsessive-compulsive disorder
ODD	Oppositional defiance disorder
PCIT.....	Parent-Child Interaction Therapy
PDA.....	Pathological demand avoidance
PDD-NOS.....	Pervasive developmental disorder not otherwise specified
PSC	Pediatric Symptom Checklist
PTSD.....	Post-traumatic stress disorder
QOL	Quality of life
RRIBs	Repetitive interests and behaviors

List of Abbreviations Cont...

Abb.	Full term
SAD.....	Seasonal Affective Disorder
SCD.....	Social (pragmatic) communication disorder
SNRI	Serotonin-Norepinephrine Reuptake Inhibitor
SSNS.....	Steroid-sensitive nephrotic syndrome
VEGF	Vascular endothelial growth factor
VTE.....	Venous thromboembolism
WPPSI-v	Wechsler Preschool and Primary Scale of Intelligence – fifth Edition
