

Clinical and Radiographical evaluation of a light-cured resin modified calcium silicate as pulp medicament in primary teeth

A Randomized Clinical Trial

Thesis Submitted to the Faculty of Dentistry, Ain Shams
University in Partial Fulfillment of Requirements of the Doctor`s
degree in Pediatric Dentistry

By

Hani Saeed Abdullah

B.D.S (Thamar University-Yemen)

2006

M.Sc (Cairo University)

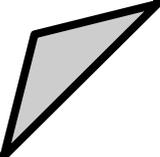

2015

Assistant Lecturer, Pediatric department and Dental Puplic Health

Faculty of Dentistry, Thamar University – Yemen

Faculty of Dentistry
Ain Shams University

2019

Supervisors

Dr. Amr Mahmoud Abd-Elaziz

Professor of Pediatric Dentistry and Dental Public Health

Faculty of Dentistry, Ain shams University

Dr. Mary Medhat Farid

Professor of Oral Radiology

Faculty of Dentistry, Ain shams University

Dr. Mariem Osama Wassel

Assistant Professor of Pediatric Dentistry and

Dental Public Health

Faculty of Dentistry, Ain-Shams University

صدق الله العظيم

Acknowledgement

First of all, I want to thank “**ALLAH**” for his generous gifts among which he gave me the strength to finish this thesis.

I would like to express my deepest grateful appreciation and gratitude to **Prof. Amr Mahmoud Abd-Elaziz**, Professor of Pediatric Dentistry and Dental Public Health, Faculty of Dentistry, Ain shams University, for his great help and support to put this thesis in an acceptable knowledgeable shape. I have learned from him how to believe in my future, work and myself.

I would like to gratefully acknowledge the support, supervision and kindness of **prof. Mary Medhat Farid**, Professor of Oral Radiology, Faculty of Dentistry, Ain shams University. Her moral support and continuous guidance enabled me to complete my work .

Also, I would like to thank **Dr. Mariem Osama Wassel**, Assistant Professor of Pediatric Dentistry and Dental Public Health, Faculty of Dentistry, Ain-Shams University, for her time, and guidance in editing this manuscript, guidance in developing the research idea and continuous insistence on perfection which made this work possible.

I would like to extend my thankful feeling to children and their parents who participate in this study, without their cooperation I could have not complete this work.

Hani Saeed Abdullah

Dedication

Firstly, I dedicate this work to my Parents.

Also, I dedicate this thesis to my lovely wife and my kids (Ayham, Aseel and Aleen).

Who are always representing

The ultimate support in my life

I wish them the best of all.

Table of Contents

No.	Chapter	Page
1	List of Tables	I
2	List of Figures	II
3	List of Abbreviations	VI
4	Introduction	1
5	Review of Literature	3
6	Aim of the Study	32
7	Subjects, Materials and Methods	33
8	Results	53
9	Discussion	93
10	Conclusion	103
11	Recommendations	104
12	Summary	105
13	References	107
14	Appendices	130
15	Arabic Summary	١

List of Tables

No.	Title	Page
1	Materials used in the study and their composition	38
2	age distribution for both groups.	54
3	Mean, standard deviation(SD), and P values of the age for both groups.	54
4	Gender distribution for both groups.	55
5	Clinical evaluation for both groups at 3 months interval.	56
6	Clinical evaluation for both groups at 6 months interval.	58
7	Clinical evaluation for both groups at 9 months interval.	60
8	Clinical evaluation for both groups at 12 months interval.	62
9	Radiographical evaluation for both groups at 3 months interval.	64
10	Radiographical evaluation for both groups at 6 months interval.	66
11	Radiographical evaluation for both groups at 9 months interval.	68
12	Radiographical evaluation for both groups at 12 months interval.	70
13	Correlation between clinical and radiographical results.	84
